*The Fish Doctor: Autobiography of a World Fish Parasitologist* Glenn Hoffman, 2010-12-15 Described in 1986 as a living legend, Glenn Hoffman was one of the world's foremost authorities on the parasites of fishes. This book narrates his life and 65-year professional career as a scientist, researcher, ambassador, colleague, and family man. Born in 1918 to hard working Iowa farm folks, Dr. Hoffman grew up trapping and fishing for fun and profit. At the University of Iowa, he majored in zoology and worked for the Iowa State Conservation Department. From 1942 through 1946, he served in the U.S. Army as a lab technician, bacteriologist, and parasitologist in France, England, Germany, and Belgium. He returned to Iowa to earn his PhD in 1950, and taught at the University of North Dakota 1950-1957. From 1958 to 1975 he worked at the U.S. Fish & Wildlife Services Eastern Fish Disease Laboratory in Leestown, WV, and then at the U.S. Fish Culture Station in Stuttgart, Arkansas, until his retirement in 1985. He was the author of four major books and more than 100 articles on the causes, spread, and cures of parasite-related diseases in fish, including *Parasites of North American Freshwater Fishes* (1967, 2nd ed. 1999), called the bible of American fish

parasitology. His work and his generosity in collaboration developed an international following, and he made many trips abroad to share his expertise and receive the honors earned from his wide-ranging research and publication work. Personal, insightful, and reflective, this autobiography gives a glimpse inside the mind of a American scientist of the first rank.

Practitioner's Guide to Medical Malpractice in South African Law Ian Dutton,2015-06-22 The purpose of this book is to set out the fundamental principles governing the law of medical malpractice in clear and understandable terms, so that those principles can be applied in daily practice. The intersection of the fields of medicine and the law produces formidable challenges. For the lawyer, the applicable legal principles and issues are as intellectually and professionally demanding as encountered in any field of the law. For the medical practitioner, there is at present an obstructive uncertainty and anxiety about the legal rules which apply, and the health professions accordingly feel under siege. Added to this is the formative role that government and civil society plays in considering and assimilating into our legal system profound policy considerations affecting our most intimate interests. This book addresses these issue clearly and comprehensively.
