**To Selena, with Love** Chris Perez, 2013-11-05 Chris Perez tells the story of his relationship with music superstar Selena in this heartfelt tribute. One of the most compelling and adored superstars in Latin music history, Selena was nothing short of a phenomenon who shared all of herself with her millions of devoted fans. Her tragic murder, at the age of twenty-three, stripped the world of her talent and boundless potential, her tightly-knit family of their beloved angel, and her husband, Chris Perez, of the greatest love he had ever known. For over a decade, Chris held onto the only personal thing he had left from his late wife—the touching and sometimes painful memories of their very private bond. Now, for the first time, Chris opens up about their unbreakable friendship, their forbidden relationship, and their blossoming marriage that was cut short. Chris’s powerful story gives a rare glimpse into Selena’s sincerity and vulnerability when falling in love, strength and conviction when fighting for that

love, and absolute resilience when finding peace and normalcy with her family's acceptance of the only man she called her husband. While showcasing a side of Selena that has never been disclosed before and clarifying certain misconceptions about her life and death, *To Selena, with Love* is an everlasting love story that immortalizes the heart and soul of an extraordinary, unforgettable, and irreplaceable icon. This commemorative edition includes photos and a special chapter detailing the author's reflection since writing the book.

*The Upstairs Wife* Rafia Zakaria, 2016-01-05 A memoir of Karachi through the eyes of its women  
An Indies Introduce Debut Authors Selection For a brief moment on December 27, 2007, life came to a standstill in Pakistan. Benazir Bhutto, the country's former prime minister and the first woman ever to lead a Muslim country, had been assassinated at a political rally just outside Islamabad. Back in Karachi—Bhutto's birthplace and Pakistan's other great metropolis—Rafia Zakaria's family was suffering through a crisis of its own: her Uncle Sohail, the man who had brought shame upon the family, was near death. In that moment these twin catastrophes—one political and public, the other secret and

intensely personal—briefly converged. Zakaria uses that moment to begin her intimate exploration of the country of her birth. Her Muslim-Indian family immigrated to Pakistan from Bombay in 1962, escaping the precarious state in which the Muslim population in India found itself following the Partition. For them, Pakistan represented enormous promise. And for some time, Zakaria's family prospered and the city prospered. But in the 1980s, Pakistan's military dictators began an Islamization campaign designed to legitimate their rule—a campaign that particularly affected women's freedom and safety. The political became personal when her aunt Amina's husband, Sohail, did the unthinkable and took a second wife, a humiliating and painful betrayal of kin and custom that shook the foundation of Zakaria's family but was permitted under the country's new laws. The young Rafia grows up in the shadow of Amina's shame and fury, while the world outside her home turns ever more chaotic and violent as the opportunities available to post-Partition immigrants are dramatically curtailed and terrorism sows its seeds in Karachi. Telling the parallel stories of Amina's polygamous marriage and Pakistan's hopes and betrayals, *The Upstairs Wife* is an intimate exploration of the disjunction

between exalted dreams and complicated realities.

The Architecture of the French Enlightenment Allan Braham,1989-01-01 Allan Braham's comprehensive treatment of this brilliant and complex period introduces the reader to the major buildings, architects, and architectural patrons of the day. At the same time, it explores the broader determinants of architectural production: the rapid economic expansion of Paris and the main provincial centers and the increasing demand for improved public amenities--theaters, schools, markets, and hospitals. This generously illustrated book provides a vivid commentary on society and manners in pre-Revolutionary France.

*Chinese Maps* Richard Joseph Smith, 1996 For nearly two thousand years the Chinese Emperor, self-proclaimed ruler of 'All under Heaven', demanded the obedience not only of his subjects within China but also of peoples throughout the known world. Maps played a crucial role in the administration of this vast system of states. Charts of foreign lands and images of the 'barbarians' that populated them presented the world as the Chinese wanted it to be seen: with the Middle Kingdom as lord and

other states as vassals paying tribute to it. In this richly illustrated history, Richard J. Smith shows how the Chinese depicted foreign lands and peoples in maps and encyclopedias through the centuries. He discusses the debates surrounding the production of maps, as well as their technical aspects and political, military and administrative uses. Reproductions of many of the most beautiful and noteworthy maps of the Chinese world accompany the text. More than simple reflections of the lands and peoples they depict, these maps and illustrations are documents that reveal the evolving values of the grand and powerful society that produced them

*The Brighter Side Of Human Nature* Alfie Kohn,2008-08-05 Drawing from hundreds of studies in half a dozen fields, *The Brighter Side of Human Nature* makes a powerful case that caring and generosity are just as natural as selfishness and aggression. This lively refutation of cynical assumptions about our species considers the nature of empathy and the causes of war, why we (incorrectly) explain all behavior in terms of self-interest, and how we can teach children to care.

*The Spirited Horse* Laerke Recht,2023-12-28 Presenting a new perspective on human–animal relations in the ancient Near East, this volume considers how we should understand equids (horses, donkeys, onagers and various hybrids) as animals that are social actors. Recht brings together a wealth of new data, including Bronze Age Near Eastern material culture from a range of archaeological contexts with equid remains as well as iconography and texts. She looks in particular at finds of equids themselves from burials, sacred space and settlements alongside associated artefacts such as chariots and harnesses. This is the first time the agency of animals is recognized. The study is essential reading for prehistorians, archaeologists and those studying early animal domestication, showcasing how humans encounter and interact with other animals, and how those animals in turn interact with humans. Recht outlines the broader implications for human involvement with their environment, both

today and in the past, and points to further study in a number of focused appendices.
