Diamonds Penny Proddow, Marion Fasel,1996 Bernard Williams is one of the most influential figures in recent ethical theory, where he has set a considerable part of the current agenda. In this collection, a distinguished international team of philosophers who have been stimulated by Williams' work give new responses to it. The topics covered include equality, consistency, comparisons between science and ethics, integrity, moral reasons, the moral system, and moral knowledge. Williams himself then provides a substantial reply, which in turn shows both the current directions of his own thought and also his present view of his earlier work (such as that on utilitarianism).

The Book of Diamonds Joan Y. Dickinson,2012-08-02 Perhaps the most prized of all gems, diamonds have a long and fascinating history. In this engrossing, profusely illustrated volume, that history is covered in detail — from early discoveries in the Golconda mines of India (probably the site of the first diamonds ever unearthed) and digs in Brazil, to the South African diamond rush and development of major mining companies. Over 200 illustrations include step-by-step photos showing how these valuable stones are mined and the intricacies of cutting and faceting, while reproductions of museum paintings and photographs depict famous individual diamonds as well as outstanding rings, bracelets, brooches, pins, earrings, watches, tiaras, and other traditional and modern diamond pieces. Here also are stories of the most famous and infamous diamonds: the Koh-i-Noor in the Tower of London, the Hope in the Smithsonian Institution, the Regent in the Louvre, the Orloff in the Kremlin, and many other celebrated jewels. More than a dramatically told story of diamonds, this volume will also serve as a practical guide for anyone who owns a diamond or plans to buy one. It explains and illustrates different diamond cuts, the role of carats, and how to buy diamonds — for sentiment, beauty, show, flawlessness, or investment. Anyone who has ever been captivated by the matchless brilliance of these rare gems will find this book an informative, highly readable addition to their personal library.

Diamond Jewelry Diana Scarisbrick,2019-10-15 A gloriously illustrated social history of diamond jewelry, told through the stories of the European rulers and socialites who commissioned and wore them. Diamonds have long symbolized political power and authority in Europe. This book explores the individuals who commissioned and wore extraordinarily precious diamond ornaments from the mid-fourteenth century to the present day. Exquisite paintings and breathtaking photography highlight the diamonds of figures as enduring as Louis XIV of France and Queen Elizabeth I of Great Britain, as well as screen icons such as Elizabeth Taylor. From Lisbon to London and Stockholm to St. Petersburg, these figures used diamond jewelry to reinforce their power. Like royal dress, diamonds were worn to dazzle and impress—at weddings, coronations, christenings, and state visits—and were presented as gifts, which often proved

remarkably successful as instruments of diplomacy. More than three hundred illustrations capture the changing styles of diamond jewelry that mirror the trends of the time: late Gothic naturalism, the culture of the Renaissance, Baroque splendor, Rococo elegance and the imperial grandeur of the First and Second Napoleonic Empires. This book offers a fascinating overview of one of the world's most iconic gems.

Diamonds Diana Scarisbrick,Benjamin Zucker,2019 Accompanying an exhibition at Les Enluminures, New York, this lavish catalogue presents an extraordinary collection of diamonds from the king of gems, Benjamin Zucker, one of New York's leading dealers in diamonds and precious stones. Benjamin Zucker's remarkable story unfolds over three generations of diamond dealers. Arriving in New York in 1941, he had the benefit of the training of his grandfather, a leading expert in uncut diamonds in Antwerp, and his uncle, one of the foremost dealers of diamonds in the Far East. Some of the world's most famous diamonds, such as the Wittelsbach Diamond, passed through the hands of the Zucker family. Armed with the family know-how, Benjamin Zucker formed a collection that has taken a lifetime of patience, money, and unquenchable enthusiasm, according to Diana Scarisbrick. As Mr. Zucker himself says diamonds will always be a magical window facing the invisible world. Put together over more than forty-five years, this truly rare and immensely valuable collection includes thirty-five precious jewels mostly made for European patrons - rings, brooches, hairpins, earrings. It tells the story of the Indian diamond over a period of nearly 600 years, ending before the discovery of mines in Brazil, a source that displaced India and inaugurated a new age of diamonds. Starting with the octahedral diamond, the collection includes outstanding examples of world-class importance showing how jewelers gradually captured more and more of the allure of these indomitable gems, evolving from point to table to rose to brilliant cuts. The success of the brilliant cut (close to our cuts today) eclipsed the earlier shapes, many of which were recut to modernize them, with the result that the earlier cuts of old mine diamonds included here are exceedingly rare. Most of these jewels are published. Many of them have been exhibited in prestigious museums such as the Walters Art Museum, the Yale Peabody Museum of Natural History, the Museum of Fine Arts, Houston, and most recently the Metropolitan Museum of Art. As assembled in the present collection they have never been displayed together and have never been offered for sale. This lavish publication by the leading scholar in the field accompanies the exhibition. It is written by Diana Scarisbrick, celebrated jewelry historian and author of *Diamond Jewelry: Seven Hundred Years of Glory and Glamour* (September 2019).

