Redeeming Your Time Jordan Raynor, 2023-09-26 Manage your time the way Jesus managed his with a biblical antidote to swamped to-do lists and hurried schedules. “A highly practical road map.”—Mark Batterson, New York Times bestselling author and lead pastor of National Community Church Despite the overwhelming amount of resources for time management and work-life balance, the ability to cultivate the efficiency and equilibrium needed to manage all our worthy pursuits can often feel frustratingly out of reach. The reason for our struggle is that productivity and time-management systems focus on individual habits rather than more meaningful and lasting lifestyle changes. But as it turns out, there is a better way to reach our full potential. We don't need just another approach to changing our habits. What we need is an operating system that takes into account the full scope of our lives. In these pages, bestselling author Jordan Raynor presents this system, using seven powerful time-management principles drawn from the example of how Jesus lived: 1. Start with the Word: Find meaningful connection with the author of time daily. 2. Let Your Yes Be Yes: Accept only the commitments you can fulfill. 3. Dissent from the Kingdom of Noise: Create room for silence, stillness, and reflection. 4. Prioritize Your Yeses: Confidently maintain your commitments. 5. Accept Your “Unipresence”: Focus on one important thing at a time. 6. Embrace Productive Rest: Live the God-designed rhythms of rest which are productive for our goals and souls. 7. Eliminate All Hurry: Embrace productive busyness while ruthlessly eliminating hurry from our lives. With these principles, you'll see how Jesus managed his time on earth and how he responded to human constraints much like the ones you face today. More than that, you'll discover corresponding practices that will help you embrace the best, most Christlike version of yourself possible: purposeful, present, and wildly productive.

Confessions of the Pricing Man Hermann Simon, 2015-10-20 The world's foremost expert on pricing strategy shows how this mysterious process works and how to maximize value through pricing to company and customer. In all walks of life, we constantly make decisions about whether something is worth our money or our time, or try to convince others to part with their money or their time. Price is the place where value and money meet. From the global release of the latest electronic gadget to the bewildering gyrations of oil futures to markdowns at the bargain store, price is the most powerful and pervasive economic force in our day-to-day lives and one of the least understood. The recipe for successful pricing often sounds like an exotic cocktail, with equal parts psychology, economics, strategy, tools and incentives stirred up together, usually with just enough math to sour the taste. That leads managers to water down the drink with hunches and rules of thumb, or leave out the parts with which they don't feel comfortable. While this makes for a sweeter drink, it often lacks the punch to have an impact on the customer or on the business. It doesn't have to be that way, though, as Hermann Simon illustrates through dozens of stories collected over four decades in the trenches and behind the scenes. A world-renowned speaker on pricing and a trusted advisor to Fortune 500 executives, Simon's lifelong journey has taken him from rural farmers' markets, to a distinguished academic career, to a long second career as an entrepreneur and management consultant to companies large and small throughout the world. Along the way, he has learned from Nobel Prize winners and leading management gurus, and helped countless managers and executives use pricing as a way to create new markets, grow their businesses and gain a sustained competitive advantage. He also learned some tough personal lessons about value, how people perceive it, and how people profit from it. In this engaging and practical narrative, Simon leaves nothing out of the pricing cocktail, but still makes it go down smoothly and leaves you wanting to learn more and do more—as a consumer or as a business person. You will never look at pricing the same way again.

Brands of Faith Mara Einstein,2007-09-14 In a society overrun by commercial clutter, religion has become yet another product sold in the consumer marketplace, and faiths of all kinds must compete with a myriad of more entertaining and more convenient leisure activities. Brands of Faith argues that in order to compete effectively faiths have had to become brands – easily recognizable symbols and spokespeople with whom religious prospects can make immediate connections Mara Einstein shows how religious branding has expanded over the past twenty years to create a blended world of commerce and faith where the sacred becomes secular and the secular sacred. In a series of fascinating case studies of faith brands, she explores the significance of branded church courses, such as Alpha and The Purpose Driven Life, mega-churches, and the popularity of the televangelist Joel Olsteen and television presenter Oprah Winfrey, as well as the rise of Kaballah. She asks what the consequences of this religious marketing will be, and outlines the possible results of religious commercialism – good and bad. Repackaging religion – updating music, creating teen-targeted bibles – is justifiable and necessary. However, when the content becomes obscured, religion may lose its unique selling proposition – the very ability to raise us above the market.
