Who Owns Whom R. McGregor,2012-12-06 The thirteenth edition of McGregor's Who Owns Whom presents a summary of the annual report of every company listed on the Johannesburg stock exchange, plus those on the stock exchanges of Harare, Windhoek and Gaborone. For each company, the data presented include: ultimate controlling shareholder, shareholders above 1%, directors, addresses of registered offices, nature of business, year end, number of employees, capital structure, financial statistics and ratios, subsidiaries, associated companies and investments. Comprehensive indexes reveal the ownership of approximately 16,000 companies, the share portfolios of major S.African investors, and the cross-directorships of 4000 directors of listed companies. Detailed schedules provide additional data including newly listed companies, companies recently delisted, companies categorised by sector, companies listed by financial year end, company name changes, unit trusts, mines working results, and much more.

Communist Party Membership in the U.S.S.R. Thomas Henry Rigby,2019-03-26 In this comprehensive and latest statistical profile of the membership of the Communist Party during the first half-century of the Soviet regime, Professor Rigby analyzes the history of party recruitment and composition. Since the party makes vital contributions to the performance of several basic tasks within the Soviet political system, the author interprets his data mainly in functional terms. He identifies and evaluates the influence of these functional considerations on recruitment policies and on the changing patterns of membership, and determines the priorities assigned to different functions under changing circumstances. T.H. Rigby is Professor of Political Science, Research School of Social Science, Australian National University. Studies of the Russian Institute, Columbia University. Originally published in 1968. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Stalin and German Communism Ruth (Politikerin Fischer, Through her long involvement in the German Communist party, Ruth Fischer amassed valuable material on its changing fortunes, the transformation of the Bolshevik party into a totalitarian dictatorship, and the degeneration of the Comintern. Drawing on this material and on her own vivid recollections, Fischer reconstructs the history of the German Communist party from 1918 to 1929. First published in 1948, this fundamental work opened up the study of the inner organizational life of a major revolutionary movement. In his introduction to the Social Science Classics edition, John Leggett reviews and summarizes the social, political, and economic issues and events that precipitated the revolution and those factors that contributed to its failure.

The Dictators: Hitler's Germany, Stalin's Russia Richard Overy,2006-01-17 A book of great importance; it surpasses all others in breadth and depth.--Commentary If the past century will be remembered for its tragic pairing of civilized achievement and organized destruction, at the heart of darkness may be found Hitler, Stalin, and the systems of domination they forged. Their lethal regimes murdered millions and fought a massive, deadly war. Yet their dictatorships took shape within formal constitutional structures and drew the support of the German and Russian people. In the first major historical work to analyze the two dictatorships together in depth, Richard Overy gives us an absorbing study of Hitler and Stalin, ranging from their private and public selves, their ascents to power and consolidation of absolute rule, to their waging of massive war and creation of far-flung empires of camps and prisons. The Nazi extermination camps and the vast Soviet Gulag represent the two dictatorships in their most inhuman form. Overy shows us the human and historical roots of these evils.
