These media texts manifest abstract concepts in a genre that has historically focused on exploring new ideas and frontiers, creating powerful media that helps audiences contemplate their existence as human beings.

Politicians at Night Gonen Dori-Hacohen, Eean Grimshaw, Menno H. Reijven, 2024 This book studies the interactions between presidential candidates and hosts on broadcast late-night talk shows in the United States. Using discourse analysis, the authors develop a comprehensive understanding of the entertainment-political interview as a cultural, interactional, and ideological genre--

Ion Implantation Technology - 92 D.F. Downey, M. Farley, K.S. Jones, G. Ryding, 2012-12-02 Ion implantation technology has made a major contribution to the dramatic advances in integrated circuit technology since the early 1970's. The ever-present need for accurate models in ion implanted species will become absolutely vital in the future due to shrinking feature sizes. Successful wide application of ion implantation, as well as exploitation of newly identified opportunities, will require the development of comprehensive implant models. The 141 papers (including 24 invited papers) in this volume address the most recent developments in this field. New structures and possible approaches are described. The implications for ion implantation technology as well as additional observations of needs and opportunities are discussed. The volume will be of value to all those who are interested in acquiring a more complete understanding of the current developments in ion implantation processes and comprehensive implant models.

Devin Booker: the Inspiring Story of One of Basketball's Rising Shooting Guards Clayton Geoffreys, 2018-11-13 Learn the Inspiring Story of the Phoenix Suns' Star Guard Devin Booker! Read on your PC, Mac, smartphone, tablet or Kindle device. Limited time offer: If you buy the print edition, you can keep the Kindle edition for yourself! In Devin Booker: The Inspiring Story of One of Basketball's Rising Shooting Guards, you will learn the incredible story of one of basketball's most exciting young shooting guards, Devin Booker. As the thirteenth overall pick in the 2015 Draft, Devin Booker became a prominent piece of the Suns franchise as they continue rebuilding post the Steve Nash and Mike D'antoni era. It's no surprise the Suns extended a five-year maximum contract for Booker in the summer of 2018. After all, he has been one of their most consistent players the last few years. At the time of this writing, expectations are high for Booker looking ahead. There is still a great deal of potential to actualize at the young age of twenty-two. It'll be exciting to follow Booker's journey as he continues to grow in the years to come. Here is a preview of what is inside this book: Childhood and Early Life High School and College Career Getting Drafted, Rookie Season, Breakout Year, Rise to Stardom The Max Player, Phoenix's New Face of the Franchise Booker's Personal Life Impact on Basketball Legacy and Future An excerpt from the book: In today's NBA, there are two things about a player that will always get scouts, coaches, and general managers raving. No, we are not talking about experience and stats. We are talking about youth and potential. When those two aspects meet in one prospect, it is almost impossible for any scout or coach to pass on a player like that. Time and time again, it has been proven that young players with potential will most likely end up not only as stars, but game-

changers. In 1995, the Minnesota Timberwolves did not make a mistake when they drafted an 18-year-old Kevin Garnett out of high school even though he had not played a single college game. The same could be said about Kobe Bryant, who got passed on by 12 teams in 1996. Any of those teams would have drafted him top overall had that draft been done over again. And we all know what happened in 2003 when the 18-year-old phenom LeBron James was taken top overall. There is no need to expound on the career LeBron has carved since the teenager first stepped on an NBA court. Obviously, all of those players were drafted at a very young age. But age was not the only factor as to why those teams took their chances when they drafted players that had not proven themselves in college. What was apparent was that they did not need to dominate in college because they already had enough potential to become stars in the NBA. But young and talented players do not always make a quick and easy transition to the pro leagues. While it only took until their second season in the league for Garnett, Bryant, and James to establish themselves as All-Stars, there have been some high school-to-pro players that did not become stars themselves. Nevertheless, teams will always gamble on a young player with a lot of potential because they know that, if they can hone them the right way, they can eventually pay dividends. The Giza Power Plant Christopher Dunn,1998-08-01 Did a highly advanced civilization exist in prehistory? Is the Giza Pyramid a remnant of their technology? Then, what was the power source that fueled such a civilization? The technology of harmonic resonance, claims renowned master craftsman and engineer Christopher Dunn. In a brilliant piece of reverse engineering based on twenty years of research, Dunn reveals that the Great Pyramid of Giza was actually a large acoustical device! By its size and dimensions, this crystal edifice created a harmonic resonance with the Earth and converted Earth's vibrational energies to microwave radiation. The author shows how the pyramid's numerous chambers and passageways were positioned with the deliberate precision to maximize its acoustical qualities. This may be the same technology discovered by Nikola Tesla and the solution to our own clean energy needs.

They have many probing questions for Mr. Booker, and he does his best to answer them intelligently. But are his answers really satisfactory, and what do the aliens think? And even more importantly, what do you think? This is not your typical alien abduction story, so hold onto your hat and try to keep an open mind!
