## **Aliens Vs. Dinosaurs at the Beginning of Time**

Nick Delmedico, 2012-07 THE WORLD OF THE DINOSAUR - 65 million years ago, when giant beasts fought each other for dominance of the herd. One monarch has a vision of a better world in which dinosaurs cooperate and live in peace. But that peace is shattered when hostile aliens challenge them for dominion of the Earth. They collect the children, taking them to the alien homeworld to learn ways of destroying the dinosaurs once and for all. King Rex finds his daughter is among the missing. As his world crumbles around him, as his enemies circle him looking for weakness, he struggles to find a way to harness the power of flying without wings. His goal: to send an envoy of peace to the aliens and negotiate the release of the children. Failing that, to take the children back by force using an army of dinosaurs that have united behind him with one thought in mind: RESCUE THE CHILDREN! Written by a father and a son, this story is a must for anyone who loves dinosaurs. Imaginative and full of awesome battle scenes, it delivers what it promises. The fight on the alien planet is not to be missed. The book is also dotted with illustrations and has a brief history of the project that you won't want to miss.

**Aliens Killed the Dinosaurs** J. J. Gregory, 2014-03-28

If aliens used a weapon that created a Gamma Ray Burst to disrupt cellular functions in all the dinosaurs to kill them, then why did they hurtle a rock at the Yucatan peninsula later? Could there have been something else they were trying to eliminate?

Ancient Serpent Gods B. E. Lewis, 2016-07-27 B.E.

Lewis offers some of the most compelling evidence ever presented by an author on the gray and reptilian presence. We can't ignore that something inexplicable has happened to millions of people who claim to be abducted. Are we dealing with invisible beings like the Jinn, extraterrestrials, dimension beings or terrestrial beings that have lived on Earth for millions of years? Finally, a new theory! - Ann Druffel, bestselling author of How to Defend Yourself Against Alien Abduction and The Tujunga Canyon Contacts  
Thousands of people vanish each year. Have they been abducted by reptilian beings that have lived inside our planet for millions of years? Have they altered our DNA? Is this why ancient worldwide civilizations worshiped serpent gods? Discover why Dulce Base security officer Thomas Castello, Dulce geologist Phil Schneider and CIA Pilot and Area 51 engineer John Lear tried to warn us about the reptilian underground presence. This original book, Ancient Serpent Gods by B. E. Lewis, deals an astounding blow to all our preconceived notions of human and dinosaur evolution. Did a species of dinosaurs actually survive an extinction event 65 million years ago, did humans exist with them, and did they possess nuclear

warfare millions of years ago? Has Earth always been dominated by an intelligent dinosaur known to ancient civilizations as Serpent Gods? Discover how ancient texts describe nuclear wars, serpent gods and how they mated with human women. Did they genetically create Homo sapiens and other Earth species? Now Lewis offers compelling evidence the dinosaur didn't vanish, but evolved into what millions of abductees identify as Gray and Reptilian aliens. Witnesses and abductees tell of hybrids in underground bases, humans used for experimentation, and grays and reptilians who work with our military and governments in secret. Could abductions by these gray/reptilian beings account for thousands who have vanished without a trace? If so, this could be the greatest secret of all time, the one that has been kept from humanity for eons: Serpent Gods are TERRESTRIAL, not extraterrestrial and have controlled us for eons. This book will challenge your beliefs on religion, evolution, aliens and UFOs and their agenda for humanity. Are you ready for the shocking truth?

Dinosaur Lake VII: The Aliens Return Kathryn Meyer Griffith, Ex-Park Chief Ranger Henry Shore has had his share of adventures and trials. But for many years he had a good life with his wife, Ann, and his daughter, Laura, being Chief Ranger at Crater Lake National Park. His life was perfect. Then the dinosaurs came. With his rangers, he fought the prehistoric beasts for years in his park; while outside the world also battled the malevolent creatures. He had one friend among the dinosaurs, little Oscar, who helped him, and the other humans, to fight and survive the dinosaur wars; during them he lost his daughter. These days Henry is recovering from the loss of his beloved wife, Ann, and trying to find purpose in his new lonely life. The year before he'd been temporarily rescued from that

sorrow by being drafted, as a renowned dinosaur hunter and expert, to help track down some of the last remaining rogue dinosaurs in the country, and then later, two of the wilier creatures loose and causing havoc at the government's secret Area 52. Area 52, where two mysterious ancient alien spaceships were housed and examined by a team of our scientists. Alien ships somehow suspected of being connected to the world's previous dinosaur scourge because of the ancient dinosaur DNA discovered in their labs. That assignment ended abruptly for Henry when the two alien aircrafts mysteriously vanished. Now Henry is home again, and at loose ends. But when so many new menacing extraterrestrial spacecrafts begin to appear in Earth's air spaces, and the alien abductions multiply, Henry is drafted yet again to help. For fear has rapidly spread across the world as more and more alien airships are sighted everywhere. Why are so many alien ships suddenly harassing our planet, and what do they want? It won't take long before the world, with Henry and an old friend's help, find out. Then they have to figure out how to appease the aliens, or the Earth could be doomed.

The Dinosaur Filmography Mark F. Berry, 2015-08-31  
From classics like King Kong, to beloved B-movies like The Beast from 20,000 Fathoms, to blockbusters like Jurassic Park, it's easy to see that filmmakers and audiences alike love to see dinosaurs on the screen. This comprehensive filmography, arranged alphabetically by title, contains entries that include basic facts (year of release, country of origin, studio, and running time), followed by a concise plot summary, the author's critical commentary, information on the production and the people behind it, and secrets of the often-ingenious special effects. Three useful appendices feature films with minor dinosaur content, planned but unfinished dinosaur movies, and the quasi-dinosaurs of Toho Studios. To be included, a movie must depict one or more representations of a "prehistoric reptile." Inaccurate portrayals are included, as long as the intent is to represent a real or fictional dinosaur. Not eligible are films featuring prehistoric mammals, prehistoric humans or humanoids, and beasts of mythology—unless, of course, the movie also has a dinosaur.
