Dr. Joe's Health Lab Joe Schwarcz,2011-11-01 The bestselling author of Brain Fuel and An Apple a Day reveals the science of being well, eating well, and staying well clear of alternative therapy charlatans. Health Lab's theme is the most popular of Dr Joe's specialities. There are riveting and sometimes hair-raising vignettes from the history of medicine and food production. There are reports aimed at equipping readers to recognize and beware muddled thinking, misunderstandings and deceptions in media stories about health and nutrition and in the claims made by the peddlars of alternative therapies. There is a wealth of information on the science of inner well-being and outer beauty. The secret to good health lies in understanding the chemistry involved. Ask Dr. Joe.

Dr. Joe's Brain Sparks Joe Schwarcz,2011-12-27 Prepare to be amazed once again. Did you know what when you shake a ketchup bottle you're practicing thixotropy? That the ancient Greeks made themselves look less ancient by inventing moisturizer? That the mysterious drug obecalp* is as effective as homeopathy and many herbal cures? From the bestselling author of An Apple a Day, Brain Fuel, and Science, Sense and Nonsense comes a fresh batch of inquiries into the science of everyday life. Dr. Joe, as he is affectionately known to millions of readers, listeners, viewers, and students, presents his third book in the Doubleday Canada series he launched with Brain Fuel. Using a Q&A format, it explains the world through science, and science through our common experience. There are sections on diet and nutrition, new drugs, and the dubious claims made for alternative remedies and beauty potions. There is a profusion of inspiring, enlightening, sometime just downright bizarre information drawn from the laboratory, from history, from our medicine cabinets and the bottles

under our sinks. Science is everywhere, and Dr. Joe is keeping track - and doing it in a marvelously warm, eminently readable style. Let the brain sparks fly! *Try reading this word backwards.

Dr. Joe Bell Ely Liebow, 1982 In 1892, Arthur Conan Doyle, famous almost overnight as the creator of Sherlock Holmes, wrote to his former medical school mentor, Dr. Joseph Bell: It is to you that I owe Sherlock Holmes. Now the first full-length biography of Joe Bell, as he was affectionately known to all of Edinburgh, has been written. It is a biography for which the world is ready. It turns out that he not only had much in common with the Great Detective, but also with Conan Doyle. Ely Liebow. Emeritus Professor at Northwestern University and former Sir Hugo (Pres.) of Sir Hugo's Companions in Chicago, had access to the good doctor's private Journal; interviewed his great-grandson; tracked down the son of Joe Bell's daughter's gardener; and spoke with a Kentish Lady (appointed a shepherdess on the Downs by the Crown in WWII) who knew Joe Bell and his family. This volume is required reading for all people interested in Victorian medicine, in Sherlock Holmes and Doctor Watson, and in the history of detective fiction.
