Make Your Story a Movie John Robert Marlow,2012-12-11

\$50 Billion of Advice in One Book* Have you ever wondered why some books and stories are adapted into movies, and others aren't? Or wished you could sit down and pick the brains of the people whose stories have been adapted--or the screenwriters, producers, and directors who adapted them? Author John Robert Marlow has done it for you. He spoke to book authors, playwrights, comic book creators and publishers, as well as Hollywood screenwriters, producers and directors responsible for adapting fictional and true stories into Emmy-winning TV shows, Oscar-winning films, billion-dollar megahits and smaller independents. Then he talked to the entertainment attorneys who made the deals. He came away with a unique understanding of adaptations--an understanding he shares in this book: which stories make good source material (and why); what Hollywood wants (and doesn't); what you can (and can't) get in a movie deal; how to write and pitch your story to maximize the chances of a Hollywood adaptation--and how much (and when) you can expect to be paid. *This book contains the distilled experience of creators, storytellers and others whose works have earned over \$50 billion worldwide. Whether you're looking to sell film rights, adapt your own story (alone or with help), or option and adapt someone else's property--this book is for you.

Get Out of Your Head Brian Sachetta, 2018-12-04 Forget for a moment the prevailing notion that you can only manage your anxiety through endless visits to your therapist's office and daily cocktails of psychiatric medication - what if you could put yourself back in the equation? What if you could learn to manage your fear better by changing your thoughts and beliefs about it? What if you could turn down the firehose of overwhelm you experience so often? You can. More than 17% of Americans fill at least one psychiatric drug prescription each year. This would be just fine if medication were actually solving mental illness, but it seems that's not the case. Medication is just one potential piece of the puzzle; we can't keep discounting our ability to influence our own conditions. Through the latest research, personal anecdotes, and a heavy dose of practicality, this book discusses that influence and teaches you: -Where anxiety comes from and how to stop perpetuating it -10 crucial steps for mitigating anxiety during stressful situations -How to leverage fear into a vehicle for personal growth -How to stop fighting yourself and start living again
