**Beyond the Charts** Bruce Haring, 2000 This book takes a look at the shocking war being waged over your CD collection, a struggle that will determine who controls popular music - and to a large extent, popular culture - in the coming years. It's a battle of multinational corporate giants versus Internet entrepreneurs working out of their bedrooms, challenging the fat cats who have built fortunes on the bones of underpaid musicians. It's also a war for the hearts and minds of a new generation and a culture that doesn't feel the need to hold a plastic disc in its hands to enjoy music.

**E-music** James Maguire, 2000 MP3 and other digital music technologies have enabled the Internet to become an increasingly popular medium for instant delivery of music. This text teaches how to download files, use MP3 players, and edit and manage sound files.
