Holding on to What Is Sacred Randy Haffner, 2010-03 Holding on to What is Sacred, written by Dr. Randy Haffner, lays out a persuasive vision for how organizations can stay focused on their true values. The most intriguing aspect of the monograph is Dr. Haffner's concept of Confessional Identity. It seeks the spiritual heart of an organization's reason for being. Why? Because so much is at stake. Your employees need to know why you exist and why their efforts matter. Your customers need to know why you really care. Your leaders need to embrace your core convictions whole-heartedly or they will lose direction.

Principles of Management David S. Bright, Anastasia H. Cortes, Eva Hartmann, 2023-05-16 Black & white print. Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.

Confessions of a Recovering Environmentalist and Other Essays Paul Kingsnorth, 2017-08-01 A provocative and urgent essay collection that asks how we can live with hope in "an age of ecocide" Paul Kingsnorth was once an activist—an ardent environmentalist. He fought against rampant development and the depredations of a corporate world that seemed hell-bent on ignoring a looming climate crisis in its relentless pursuit of profit. But as the

environmental movement began to focus on “sustainability” rather than the defense of wild places for their own sake and as global conditions worsened, he grew disenchanted with the movement that he once embraced. He gave up what he saw as the false hope that residents of the First World would ever make the kind of sacrifices that might avert the severe consequences of climate change. Full of grief and fury as well as passionate, lyrical evocations of nature and the wild, *Confessions of a Recovering Environmentalist* gathers the wave-making essays that have charted the change in Kingsnorth’s thinking. In them he articulates a new vision that he calls “dark ecology,” which stands firmly in opposition to the belief that technology can save us, and he argues for a renewed balance between the human and nonhuman worlds. This iconoclastic, fearless, and ultimately hopeful book, which includes the much-discussed “Uncivilization” manifesto, asks hard questions about how we’ve lived and how we should live.

So Good They Can't Ignore You Cal Newport, 2012-09-18 In an unorthodox approach, Georgetown University professor Cal Newport debunks the long-held belief that follow your passion is good advice, and sets out on a quest to discover the reality of how people end up loving their careers. Not only are pre-existing passions rare and have little to do with how most people end up loving their work, but a focus on passion over skill can be dangerous, leading to anxiety and chronic job hopping. Spending time with organic farmers, venture capitalists, screenwriters, freelance computer programmers, and others who admitted to deriving great satisfaction from their work, Newport uncovers the strategies they used and the pitfalls they avoided in developing their compelling careers. Cal reveals that matching your job to a pre-existing passion does not matter. Passion comes after you put in the hard

work to become excellent at something valuable, not before. In other words, what you do for a living is much less important than how you do it. With a title taken from the comedian Steve Martin, who once said his advice for aspiring entertainers was to be so good they can't ignore you, Cal Newport's clearly written manifesto is mandatory reading for anyone fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life.

Centered Leadership Joanna Barsh, Johanne Lavoie, 2014-03-18 What enables some talented people to rise to the top and live their full ambitions at work and in life, while others stop short? In 2007, Joanna Barsh led a team at McKinsey & Company to answer that very question. In the process, they uncovered what distinguishes leaders who are successful from those who achieve true greatness, developing an approach called Centered Leadership. They drew on research from across the academic fields of leadership, organization behavior, neuroscience, evolutionary psychology and positive psychology. In addition, Barsh interviewed over 160 leaders from many fields - including business, government and the arts - and from many countries. With quantitative research, the team learned that these leaders have mastered practices to find their balance in the midst of chaos and lead from their most resourceful selves, unleashing the potential of others. In 2009, Johanne Lavoie joined to lead development of programs that help executives build these capabilities. Their research and development work continues as more and more leaders experience Centered Leadership. In the business bestseller, *How Remarkable Women Lead*, Barsh described Centered Leadership's five capabilities and the research that underpins it. Here, with colleague Johanne Lavoie, Barsh provides a practical, actionable field guide for implementation. In *Centered Leadership*, Barsh and Lavoie will guide you through the Centered Leadership program. You'll find the interactive tools, exercises, and practices that have helped the men and women participants in Centered Leadership programs gain the skills, courage and confidence to lead. And, along the way, you'll read inspiring stories of remarkable men and women leaders who demonstrate the power of these skills in action. Those early in

their careers will learn how to use these skills to explore their passions and accelerate their professional development. Those forming families will be able to use them to reconcile manage work and life to get the most out of both. And those who have already achieved success will be able use these practices to reach their next leadership horizon. No matter what stage you are currently at in your career, or what level of leadership you aspire to, this book will equip you with the tools to unlock your own Centered Leader and achieve more positive impact at work and outside it.

Organizational Culture and Leadership Edgar H. Schein, 2010-07-16 Regarded as one of the most influential management books of all time, this fourth edition of Leadership and Organizational Culture transforms the abstract concept of culture into a tool that can be used to better shape the dynamics of organization and change. This updated edition focuses on today's business realities. Edgar Schein draws on a wide range of contemporary research to redefine culture and demonstrate the crucial role leaders play in successfully applying the principles of culture to achieve their organizational goals.

