Dances with Raptors Poppy Woods, 2019-08-27 65 Million years ago, Dinosaurs walked the Earth . . . People think that a meteor or some super volcano wiped them all out, or that aliens saved them like a holy arc coming from the sky. Some think that they had their time and were selected for extinction. The thing is, fossils only show those that died. . . Dinosaurs still walk among us, hidden in human form, biding their time until they're able to reveal who they are. Humans are always placed at the top of the food chain. Nothing could be further from the truth. . . The next matriarch has been chosen. . . Sage has never wanted anything other than the freedom to live her own life, but when she is chosen as the next Matriarch of her people, everything changes. Sent on a journey to pass the tests of her ancestors, Sage must find her place in this world even though she doesn't know if she believes in the very spirits who chose her for the position. As if her life isn't complicated enough, she finds herself on the run with a pack of raptor shifters. Sage's newfound allies are dangerous predators but the attraction she feels to them is undeniable. With a new threat to the peninsula, Sage has her work cut out for her. No one said being the Matriarch would be easy. Can she make it back to her people with her body--and her heart--intact? Can she stop the traders who threaten her very way of life? With Kishil, Talon, and Elu at her side, maybe she can . . . *This is a reverse harem #whychoose romance set in the dinoverse. Due to steamy dinoshifters this story is not suitable for anyone under 18. *M/M content *The heroine has multiple love interests and does not have to choose.

Anyone could be a dinosaur. Your podiatrist. The crotchety old man who lives next door. Julia Roberts, it is well known, is actually a Stegosaur. When the head of the Raptor mafia asks Vincent Rubio to perform a service, he has no choice but to head for Miami to investigate a team of Hadrosaurs who are muscling in on Raptor territory.
