The Unknown Satanic Verses Controversy on Race and Religion Üner Daglier,2020-05-19 The worldwide controversy surrounding its first publication in 1988 and concurrent death threat against its author, Salman Rushdie, paradoxically led to a narrow understanding of The Satanic Verses, which focused on whether it is insulting to Islam and whether it should be banned. And despite piecemeal attention to its epistemic intricacies by students of postcolonial literature in the aftermath, The Satanic Verses’ essential opacity has never been sufficiently met. The Unknown Satanic Verses Controversy on Race and Religion now responds to this gap through painstakingly detailed attention to the totality of Rushdie’s text. Indeed it uniquely approaches The Satanic Verses’ attempt to mythicize race and migration, on the one hand, and secularize religion and Islam, on the other, from a perspective informed by the perennial debate on religion and politics, esoteric or coded writing in the history of political thought, especially in times of persecution, and Islamic criticism in contemporary world literature. Üner Daglier’s findings accord with another layer of interpretation that emphasizes Rushdie’s across-the-board critique of racial prejudice, penchant for cultural eclecticism, and bitterly skeptical treatment of the foundations of Submission and proposal for feminist Islamic reform, as the antidote for entrenched misogyny, in a world where philosophy is for the rare and religion for the many. They further convey Rushdie’s constant preoccupation with the nature of miracles and postmodern case for intersubjectivity as a criterion for openness to their validity.

Ministry Digest, Vol. 02, No. 10 Witness Lee, In this issue we will continue four lines of ministry. The first line--The History of the Lord's Recovery--contains chapters 12 through 15 of The Vital Groups, which are in volume 5 of The Collected Works of Witness Lee, 1994–1997. The chapters in this section speak of nourishing people with the unsearchable riches of Christ in His full ministry in the three stages and of how to contact people. The second line--Words for New Believers--continues with chapters 3 through 6 of Basic Principles of the Experience of Life, which are in volume 3 of The Collected Works of Witness Lee, 1963. The first two chapters in this section speak of the first experience of life and the way to experience life. The final two chapters then focus on the three lives and four laws within every Christian generally and on the law of life particularly. The third line--Maturing in Life--continues with chapters 21 through 23 of Knowing Life and the Church, which are in volume 1 of The Collected Works of Witness Lee, 1953. This line then continues with chapter 1 of a new book, The Subjective Experience of the Indwelling Christ, which is in volume 1 of The Collected Works of Witness Lee, 1983. The first three chapters in this section speak of the result of the work being based on the worker, of needing to be earnest and not loose in working for the Lord, and of the church and service. The last chapter in this section begins by speaking of the experience of Christ as life. The fourth line--The High Peak of the Divine Revelation--continues with chapters 3 through 6 of The Practical Way to Live a Life according to the High Peak of the Divine Revelation in the Holy Scriptures, which are in volume 2 of The Collected Works of Witness Lee, 1994–1997. The chapters in this section speak of seeing the unveiled truth of Christ's resurrection for the ultimate goal of God's economy, of living Christ for His magnification by the bountiful supply of the Spirit of Jesus Christ, of being conformed to the image of God's Son so that He might be the Firstborn among many brothers, and of building up the Body of Christ by growing into Him, the Head, in all things.

Satanic Diversion of the Black Race DR. D. K. OLUKOYA,2015-01-29 Satanic Diversion of the Black Race So what exactly is wrong with the black man? Why do they tell us strange stories? Why do people make statements like these? Why do some people also say, the average black man is stupid, organization wise? What is the explanation for our treasures that are being misused? Why should someone bring a piece of mirror and with it, collect fifty slaves? What is God's purpose for the black man according to the Scriptures' And what has kept the black man from fulfilling this purpose? What are the forces behind this satanic diversion? In the Bible, whenever the world has been in a crisis, God has always made a black person to appear on the scene, to show the way. Whenever God has a major step to take in spiritual history, a black man has always come along. Read through this book and gain knowledge.

