Introduction to Paleobiology and the Fossil Record Michael J. Benton,David A. T. Harper,2013-04-25 This book presents a comprehensive overview of the science of the history of life. Paleobiologists bring many analytical tools to bear in interpreting the fossil record and the book introduces the latest techniques, from multivariate investigations of biogeography and biostratigraphy to engineering analysis of dinosaur skulls, and from homeobox genes to cladistics. All the well-known fossil groups are included, including microfossils and invertebrates, but an important feature is the thorough coverage of plants, vertebrates and trace fossils together with discussion of the origins of both life and the metazoans. All key related subjects are introduced, such as systematics, ecology, evolution and development, stratigraphy and their roles in understanding where life came from and how it evolved and diversified. Unique features of the book are the numerous case studies from current research that lead students to the primary literature, analytical and mathematical explanations and tools, together with associated problem sets and practical schedules for instructors and students. “..any serious student of geology who does not pick this book off the shelf will be putting themselves at a huge disadvantage. The material may be complex, but the text is extremely accessible and well organized, and the book ought to be essential reading for palaeontologists at undergraduate, postgraduate and more advanced levels—both in Britain as well as in North America.” Falcon-Lang, H., Proc. Geol. Assoc. 2010 “...this is an excellent introduction to palaeontology in general. It is well structured, accessibly written and pleasantly informativeI would recommend this as a standard reference text to all my students without hesitation.” David Norman Geol Mag 2010 Companion website This book includes a companion website at: www.blackwellpublishing.com/paleobiology The website includes: · An ongoing database of additional Practical's prepared by the authors · Figures from the text for downloading · Useful links for each chapter · Updates from the authors

Risuko David Kudler,2016-06-15 Samurai, assassins, warlords -- and a girl who likes to climb A historical coming-of-age tale of a young girl who is purchased away from her family to become an assassin. Can she come to terms with who she must be? Though Japan has been devastated by a century of civil war, Risuko just wants to climb trees. Growing up far from the battlefields and court intrigues, the fatherless girl finds herself pulled into a plot that may reunite Japan -- or may destroy it. She is torn from her home and what is left of her family, but finds new friends at a school that may not be what it seems. One of the students — or perhaps one of the teachers — is playing the kitsune. The mischievous fox spirit is searching for... something. What do they want? And what will they do to find it? Magical but historical, Risuko follows her along the first dangerous steps to discovering who she truly is. The first volume of the Seasons of the Sword series! Can one girl win a war? Kano Murasaki, called Risuko (Squirrel) is a young, fatherless girl, more comfortable climbing trees than down on the ground. Yet she finds herself enmeshed in a game where the board is the

whole nation of Japan, where the pieces are armies, moved by scheming lords, and a single girl couldn't possibly have the power to change the outcome. Or could she? Historical adventure fiction appropriate for teen readers As featured in Kirkus, Foreword, and on the cover of Publishers Weekly! Tight, exciting, and thoughtful... The characters are nicely varied and all the pieces fit into place deftly. -- Kirkus Reviews *Risuko* is an artfully crafted novel that evokes a heavy sense of place and enchantment.... *Risuko's* development and evolution are fascinating to watch in this powerful and relentless coming-of-age adventure. -- Foreword Reviews (spotlight review) Vividly portrayed, flush with cultural detail, and smoothly written. -- BookLife

I'll Give You the Sun Jandy Nelson, 2014-09-16 A New York Times bestseller • One of Time Magazine's 100 Best YA Books of All Time • Winner of the Michael L. Printz Award • A Stonewall Honor Book The radiant, award-winning story of first love, family, loss, and betrayal for fans of John Green, Becky Albertalli, and Adam Silvera Dazzling. —The New York Times Book Review A blazing prismatic explosion of color. —Entertainment Weekly Powerful and well-crafted . . . Stunning. —Time Magazine “We were all heading for each other on a collision course, no matter what. Maybe some people are just meant to be in the same story.” At first, Jude and her twin brother are Noah and Jude; inseparable. Noah draws constantly and is falling in love with the charismatic boy next door, while daredevil Jude wears red-red lipstick, cliff-dives, and does all the talking for both of them. Years later, they are barely speaking. Something has happened to change the twins in different yet equally devastating ways . . . but then Jude meets an intriguing, irresistible boy and a mysterious new mentor. The early years are Noah's to tell; the later years are Jude's. But they each have only half the story, and if they can only find their way back to one another, they'll have a chance to remake their world. This radiant, award-winning novel from the acclaimed author of *The Sky Is Everywhere* will leave you breathless and teary and laughing—often all at once.

