📖 [Apple Confidential 2.0](#) Owen W. Linzmayer,2004 Chronicles the best and the worst of Apple Computer’s remarkable story.

📖 [Eagle Against the Sun](#) Ronald H. Spector,2020-11-03 “The best book by far on the Pacific War” (The New York Times Book Review), this classic one-volume history of World War II in the Pacific draws on declassified intelligence files; British, American, and Japanese archival material; and military memoirs to provide a stunning and complete history of the conflict. This “superbly readable, insightful, gripping” (Washington Post Book World) contribution to WWII history combines impeccable research with electrifying detail and offers provocative interpretations of this brutal forty-four-month struggle. Author and historian Ronald H. Spector reassesses US and Japanese strategy and shows that the dual advance across the Pacific by MacArthur and Nimitz was more a pragmatic solution to bureaucratic, doctrinal, and public relations problems facing the Army and Navy than a strategic calculation. He also argues that Japan made its fatal error not in the Midway campaign but in abandoning its offensive strategy after that defeat and allowing itself to be drawn into a war of attrition. Spector skillfully takes us from top-secret strategy meetings in Washington, London, and Tokyo to distant beaches and remote Asian jungles with battle-weary GIs. He reveals that the US had secret plans to wage unrestricted submarine warfare against Japan months before Pearl Harbor and shows that MacArthur and his commanders ignored important intercepts of Japanese messages that would have saved thousands of lives in Papua and Leyte. Throughout, Spector contends that American decisions in the Pacific War were shaped more often by the struggles between the British and the Americans, and between the Army and the Navy, than by strategic considerations. Spector vividly recreates the major battles, little-known campaigns, and unfamiliar events leading up to the deadliest air raid ever, adding a new dimension to our understanding of the American war in the Pacific and the people and forces that determined its outcome.

📖 [The UNIX-Haters Handbook](#) Simson Garfinkel,Daniel Weise,Steven Strassmann,1994 This book is for all people who are forced to use UNIX. It is a humorous book--pure entertainment--that maintains that UNIX is a computer virus with a user interface. It features letters from the thousands posted on the Internet’s UNIX-Haters mailing list. It is not a computer handbook, tutorial, or reference. It is a self-help book that will let readers know they are not alone.

📖 [Practical Research](#) Paul D. Leedy,Jeanne Ellis Ormrod,2013-07-30 For undergraduate or graduate courses that include planning, conducting, and evaluating research. A do-it-yourself, understand-it-yourself manual designed to help students understand the fundamental structure of research and the methodical process that leads to valid, reliable results. Written in uncommonly engaging and elegant prose, this text guides the reader, step-by-step, from the selection of a problem, through the process of conducting authentic research, to the preparation of a completed report, with practical suggestions based on a solid theoretical framework and sound pedagogy. Suitable as the core text in any introductory research course or even for self-instruction, this text will show students two things: 1) that quality research demands planning and design; and, 2) how their own research projects can be executed effectively and professionally.

📖 [Major Labels](#) Kelefa Sanneh,2022-10-04 One of Oprah Daily’s 20 Favorite Books of 2021 • Selected as one of Pitchfork’s Best Music Books of the Year “One of the best books of its kind in decades.” —The Wall Street Journal An epic achievement and a huge delight, the entire history of popular music over the past fifty years refracted through the big genres that have defined and dominated it: rock, R&B, country, punk, hip-hop, dance music, and pop Kelefa Sanneh, one of the essential voices of our time on music and culture, has made a deep study of how popular music unites and divides us, charting the way genres become communities. In Major Labels, Sanneh distills a career’s worth of knowledge about music and musicians into a brilliant and omnivorous reckoning with popular music—as an art form (actually, a bunch of art forms), as a cultural and economic force, and as a tool that we use to build our identities. He explains the history of slow jams, the genius of Shania Twain, and why rappers are always getting in trouble. Sanneh shows how these genres have been defined by the tension between mainstream and outsider, between authenticity and phoniness, between good and bad, right and wrong. Throughout, race is a powerful touchstone: just as there have always been Black audiences and white audiences, with more or less overlap depending on the moment, there has been Black music and white music, constantly mixing and separating. Sanneh debunks cherished myths, reappraises beloved heroes, and upends familiar ideas of musical greatness, arguing that sometimes, the best popular music isn’t transcendent. Songs express our grudges as well as our hopes, and they are motivated by greed as well as idealism; music is a powerful tool for human connection, but also for human antagonism. This is a book about the music everyone loves, the music everyone hates, and the decades-long argument over which is which. The opposite of a modest proposal, Major Labels pays in full.

📖 [Expositions of the Psalms 1-32 \(Vol. 1\)](#) Saint Augustine (of Hippo),1990 As the psalms are a microcosm of the Old Testament, so the Expositions of the Psalms can be seen as a microcosm of Augustinian thought. In the Book of Psalms are to be found the history of the people of Israel, the theology and spirituality of the Old Covenant, and a treasury of human experience expressed in prayer and poetry. So too does the work of expounding the psalms recapitulate and focus the experiences of Augustine’s personal life, his theological reflections and his pastoral concerns as Bishop of Hippo.--Publisher’s website.

📖 [The School Review](#) ,1903

📖 [House of Cards](#) William D. Cohan,2010-02-09 A blistering narrative account of the negligence and greed that pushed all of Wall Street into chaos and the country into a financial crisis. At the beginning of March 2008, the monetary fabric of Bear Stearns, one of the world’s oldest and largest investment banks, began unraveling. After ten days, the bank no longer existed, its assets sold under duress to rival JPMorgan Chase. The effects would be felt nationwide, as the country suddenly found itself in the grip of the worst financial mess since the Great Depression. William Cohan exposes the corporate arrogance, power struggles, and deadly combination of greed and inattention, which led to the collapse of not only Bear Stearns but the very foundations of Wall Street.

📖 [Diagnosing and Changing Organizational Culture](#) Kim S. Cameron,Robert E. Quinn,2011-01-07 Diagnosing and Changing Organizational Culture provides a framework, a sense-making tool, a set of systematic steps, and a methodology for helping managers and their organizations carefully analyze and alter their fundamental culture. Authors, Cameron and Quinn focus on the methods and mechanisms that are available to help managers and change agents transform the most fundamental elements of their organizations. The authors also provide instruments to help individuals guide the change process at the most basic level—culture. Diagnosing and Changing Organizational Culture offers a systematic strategy for internal or external change agents to facilitate foundational change that in turn makes it possible to support and supplement other kinds of change initiatives.