RUNNING THE RACE GODSWORD GODSWILL ONU,

Demonic Grounds Katherine McKittrick, In a long overdue contribution to geography and social theory, Katherine McKittrick offers a new and powerful interpretation of black women’s geographic thought. In Canada, the Caribbean, and the United States, black women inhabit diasporic locations marked by the legacy of violence and slavery. Analyzing diverse literatures and material geographies, McKittrick reveals how human geographies are a result of racialized connections, and how spaces that are fraught with limitation are underacknowledged but meaningful sites of political opposition. Demonic Grounds moves between past and present, archives and fiction, theory and everyday, to focus on places negotiated by black women during and after the transatlantic slave trade. Specifically, the author addresses the geographic implications of slave auction blocks, Harriet Jacobs’s attic, black Canada and New France, as well as the conceptual spaces of feminism and Sylvia Wynter’s philosophies. Central to McKittrick’s argument are the ways in which black women are not passive recipients of their surroundings and how a sense of place relates to the struggle against domination. Ultimately, McKittrick argues, these complex black geographies are alterable and may provide the opportunity for social and cultural change. Katherine McKittrick is assistant professor of women’s studies at Queen’s University.

The Evil Inclination in Early Judaism and Christianity Ishay Rosen-Zvi,2021-01-21 One of the central concepts in rabbinic Judaism is the notion of the Evil Inclination, which appears to be related to similar concepts in ancient Christianity and the wider late antique world. The precise origins and understanding of the idea, however, are unknown. This volume traces the development of this concept historically in Judaism and assesses its impact on emerging Christian thought concerning the origins of sin. The chapters, which cover a wide range of sources including the Bible, the Ancient Versions, Qumran, Pseudepigrapha and Apocrypha, the Targums, and rabbinic and patristic literature, advance our understanding of the intellectual exchange between Jews and Christians in classical Antiquity, as well as the intercultural exchange between these communities and the societies in which they were situated.

Explaining Evil J. Harold Ellens,2011-02-18 In this three-volume set, international scholars from across a broad spectrum of scholarly fields examine the concept of evil throughout history and world cultures from religious, scientific, psychological, and political perspectives. The manifestation of evil has provided a convenient theme for popular culture entertainment, ranging from the classic film The Exorcist, to almost all of Stephen King's horror novels, to video games such as Resident Evil. Unfortunately, dealing with—and attempting to overcome—the forces of evil is a pervasive problem in the real world as well. Explaining Evil addresses incidents of evil from ancient times to modern day around the globe. Concepts of evil within the big three religions—Christianity, Judaism, and Islam—are examined, as well as in Chinese philosophy and Native American beliefs. The political or national expressions of evil are explored, such as the axis of evil that culminated in World War II. These volumes identify the causes and effects of evil, and suggest possible remedies to humanity's inescapable flaw.

Race and Rhyme Love Lazarus Sechrest,2022-08-23 A leading womanist biblical scholar reads passages from the New Testament in dialogue with modern-day issues of racial justice. The narratives and letters of the New Testament emerged from a particular set of historical contexts that differ from today’s, but they resonate with us because of how the issues they raise “rhyme” with subjects of contemporary relevance. Listening for these echoes of the present in the past, Love Sechrest utilizes her cultural experience and her perspective as a Black woman scholar to reassess passages in the New Testament that deal with intergroup conflict, ethnoracial tension, and power dynamics between dominant and minoritized groups. After providing an overview of womanist biblical interpretation and related terminology, Sechrest utilizes an approach she calls “associative hermeneutics” to place select New Testament texts in dialogue with modern-day issues of racial justice. Topics include: antiracist allyship and Jesus’s interaction with marginalized individuals in the Gospel of Matthew cultural assimilation and Jesus’s teachings about family and acceptance in the Gospel of Luke gendered stereotypes and the story of the Samaritan woman in the Gospel of John the experience of Black women

and girls in the American criminal justice system and the woman accused of adultery in the Gospel of John group identity and the incorporation of Gentiles into the early Jesus movement in Acts privilege and Paul's claims to apostolic authority in 2 Corinthians coalition-building between diverse groups and the discussion of unity in Ephesians government's role in providing social welfare and early Christians' relationship to the Roman Empire in Romans and Revelation Through these creative and illuminating connections, Sechrest offers a rich bounty of new insights from Scripture—drawing out matters of justice and human dignity that spoke to early Christians and can speak still to Christians willing to listen today.

