The Infinity Doctors Lance Parkin,1998 Gallifrey. The Doctor's home planet. For twenty thousand centuries the Gallifreyans have been the most powerful race in the cosmos. They have circumnavigated infinity and eternity, harnessed science and conquered death. They are the Lords of Time, and have used their

powers carefully. But now a new force has been unleashed, one that is literally capable of everything. It is enough to give even the Time Lords nightmares. More than that: it is enough to destroy them. It is one of their own. Waiting for them at the end of the universe.--Page 4 of cover.

Woodswoman Anne Labastille,1991-10-11 Ecologist Anne LaBastille created the life that many people dream about. When she and her husband divorced, she needed a place to live. Through luck and perseverance, she found the ideal spot: a 20-acre parcel of land in the Adirondack mountains, where she built the cozy, primitive log cabin that became her permanent home. Miles from the nearest town, LaBastille had to depend on her wits, ingenuity, and the help of generous neighbors for her survival. In precise, poetic language, she chronicles her adventures on Black Bear Lake, capturing the power of the landscape, the rhythms of the changing seasons, and the beauty of nature's many creatures. Most of all, she captures the struggle to balance her need for companionship and love with her desire for independence and solitude. Woodswoman is not simply a book about living in the wilderness, it is a book about living that contains a lesson for us all.

Hit Factories Karl Whitney,2019-06-27 After discovering a derelict record plant on the edge of a northern English city, and hearing that it was once visited by David Bowie, Karl Whitney embarks upon a journey to explore the industrial cities of British pop music. Manchester, Liverpool, Newcastle, Leeds, Sheffield, Hull, Glasgow, Belfast, Birmingham, Coventry, Bristol: at various points in the past these cities have all had distinctive and highly identifiable sounds. But how did this happen? What circumstances enabled those sounds to emerge? How did each particular city - its history, its

physical form, its accent - influence its music? How were these cities and their music different from each other? And what did they have in common? Hit Factories tells the story of British pop through the cities that shaped it, tracking down the places where music was performed, recorded and sold, and the people - the performers, entrepreneurs, songwriters, producers and fans - who made it all happen. From the venues and recording studios that occupied disused cinemas, churches and abandoned factories to the terraced houses and back rooms of pubs where bands first rehearsed, the terrain of British pop can be retraced with a map in hand and a head filled with music and its many myths.

Blue Box Kate Orman,2003 A Sixth Doctor novel with Peri Brown California 1981: Peri wants to visit her home, but the TARDIS, with its usual precision, has dropped her and the Doctor off on the right continent, but in the wrong place, in the right decade, but the wrong year. Determined anyway to enjoy the weird fashions of her native time, Peri wants to go clubbing. The Doctor takes her to a seedy looking joint, where aliens and supernaturals congregate. And

leaves her there. Stranded and alone, with only cryptic instructions from the missing Doctor to go by, Peri finds herself drawn into the underground world of early phone and computer hacking. In 1981, the computer network may be relatively primitive, but the hackers are getting more sophisticated by the minute. And they are about to become a whole lot more so, as one of the hackers has got her hands on the technology of the Eridani, an alien race whose freighters were hijacked by their enemies the Jai. The Doctor struggles to prevent the technology being used on Earth, the more so as he gradually realises the exact nature of the mysterious components from outer space...

The Eight Doctors Terrance Dicks,1997 Recuperating after the trauma of his recent regeneration, the Doctor falls foul of a final booby-trap set by his arch-enemy, the Master. When he recovers, the disoriented Doctor looks in a mirror and sees the face of a stranger. He knows only that he is called the Doctor -- nothing more. But something deep inside tells him to trust the TARDIS, and his hands move over the controls of their own accord. The TARDIS takes him to a strangely familiar junkyard in late-nineties London, where he is flung into a confrontation between local drug-dealers and Samantha Jones, a rebellious teenage from Coal Hill School. But the Doctor soon finds the TARDIS transporting him to various other places in order to recover all of his memories -- and that involves seeing seven strangely-familiar faces.--Page 4 of cover.
