Statistical Data Cleaning with Applications in R Mark van der Loo,Edwin de

Jonge,2018-04-23 A comprehensive guide to automated statistical data cleaning The production of clean data is a complex and time-consuming process that requires both technical know-how and statistical expertise. Statistical Data Cleaning brings together a wide range of techniques for cleaning textual, numeric or categorical data. This book examines technical data cleaning methods relating to data representation and data structure. A prominent role is given to statistical data validation, data cleaning based on predefined restrictions, and data cleaning strategy. Key features: Focuses on the automation of data cleaning methods, including both theory and applications written in R. Enables the reader to design data cleaning processes for either one-off analytical purposes or for setting up production systems that clean data on a regular basis. Explores statistical techniques for solving issues such as incompleteness, contradictions and outliers, integration of data cleaning components and quality monitoring. Supported by an accompanying website featuring data and R code. This book enables data scientists and statistical analysts working with data to deepen their understanding of data cleaning as well as to upgrade their practical data cleaning skills. It can also be used as material for a course in data cleaning and analyses.

Smile at Fear Chogyam Trungpa,2010-10-05 Many of us, without even realizing it, are dominated by fear. We might be aware of some of our fears—perhaps we are afraid of public speaking, of financial hardship, or of losing a loved one. Chögyam Trungpa shows us that most of us suffer from a far more pervasive fearfulness: fear of ourselves. We feel ashamed and embarrassed to look at our feelings or acknowledge our styles of thinking and acting; we don't want to face the reality of our moment-to-moment experience. It is this fear that keeps us trapped in cycles of suffering, despair, and distress. Chögyam Trungpa offers us a vision of moving beyond fear to discover the innate bravery, trust, and delight in life that lies at the core of our being. Drawing on the Shambhala Buddhist teachings, he explains how we can each become a spiritual warrior: a person who faces each moment of life with openness and fearlessness. The ultimate definition of bravery is not being afraid of who you are, writes Chögyam Trungpa. In this book he offers the insights and strategies to claim victory over fear.

The Path Is the Goal Chogyam Trungpa, 2011-06-07 According to the Buddha, no one can attain basic sanity or enlightenment without practicing meditation. The teachings given here on the outlook and technique of meditation provide the foundation that every practitioner needs to awaken as the Buddha did. Trungpa teaches us to let go of the urge to make meditation serve our ambition; thus we can relax into openness. We are shown how the deliberate practice of mindfulness develops into contrived awareness, and we discover the world of insight that awareness reveals. We learn of a subtle psychological stage set that we carry with us everywhere and unwittingly use to structure all our experience—and we find that meditation gradually carries us beyond this and beyond ego altogether to the experience of unconditioned freedom.

The Wisdom of No Escape Pema Chödrön, 2018-07-31 The “down-to-earth, unsentimental, [and] high-humored” Pema Chödrön classic on learning to face our lives just as they are (Los Angeles Times) It's true, as they say, that we can only love others when we first love ourselves—and we can only experience real joy when we stop running from pain. The key to understanding these truisms is simple but not easy: we must learn to open ourselves up to life in all its manifestations. Here, spiritual teacher and *When Things Fall Apart* author Pema Chödrön presents a uniquely practical approach to doing just that, showing us the true value in having “no escape” from the ups and downs of life. Drawing from her own experiences with marriage, divorce, motherhood, and more, Pema reveals that when we embrace the happiness and heartache, the inspiration and confusion—all the

twists and turns that are part of natural life—we can begin to discover a true wellspring of courageous love that’s been within our hearts all along. As she writes in chapter four: “Our neurosis and our wisdom are made out of the same material. If you throw out your neurosis, you also throw out your wisdom.”
