We hope to inspire teachers to expand beyond the usual ensemble offerings to create a culture of unique creativity at their school. The book will primarily draw upon the authors' experiences developing and implementing the music technology program at Lebanon High School, one of the nation's largest secondary-level programs, and courses at New York University and Montclair State University. While the lesson templates can be used with any hardware and software setup, the book uses the popular digital audio workstation Ableton Live for specific examples and screenshots--