Race and Displacement Maha Marouan, Merinda Simmons, 2013-09-30 Race and Displacement captures a timely set of discussions about the roles of race in displacement, forced migrations, nation and nationhood, and the way continuous movements of people challenge fixed racial definitions. The multifaceted approach of the essays in Race and Displacement allows for nuanced discussions of race and displacement in expansive ways, exploring those issues in transnational and global terms. The contributors not only raise questions about race and displacement as signifying tropes and lived experiences; they also offer compelling approaches to conversations about race, displacement, and migration both inside and outside the academy. Taken together, these essays become a case study in dialogues across disciplines, providing insight from scholars in diaspora studies, postcolonial studies, literary theory, race theory, gender studies, and migration studies. The contributors to this volume use a variety of analytical and disciplinary methodologies to track multiple articulations of how race is encountered and defined. The book is divided by editors Maha Marouan and Merinda Simmons into four sections: "Race and Nation" considers the relationships between race and corporality in transnational histories of migration using literary and oral narratives. Essays in "Race and Place" explore the ways spatial mobility in the twentieth century influences and transforms notions of racial and cultural identity. Essays in "Race and Nationality" address race and its configuration in national policy, such as racial labeling, federal regulations, and immigration law. In the last section, "Race and the Imagination" contributors explore the role imaginative projections play in shaping understandings of race. Together, these essays tackle the question of how we might productively engage race and place in new sociopolitical contexts. Tracing the roles of race from the corporeal and material to the imaginative, the essays chart new ways that concepts of origin, region, migration, displacement, and diasporic memory create understandings of race in literature, social performance, and national policy. Contributors: Regina N. Barnett, Walter Bosse, Ashon T. Crawley, Matthew Dischinger, Melanie Fritsh, Jonathan Glover, Delia Hagen, Deborah Katz, Kathrin Kottemann, Abigail G.H. Auto Racing Comes of Age Robert Dick, 2013-05-03 The first quarter of the 20th century was a time of dramatic change in auto racing, marked by the move from the horseless carriage to the supercharged Grand Prix racer, from the gentleman driver to the well-publicized professional, and from the dusty road course to the autodrome. This history of the evolution of European and American auto racing from 1900 to 1925 examines transatlantic influences, early dirt track racing, and the birth of the twin-cam engine and the straight-eight. It also explores the origins of the Bennett and Vanderbilt races, the early career of "America's Speed King" Barney Oldfield, the rise of the speedway specials from Marmon, Mercer, Stutz and Duesenberg, and developments from Peugeot, Delage, Ballot, Fiat, and Bugatti. This informative work provides welcome insight into a defining period in motorsports.

New World A-Coming Judith Weisenfeld, 2018-11-06 When Joseph Nathaniel Beckles registered for the draft in the 1942, he rejected the racial categories presented to him and persuaded the registrar to cross out the check mark she had placed next to Negro and substitute Ethiopian Hebrew. God did not make us Negroes, declared religious leaders in black communities of the early twentieth-century urban North. They insisted that so-called Negroes are, in reality, Ethiopian Hebrews, Asiatic Muslims, or raceless children of God. Rejecting conventional American racial classification, many black southern migrants and immigrants from the Caribbean embraced these alternative visions of black history, racial identity, and collective future, thereby reshaping the black religious and racial landscape. Focusing on the Moorish Science Temple, the Nation of Islam, Father Divine's Peace Mission Movement, and a number of congregations of Ethiopian Hebrews, Judith Weisenfeld argues that the appeal of these groups lay not only in the new religious opportunities membership provided, but also in the novel ways they formulated a religio-racial identity. Arguing that members of these groups understood their religious and racial identities as divinely-ordained and inseparable, the book examines how this sense of self shaped their conceptions of their bodies, families, religious and social communities, space and place, and political sensibilities. Weisenfeld draws on extensive archival research and incorporates a rich array of sources to highlight the experiences of average members.--Publisher's description.

The Devil in the New World Fernando Cervantes, 1997-01-01 Until the end of the eighteenth century, missionaries to the New World agreed that diabolism lay at the heart of the Native American belief system and at the root of their own failure to establish a church purged of Satan and pagan superstition. The Devil mattered, and he occupied a central place in discussions of all non-Christian religious systems and in the bitter disputes over how to combat them. In this elegant and sensitive analysis, Fernando Cervantes gives the Devil his due, illuminating a neglected aspect of the European encounter with America and setting the full history of the spiritual conquest in a rich and original context. He reveals how Native Americans reinterpreted the view of Christianity presented to them, how they refused to see the world as the missionaries saw it. Drawing on archival sources, he brings into clear focus the complex, often bewildering, and sometimes tragic clash between a theology that posited the existence of competing forces and one that insisted that all deities were multiform beings within which good and evil coexisted. He deals in compelling and persuasive detail with the social history of the interaction between the two cultures, explaining not only the impact of European ideas upon the New World but the influence of diabolism on the ideology of the Old. And he provides a subtle account of the role of diabolism in the emerging baroque culture of the seventeenth and eighteenth centuries that strikingly challenges conventional explanations of the growth of skepticism in the period.
