Torben Pedersen, Lydia Bals, Peter D. Ørberg Jensen, Marcus M. Larsen

Practical Ethics Peter Singer, 2011-02-21 For thirty years, Peter Singer's *Practical Ethics* has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

Living with Lead Bradley D. Snow,2017-07-31 The Coeur d'Alenes, a twenty-five by ten mile portion of the Idaho Panhandle, is home to one of the most productive mining districts in world history. Historically the globe's richest silver district and also one of the nation's biggest lead and zinc producers, the Coeur d'Alenes' legacy also includes environmental pollution on an epic scale. For decades local waters were fouled with tailings from the mining district's more than one hundred mines and mills and the air surrounding Kellogg, Idaho was laced with lead and other toxic heavy

metals issuing from the Bunker Hill Company's smelter. The same industrial processes that damaged the environment and harmed human health, however, also provided economic sustenance to thousands of local residents and a string of proud, working-class communities. Living with Lead endeavors to untangle the costs and benefits of a century of mining, milling, and smelting in a small western city and the region that surrounds it.

Young Guns Eric Cantor, Paul Ryan, Kevin McCarthy, 2010-09-14 America urgently needs a new direction. But who will provide it? The time has come to move the country forward with a clear agenda based on common sense for the common good. THERE IS A BETTER WAY. Make no mistake: Congressmen Eric Cantor, Paul Ryan, and Kevin McCarthy are proud Republicans. But they believe the party had lost sight of the ideals it believes in, like economic freedom, limited government, the sanctity of life, and putting families first. This isn't your grandfather's Republican party. These Young Guns of the House GOP—Cantor (the leader), Ryan (the thinker), and McCarthy (the strategist)—are ready to take their belief in the principles that have made America great and translate it into solutions that will make the future even better, solutions that will create private sector jobs, maximize individual freedom, and establish a better world for our children. This groundbreaking book is a call to action that sets forth a plan for growth, opportunity, and commitment that will propel this country to prosperity once again. Together, the Young Guns are changing the face of the Republican party and giving us a new road map back to the American dream.
