Plastic Film Technology Kier M. Finlayson, 1993 Plastic film and sheeting is an area of current growth, improvement and innovation. Now the technology behind these advances in film materials and production is presented in this new volume. The 22 technical reports, selected from the Journal of Plastic Film & Sheeting, provide in-depth information on film resins, plastic films and film constructions, film-making processes, test methods, and performance data. The reports were prepared by leading plastic film and sheeting authorities affiliated with major companies in this field. Extensive data on plastic film properties and performance are included in the reports. The many photographs, microphotographs and schematics illustrate films, film-making processes, and applications.

Applied Virtual Instrumentation Roman Baican, Dan S. Neculescu, 2000 This textbook and CD-ROM cover the fundamental knowledge and practical solutions required to interface sensors with a PC using the framework of virtual instrumentation. The authors focus on the knowledge required by a non-specialist to develop a modern monitoring system, for example: connect sensors to a PC, condition their signals when required, and store and process the data using digital signal processing subroutines available in commercial virtual instrumentation packages.