Work Mate Marry Love Debora L. Spar, 2020-08-18 A crucial guide to life before—and after—Tinder, IVF, and robots. What will happen to our notions of marriage and parenthood as reproductive technologies increasingly allow for newfangled ways of creating babies? What will happen to our understanding of gender as medical advances enable individuals to transition from one set of sexual characteristics to another, or to remain happily perched in between? What will happen to love and sex and romance as our relationships migrate from the real world to the Internet? Can people fall in love with robots? Will they? In short, what will happen to our most basic notions of humanity

as we entangle our lives and emotions with the machines we have created? In *Work Mate Marry Love*, Harvard Business School professor and former Barnard College president Debora L. Spar offers an incisive and provocative account of how technology has transformed our intimate lives in the past, and how it will do so again in the future. Surveying the course of history, she shows how marriage as we understand it resulted from the rise of agriculture, and that the nuclear family emerged with the industrial revolution. In their day, the street light, the car, and later the pill all upended courtship and sex. Now, as we enter an era of artificial intelligence and robots, how will our deepest feelings and attachments evolve? In the past, the prevailing modes of production produced a world dominated by heterosexual, mostly-monogamous, two-parent families. In the future, however, these patterns are almost certain to be reshaped, creating entirely new norms for sex and romance, and for the construction of families and the raising of children. Steering clear of both techno-euphoria and alarmism, Spar offers a bold and inclusive vision of how our lives might be changed for the better.

You on Purpose Dr. Stephanie Shackelford, Bill Denzel, 2021-09-28 What should I do with my life? Whether you're just starting out on your journey or you've found yourself at a crossroads and feel the need to change direction, each of us wants to know what our purpose is on this earth. We want our work and our lives to have meaning and impact far beyond our immediate context. But how do you know what you were meant to do? And once you know . . . then what? Based solidly in the most up-to-date Barna research, *You on Purpose* offers you a clear and simple 4-step process for discovering and carrying out your calling with confidence: Define: set your intention for what you want to achieve Discover: dig deep into who and where you are Decide: narrow your choices and

zero in on your calling Do: start acting on your calling, one step at a time Each chapter dismantles a common myth about calling, replacing it with truth born from solid, current research. If you long to discover your unique place in the world, this book will help you catch that vision and make a plan to pursue it.

Start-up Hervé Lebreton, 2007 Although start-ups represent a major phenomenon in the USA, they also create skepticism and even suspicion, perhaps because of the excesses of the Internet bubble. Apple, Microsoft, Intel, Cisco, Yahoo and Google were all start-ups and these success stories show that the phenomenon is not mere speculation. The goal of this book is to show start-ups from a different angle. Start-ups are created by individuals who are passionate and who have dreams. Therefore this work should not only be read by specialists of innovation or by high tech entrepreneurs, but also by anyone interested in the history and economics of start-ups. The book is presented in two parts: it begins with a presentation of Silicon Valley start-ups, which ends with a description of the ecosystem of this region. The second part is dedicated to Europe, where the start-up phenomenon has failed in comparison. The main message is that it is absolutely necessary to take more inspiration from Silicon Valley.

It provides a basic overview of the process and principles of AI along with exciting stories illustrating how organizations have applied AI and the benefits they have gained as a result. It has been specifically designed to be accessible to a wide audience so that it can be handed out in organizations where AI is either being contemplated or being implemented. Written by two of the key figures in the development of Appreciative Inquiry, this is the most authoritative guide available to a change method that systematically taps the potential of human beings to make themselves, their organizations, and their communities more adaptive and more effective.

Good Strategy Bad Strategy Richard Rumelt, 2011-07-19 *Good Strategy/Bad Strategy* clarifies the muddled thinking underlying too many strategies and provides a clear way to create and implement a powerful action-oriented strategy for the real world. Developing and implementing a strategy is the central task of a leader. A good strategy is a specific and coherent response to—and approach for—overcoming the obstacles to progress. A good strategy

works by harnessing and applying power where it will have the greatest effect. Yet, Rumelt shows that there has been a growing and unfortunate tendency to equate Mom-and-apple-pie values, fluffy packages of buzzwords, motivational slogans, and financial goals with “strategy.” In Good Strategy/Bad Strategy, he debunks these elements of “bad strategy” and awakens an understanding of the power of a “good strategy.” He introduces nine sources of power—ranging from using leverage to effectively focusing on growth—that are eye-opening yet pragmatic tools that can easily be put to work on Monday morning, and uses fascinating examples from business, nonprofit, and military affairs to bring its original and pragmatic ideas to life. The detailed examples range from Apple to General Motors, from the two Iraq wars to Afghanistan, from a small local market to Wal-Mart, from Nvidia to Silicon Graphics, from the Getty Trust to the Los Angeles Unified School District, from Cisco Systems to Paccar, and from Global Crossing to the 2007–08 financial crisis. Reflecting an astonishing grasp and integration of economics, finance, technology, history, and the brilliance and foibles of the human character, Good Strategy/Bad Strategy stems from Rumelt’s decades of digging beyond the superficial to address hard questions with honesty and integrity.