Faceting History: Cutting Diamonds and Colored Stones Glenn Klein,2005-10-13 The author of, *FACETING HISTORY: CUTTING DIAMONDS AND COLORED STONES* has for a long time had a deep interest in learning how the early faceters (cutters) of diamonds and colored gemstones were able to complete their work. What methods did they use? What equipment did they have to make success possible? How soon did they discover how to complete the many phases necessary to accomplish their work? How did the equipment and methods differ between fashioning diamonds and faceting colored stones? These are just a few of the questions that the author wanted to find the answers for. In looking for answers to these and other questions, the author found that there were bits and pieces of information available in many previous books, but there was not a good book available that would answer most of his questions. Upon hearing the author's remarks about this fact, one of the librarians at the wonderful library located at the Gemological Institute of America's Carlsbad campus said

that if such a book was not available, maybe you should write the book! Well, the author had been thinking of doing just that, but the remark caused the author to see the light and agree to get started on the project. Little did he know then that the project would require many months of eight hour days over seven day weeks to get the book completed. He decided to write a book that would answer these and other related questions that he had. The thought also occurred to him that such a book would be a valuable volume to be placed in libraries of individual faceters around the world. He realized that such a book would also be of great value to anyone who works behind a Jewelry store counter. A successful sales person is one who is knowledgeable about the products that they are selling. A book of faceting information would be extremely valuable if read and re-read from time to time. A customer in the Jewelry store will no doubt be favorably impressed by a sales presentation that is made with the use of interesting and informative information about diamonds and the various colored gemstones. The customer will be convinced that the sales person knows about what they are talking. The author has spent nearly three years on the project of researching the GIA library and other libraries, along with the extensive personal library of gemstone related books that he personally possesses. Many conflicting reports were noted in his study. He has made the statements in his book reflect the most commonly accepted opinions, of the most respected authors' works that he has found in his research. History is only obtainable from the earlier works of other authors. We cannot go back to the long past centuries ourselves, to see first hand what really happened and when it happened. A study of faceting history requires making the best choices of the information that is available. This completed book answers questions as to why the fashioning of diamonds was/is so different from the faceting of colored gemstones. The book compares the needed equipment and the methods that have brought the greatest successes. In addition, a great deal of other information connected to faceting is included. There are seven chapters in the book and there are over 125 photographs of the early equipment and methods that were used. The photographs show the faceters, the workroom conditions, and the tools and equipment that they used to complete beautiful and lasting gemstones. The book chapters are titled: An Introduction to Faceting, Early Man's Stone Appreciation, Diamond Fashioning Procedure and Equipment, Colored Stone Faceting Procedure and Equipment, The Evolution of Cut Designs, Famous and Historic Gemstones, Sources of Diamond and Colored Stone Rough, and lastly, Advances in Faceting Over the Past One Hundred Years. By books end, the reader will be well informed as to what is r

Diamonds: Diamond Stories Natural Diamond Council, 2021-10-01 Formed billions of years ago deep below the surface of the earth, natural diamonds have always had an ethereal mysticism about them. Once reserved only for royals, red carpets, and life's most celebratory moments, diamonds were seen as symbols of wealth and prosperity that only few could access. But with a new century comes a new expression of luxury, as a new crop of young designers and heritage

jewelry houses alike including Sabyasachi, Messika, Anita Ko, Boucheron, and Fernando Jorge are celebrating natural diamonds as an everyday indulgence. Today's tastemakers are incorporating diamonds into their designs in unexpected ways, unafraid to play around with interesting cuts and colorful hues.
