Eugene H. Pool

Heroic Women of the Art World Eugene H. Pool, 2020-01-20 Painters, a sculptor, an architect, a photographer, a poet in light, a cop, a conservator, even a spy: inspiring life stories of 16 remarkable women of art from the Renaissance to present. -- adapted from back cover.

Making a Prince's Museum Carole Paul, Alberta Campitelli, Getty Research Institute, 2000 In 1775 Prince Marcantonio Borghese IV and the architect Antonio Asprucci embarked upon a decorative renovation of the Villa Borghese. Initially their attention focused on the Casino, the principal building at the villa, which had always been a semi-public museum. By 1625 it housed much of the Borghese's outstanding collection of sculpture. Integrating this statuary with vast baroque ceiling paintings and richly ornamented surfaces, Asprucci created a dazzling and unified homage to the Borghese family, portraying its legendary ancestors as well as its newly born heir. In this book, Carole Paul reads the inventive decorative program as a set of exemplary scenes for the education of the ideal Borghese prince. Her wide-ranging essay also situates the Villa Borghese among the sumptuous palaces and suburban villas of Rome's collectors of antiquities and outlines the renovated Casino's pivotal role in the historic transition from the princely collection to the public museum. Rounding out this volume is a catalog of the Getty Research Institute's fifty-nine drawings for the refurbishing of the Villa Borghese and Alberta Campitelli's discussion of sketches for the short-lived Museo di Gabii, the Villa's other antiquities museum.

Digging for Richard III: The Search for the Lost King (Revised and Expanded)

Mike Pitts,2015-09-08 As gripping as any detective fiction. Proof that one doesn't need to be fascinated with Richard III to be enthralled by the story of his body's discovery. —Publisher's Weekly In August 2012 a search began, and on February 4, 2013, a team from Leicester University delivered its verdict to a mesmerized press room and to the world: they had found the remains of Richard III, whose legacy was perhaps the most contested of all British monarchs. Prior to this major discovery, there had been little new information about Richard III for some time. With no new evidence to fuel it, the debate over what kind of man he might have been seemed to have stalled. Thus the story of the discovery of Richard III is a story of the value of archaeology—careful analysis of physical evidence backed up by the latest science and technology—and how it can change our understanding of history. Firsthand accounts from the team that found the king, along with photographs from the author's own archives and an expanded epilogue incorporating new DNA evidence, augment this compelling detective story as the evidence is uncovered.

Starbucked Taylor Clark,2007-11-05 STARBUCKED will be the first book to explore the incredible rise of the Starbucks Corporation and the caffeine-crazy culture that fueled

its success. Part Fast Food Nation, part Bobos in Paradise, STARBUCKED combines investigative heft with witty cultural observation in telling the story of how the coffeehouse movement changed our everyday lives, from our evolving neighborhoods and workplaces to the ways we shop, socialize, and self-medicate. In STARBUCKED, Taylor Clark provides an objective, meticulously reported look at the volatile issues like gentrification and fair trade that distress activists and coffee zealots alike. Through a cast of characters that includes coffee-wild hippies, business sharks, slackers, Hollywood trendsetters and more, STARBUCKED explores how America transformed into a nation of coffee gourmets in only a few years, how Starbucks manipulates psyches and social habits to snare loyal customers, and why many of the things we think we know about the coffee commodity chain are false.

Willtown Martha A. Zierden, Ronald W. Anthony, Suzanne Cameron Linder, 1999-07-01 Willtown was founded in the late 17th century on the banks of the South Edisto River, but the movement of the Willtown Church in the 1760s to another location marked the demise of the town. Hugh C. Lane Jr. encouraged The Charleston Museum in its research in and around the Willtown area, asking the question, Why did Willtown fail? Our serendipitous discovery of James Stobo's rice plantation a mile from Willtown revealed a site remarkable in its pristine preservation, the clarity of its stratigraphic record, the number and types of artifacts recovered, and in the complexity of its architectural detail.--Introduction, p. 1.

Outsourcing Sovereignty Paul R. Verkuil, 2007-12-19 Reliance on the private military industry and the privatization of public functions has left our government less able to govern effectively. When decisions that should have been taken by government officials are delegated (wholly or in part) to private contractors without appropriate oversight, the public interest is jeopardized. Books on private military have described the problem well, but they have not offered prescriptions or solutions this book does.

Government by Contract Jody Freeman, Martha Minow, 2009-02-28 The dramatic growth of government over the course of the twentieth century since the New Deal prompts concern among libertarians and conservatives and also among those who worry about government's costs, efficiency, and quality of service. These concerns, combined with rising confidence in private markets, motivate the widespread shift of federal and state government work to private organizations. This shift typically alters only who performs the work, not who pays or is ultimately responsible for it. "Government by contract" now includes military intelligence, environmental monitoring, prison management, and interrogation of terrorism suspects. Outsourcing government work raises questions of accountability. What role should costs, quality, and democratic oversight play in contracting out government work? What tools do citizens and consumers need to evaluate the effectiveness of government contracts? How can the work be structured for optimal performance as well as compliance with public values? Government

by Contract explains the phenomenon and scope of government outsourcing and sets an agenda for future research attentive to workforce capacities as well as legal, economic, and political concerns.
