Chapters cover the entire range of site content: color schemes and menu formats and the pivotal roles they play; incorporating essentials such as company history, careers, site maps, search engines, and FAQs; choosing one global portal versus country-specific content; encouraging and retaining traffic flow; adding depth to the Web experience with audio, video, and animation; maximizing site functionality for online shopping or software updates; and much more. Step into the digital age with expert help from *The Art of Digital Branding*. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

[The Art of Screen Time](#) Anya Kamenetz,2018-01-30 Finally: an evidence-based, reassuring guide to what to do about kids and screens, from video games to social media. Today's babies often make their debut on social media with the very first sonogram. They begin interacting with screens at around four months old. But is this good news or bad news? A wonderful opportunity to connect around the world? Or the first step in creating a generation of addled screen zombies? Many have been quick to declare this the dawn of a neurological and emotional crisis, but solid science on the subject is surprisingly hard to come by. In *The Art of Screen Time*, Anya Kamenetz -- an expert on education and technology, as well as a mother of two young children -- takes a refreshingly practical look at the subject. Surveying hundreds of fellow parents on their practices and ideas, and cutting through a thicket of inconclusive studies and overblown claims, she hones a simple message, a riff on Michael Pollan's well-known food rules: Enjoy Screens. Not too much. Mostly with others. This brief but powerful dictum forms the backbone of a philosophy that will help parents moderate technology in their children's lives, curb their own anxiety, and create room for a happy, healthy family life with and without screens.

Color photographs display unique touches, from an appealing craft-fair find placed on a bedside table to cheery, fun patterns, including a circus-themed pillow and bright striped bedspread. Best of all are the hundreds of tips for pampering your guests, including comfortable seating and nice lighting, privacy, and small gifts such as flowers and fruit baskets. There's even a section on how to make a bathroom guestworthy. Has some great tips.--Baltimore Sun