Culture Jam Kalle Lasn, 2000-11-07 America is no longer a country but a multimillion-dollar brand, says Kalle Lasn and his fellow culture jammers. The founder of *Adbusters* magazine, Lasn aims to stop the branding of America by changing the way information flows; the way institutions wield power; the way television stations are run; and the way the food, fashion, automobile, sports, music, and culture industries set agendas. With a courageous and compelling voice, Lasn deconstructs the advertising culture and our fixation on icons and brand names. And he shows how to organize resistance against the power trust that manages the brands by uncooling consumer items, by dermarketing fashions and celebrities, and by breaking the media trance of our TV-addicted age. A powerful manifesto by a leading media activist, *Culture Jam* lays the foundations for the most significant social movement of the early twenty-first century -- a movement that can change the world and the way we think and live.

Rattletrap Car Phyllis Root, Jill Barton, 2004-04-01 Various disasters threaten to stop Poppa and the children from getting to the lake in their rattletrap car, but they manage to come up with an ingenious solution to each problem.

Leaving Reality Behind Adam Wishart, Regula Bochsler, 2003 This is a story of the battle for the control of the Internet. In November 1999, at the height of the e-commerce gold rush, an extraordinary hearing took place in a Los Angeles courtroom. On one side, the billion-dollar darling of Wall Street, eToys.com, the brain child of Toby Lenk. On the other side, etoy.com, a group of cutting-edge European artists, hungry for fame, who used the Internet as their canvas. The ensuing battle sharply focused attention on the conflict at the very heart of the Internet: was it for the joy of the many or the exponential profit of the few? Was cyberspace a revolutionary public space or was the new frontier an extension of the shopping mall?

The National Parks Dayton Duncan, Ken Burns, 2009-09-08 The companion volume to the twelve-hour PBS series from the acclaimed filmmaker behind *The Civil War*, *Baseball*, and *The War*. America's national parks spring from an idea as radical as the Declaration of Independence: that the nation's most magnificent and sacred places should be preserved, not for royalty or the rich, but for everyone. In this evocative and lavishly

illustrated narrative, Ken Burns and Dayton Duncan delve into the history of the park idea, from the first sighting by white men in 1851 of the valley that would become Yosemite and the creation of the world's first national park at Yellowstone in 1872, through the most recent additions to a system that now encompasses nearly four hundred sites and 84 million acres. The authors recount the adventures, mythmaking, and intense political battles behind the evolution of the park system, and the enduring ideals that fostered its growth. They capture the importance and splendors of the individual parks: from Haleakala in Hawaii to Acadia in Maine, from Denali in Alaska to the Everglades in Florida, from Glacier in Montana to Big Bend in Texas. And they introduce us to a diverse cast of compelling characters—both unsung heroes and famous figures such as John Muir, Theodore Roosevelt, and Ansel Adams—who have been transformed by these special places and committed themselves to saving them from destruction so that the rest of us could be transformed as well. *The National Parks* is a glorious celebration of an essential expression of American democracy.

Consolations David Whyte,2019-11-07 In *Consolations* David Whyte unpacks aspects of being human that many of us spend our lives trying vainly to avoid - loss, heartbreak, vulnerability, fear - boldly reinterpreting them, fully embracing their complexity, never shying away from paradox in his relentless search for meaning. Beginning with 'Alone' and closing with 'Withdrawal', each piece in this life-affirming book is a meditation on meaning and context, an invitation to shift and broaden our perspectives on life: pain and joy, honesty and anger, confession and vulnerability, the experience of feeling overwhelmed and the desire to run away from it all. Through this lens, procrastination may be a necessary ripening; hiding an act of freedom; and shyness something that accompanies the first stage of revelation. *Consolations* invites readers into a poetic and thoughtful consideration of words whose meaning and interpretation influence the paths we choose and the way we traverse them throughout our lives.

With *Age of Myth*, *Age of Swords*, and *Age of War*, fantasy master Michael J. Sullivan riveted readers with a tale of unlikely heroes locked in a desperate battle to save mankind. After years of warfare, humanity has gained the upper hand and has pushed the Fhrey to the edge of their homeland, but no farther.

Now comes the pivotal moment. Persephone's plan to use the stalemate to seek peace is destroyed by an unexpected betrayal that threatens to hand victory to the Fhrey and leaves a dear friend in peril. Humanity's only hope lies in the legend of a witch, a forgotten song, and a simple garden door.

Learning Causality in a Complex World Tina Grotzer,2012 What do children's interactions on the playground have to do with foreign policy? How does science understanding in middle school relate to environmental disasters in third world countries? The causal patterns that we detect and how we act upon them pervade every aspect of our lives. These skills will only become more important in the future as our world becomes more global and more interconnected. Yet we aren't very skilled at thinking about causality. Research shows that instead we rely on limiting default assumptions that can lead to poor choices in a complex world. What can we do about it? This book offers ways to become aware of these patterns and to reframe our thinking to become more effective learners and citizens of the world. Through examples and accessible explanations, it offers a causal curriculum to enable more effective learning so that we can put the power of better causal understanding to work for ourselves and the next generation-- for today and tomorrow.
