Russia's Identity in International Relations Raymond Taras,2012-10-02 Bringing together leading scholars from Russia and outside experts on Russia, this book looks at the difference between the image Russia has of itself and the way it is viewed in the West. It discusses the historical, cultural and political foundations that these images are built upon, and goes on to analyse how contested these images are, and their impact on Russian identity. The book questions whether differing images explain fractiousness in Western-Russian relations in the new century, or whether distinct ‘imaginary solitudes’ offer a better platform from which to negotiate differences. Providing an innovative comparative study of contemporary images of the country and their impact, the book is a significant contribution to studies of globalisation and international relations.

Russian Foreign Policy Jeffrey Mankoff,2009-04-16 A second edition of this book is now available. This thoughtful and balanced text examines the development of Russian foreign policy since the end of the Cold War. Presenting an evenhanded treatment of controversial issues, Jeffrey Mankoff analyzes Russia's interactions with major global actors, including the United States, the European Union, the Commonwealth of Independent States, and China. Despite Moscow's often-harsh rhetoric and the deployment of Russian forces against Georgia in 2008, the author convincingly demonstrates that today's Russia is more interested in restoring what its leaders consider to be its rightful place among the world's major powers than in directly challenging the West. Thoroughly researched and knowledgeable, this book will be invaluable for all students of Russia.
