**Japanese Popular Music** Carolyn S. Stevens, 2012-08-21 Japanese popular culture has been steadily increasing in visibility both in Asia and beyond in recent years. This book examines Japanese popular music, exploring its historical development, technology, business and production aspects, audiences, and language and culture. Based both on extensive textual and aural analysis, and on anthropological fieldwork, it provides a wealth of detail, finding differences as well as similarities between the Japanese and Western pop music scenes. Carolyn Stevens shows how Japanese popular music has responded over time to Japan's relationship to the West in the post-war era, gradually growing in independence from the political and cultural hegemonic presence of America. Similarly, the volume explores the ways in which the Japanese artist has grown in independence vis-à-vis his/her role in the production process, and examines in detail the increasingly important role of the jimusho, or the entertainment management agency, where many individual artists and music industry professionals make decisions about how the product is delivered to the public. It also discusses the connections to Japanese television, film, print and internet, thereby providing through pop music a key to understanding much of Japanese popular culture more widely.

Living the Hiplife Jesse Weaver Shipley, 2013-01-28 Hiplife is a popular music genre in Ghana that mixes hip-hop beatmaking and rap with highlife

music, proverbial speech, and Akan storytelling. In the 1990s, young Ghanaian musicians were drawn to hip-hop's dual ethos of black masculine empowerment and capitalist success. They made their underground sound mainstream by infusing carefree bravado with traditional respectful oratory and familiar Ghanaian rhythms. *Living the Hiplife* is an ethnographic account of hiplife in Ghana and its diaspora, based on extensive research among artists and audiences in Accra, Ghana's capital city; New York; and London. Jesse Weaver Shipley examines the production, consumption, and circulation of hiplife music, culture, and fashion in relation to broader cultural and political shifts in neoliberalizing Ghana. Shipley shows how young hiplife musicians produce and transform different kinds of value—aesthetic, moral, linguistic, economic—using music to gain social status and wealth, and to become respectable public figures. In this entrepreneurial age, youth use celebrity as a form of currency, aligning music-making with self-making and aesthetic pleasure with business success. Registering both the globalization of electronic, digital media and the changing nature of African diasporic relations to Africa, hiplife links collective Pan-Africanist visions with individualist aspiration, highlighting the potential and limits of social mobility for African youth. The author has also directed a film entitled *Living the Hiplife* and with two DJs produced mixtapes that feature the music in the book available for free download.

**Music in Everyday Life** Tia DeNora, 2000-06-08 The power of music to influence mood, create scenes, routines and occasions is widely recognised and this is reflected in a strand of social theory from Plato to Adorno that portrays music as an influence on character, social structure and action. There have, however, been few attempts to specify this power empirically and to provide theoretically grounded accounts of music's structuring properties in everyday experience. *Music in Everyday Life* uses a series of ethnographic studies - an aerobics class, karaoke evenings, music therapy sessions and the use of background music in the retail sector - as well as in-depth interviews to show how music is a constitutive feature of human agency. Drawing together

concepts from psychology, sociology and socio-linguistics it develops a theory of music's active role in the construction of personal and social life and highlights the aesthetic dimension of social order and organisation in late modern societies.
