Vertical Run Joseph R. Garber, 2020-07-07 NEW YORK TIMES BESTSELLER • “A breathless read” (USA Today) featuring “some of the most ingenious military-techno twists this side of Tom Clancy” (San Francisco Chronicle). David Elliot is about to have a very bad day at the office. Each morning in his forty-fifth floor executive suite, David savors the quiet moments before the workday begins. Until today, when his boss walks in and aims a gun at him, murder glinting in his eye. For the rest of the day, David will be trapped in a midtown tower with a team of ruthless and professional mercenaries. Everyone he meets—and knows—will try to kill him. They expect him to be dead by lunchtime. But they’re wrong. This is the “killer” workday redefined, a high-stakes and whiplash-paced drama that plays out with an electrifying intensity. You’ll never see the office the same way again.

The Linux Command Line, 2nd Edition William Shotts, 2019-03-05 You've experienced the shiny, point-and-click surface of your Linux computer--now dive below and explore its depths with the power of the command line. The Linux Command Line takes you from your very first terminal keystrokes to writing full programs in Bash, the most popular Linux shell (or command line). Along the way you'll learn the timeless skills handed down by generations of experienced, mouse-shunning gurus: file navigation, environment configuration, command chaining, pattern matching with regular expressions, and more. In addition to that practical knowledge, author William Shotts reveals the philosophy behind these tools and the rich heritage

that your desktop Linux machine has inherited from Unix supercomputers of yore. As you make your way through the book's short, easily-digestible chapters, you'll learn how to:

- Create and delete files, directories, and symlinks
- Administer your system, including networking, package installation, and process management
- Use standard input and output, redirection, and pipelines
- Edit files with Vi, the world's most popular text editor
- Write shell scripts to automate common or boring tasks
- Slice and dice text files with cut, paste, grep, patch, and sed

Once you overcome your initial shell shock, you'll find that the command line is a natural and expressive way to communicate with your computer. Just don't be surprised if your mouse starts to gather dust.

Future Narratives Christoph Bode,Rainer Dietrich,2013-10-29 This head volume of the 'Narrating Futures' series defines and identifies Future Narratives. It parses their characteristic features and aims at an abstract classification of the whole corpus, irrespective of its concrete manifestations across the media. Drawing on different theorems and approaches, it offers a unified theory and a poetics of Future Narratives. Locating the media-historical moment of their emergence, this volume paves the way for the following volumes, which deal with how Future Narratives are refracted through different media.

Running Dog Don DeLillo, 2011-08-19 Moll Robbins is a journalist in a rut. But she gets wind of a very exciting story: it concerns a small piece of celluloid, a pornographic film purportedly shot in a bunker in the climactic days of Berlin's fall - with Hitler as its star. One person claims to have access to this unique piece of Naziana; inevitably, more than one want it. Unfortunately for Moll, in the black-market world of erotica, the currency is blackmail, torture and corruption; and no price is too high. As the paranoia builds and the combatants lose sight of their motives, their souls, even the object itself, Don DeLillo reveals the terrible truth behind our acquisitiveness in *Running Dog* - a masterful thriller from an award-winning novelist.

No Doors, No Windows Harlan Ellison, 2014-04-01 Stories of fear in all its forms, from "the leading craftsman in the literature of terror and dread" (Louisville Courier Journal & Times). You have nothing to fear but fear itself. The only trouble is, fear comes in so many different shapes and sizes these days—the rejection by a beautiful woman, the threat of impending nuclear holocaust, the erratic behavior of wackos walking the streets who only need a wrong word and there they go to the top of an apartment building with a sniperscope'd rifle. Fear is all around you, and the minute you get all the rational fears taken care of, all battened down and secure, here comes something new. Like the special fears generated in these sixteen incredible stories. Fear described as it has never been described before, by the startling imagination of Harlan Ellison, master fantasist, tour guide through the land of dreadful visions, unerring observer of human folly and supernatural diabolism.

Doc Frank Adams,Burgin Mathews,2012-09-04
Autobiography of jazz elder statesman Frank "Doc" Adams, highlighting his role in Birmingham, Alabama's, historic jazz scene and tracing his personal adventure that

parallels, in many ways, the story and spirit of jazz itself. Doc tells the story of an accomplished jazz master, from his musical apprenticeship under John T. “Fess” Whatley and his time touring with Sun Ra and Duke Ellington to his own inspiring work as an educator and bandleader. Central to this narrative is the often-overlooked story of Birmingham’s unique jazz tradition and community. From the very beginnings of jazz, Birmingham was home to an active network of jazz practitioners and a remarkable system of jazz apprenticeship rooted in the city’s segregated schools. Birmingham musicians spread across the country to populate the sidelines of the nation’s bestknown bands. Local musicians, like Erskine Hawkins and members of his celebrated orchestra, returned home heroes. Frank “Doc” Adams explores, through first-hand experience, the history of this community, introducing readers to a large and colorful cast of characters—including “Fess” Whatley, the legendary “maker of musicians” who trained legions of Birmingham players and made a significant mark on the larger history of jazz. Adams’s interactions with the young Sun Ra, meanwhile, reveal life-changing lessons from one of American music’s most innovative personalities. Along the way, Adams reflects on his notable family, including his father, Oscar, editor of the Birmingham Reporter and an outspoken civic leader in the African American community, and Adams’s brother, Oscar Jr., who would become Alabama’s first black supreme court justice. Adams’s story offers a valuable window into the world of Birmingham’s black middle class in the days before the civil rights movement and integration. Throughout, Adams demonstrates the ways in which jazz professionalism became a source of pride within this community, and he offers his thoughts on the continued relevance of jazz

education in the twenty-first century.
