The First Book of Classical Horror Stories D F Lewis, 2012-07 An anthology of Horror Stories by various authors on the theme of Classical Music. ----- Editor's potentially biased appraisal: A basic reasonably priced paperback in the good-hearted tradition of the Small Press of yesteryear, with all its mixture of good and potential characterful 'idiosyncracies'. ----- The 'Classical' in 'Classical Music' entails Romantic and all manner of other styles ancient and new: a Marriage of Heaven and Hell from Baroque to Broke. Indents and spacings-out with ligetis or ligottis and other knots of text that create new visions, new meanings: ugly or sublime, rarely neither, often both. a quotation from 'Thumper-Monster: The Phenomenology of Music' (2001) by Tokkmaster Clerke ----- Classical music is the music that is sold from the Classical Music department of HMV in Oxford Street, London. a quotation from 'Simple Definitions' (1996) by Nial Hopper

Dreaming Ahead of Time Gary Lachman,2022-01-11 Can we see the future in our dreams? Does time flow in one direction? What is a 'meaningful coincidence'? Renowned esoteric writer Gary Lachman has been recording his own precognitive dreams for forty years. In this unique and intriguing book, Lachman recounts the discovery that he dreams 'ahead of time', and argues convincingly that this extraordinary ability is, in fact, shared by all of us. *Dreaming Ahead of Time* is a personal exploration of precognition, synchronicity and coincidence drawing on the work of thinkers including J.W. Dunne, J.B. Priestly and C.G. Jung. Lachman's description and analysis of his own experience introduces readers to the uncanny power of our dreaming minds, and reveals the illusion of our careful distinctions between past, present and future.

Katlanta Dr. Michael Grant,2022-02-03 ONCE UPON A TIME, THERE WAS A PLANET FAR, FAR AWAY... The planet was called Kateraan. All of its inhabitants were cats- incredibly smart, genius cats!

Kateraan was a world of vast scientific achievement. Everyone on this planet was a genius at something. Everyone, except for El Gato, so they thought. And the big discovery in the life of the average Kateraanian was that of determining what he/she was brilliant at. To ease each Kateraanian along the path to discovery of his or her brilliance, huge institutions of higher learning had been established. They contained their computer data banks vast storehouses of all the accumulated knowledge of hundreds of years brilliant work by Kateraanian scientists, historians, mathematicians, sociologists, etc. And, these institutions were staffed by a faculty of the most brilliant minds available to the Kateraanian populace, at large. To be a teacher in Kateraan was an honor bestowed only upon the best and the brightest of an already stellar pool of talent. It was the highest position anybody could achieve in society short of being a world leader. There is no such thing as dance music on planet Kateraan. The Kateraanians believe that any kind of music other than drone sounds or classical music is the work of the Devil, because it promotes hatred, violence, discrimination and domination. Thus, at times, life can be a bit boring, hearing the same old drone sounds and/or classical music over and over again. In brief, El Gato's goal is to prove the Kateraanian's that not all music can be healing voice of the universe. El Gato further believes that non-toxic music promotes self-respect, as well as respect for others. Moreover, good music promotes fun, togetherness and a sense of hope when things aren't going well. The bottom line according to El Gato, Life ain't fun until the music plays.

Lullaby of Birdland George Shearing, 2004-04-27 Pianist George Shearing is that rare thing, a European jazz musician who became a household name in the US, as a result of the Shearing sound—the recordings of his historic late 1940s quintet. Together with his unique locked hands approach to playing the piano, Shearing's quintet with guitar and vibraphone in close harmony to his own playing revolutionized small group jazz, and ensured that after seven years as Melody Maker's top British pianist, he achieved even greater success in America. His compositions have been recorded by everyone from Sarah Vaughan to Miles Davis, and his best known pieces include Lullaby of Birdland, She and Conception. His story is all the more remarkable because Shearing was born blind. His candid reminiscences include a behind the scenes experience of New York's 52nd Street in its heyday, as well as memories of a vast roll-call of professional colleagues that includes all the great names in jazz.

Evolutionary Psychiatry, second edition Anthony Stevens, John Price, 2014-01-14 Challenging a medical model which has supplied few effective answers to long-standing conundrums, Evolutionary Psychiatry proposes a new conceptual framework for psychiatry based on Darwinian theory. Anthony Stevens and John Price argue that psychiatric symptoms are manifestations of ancient adaptive strategies which are no longer necessarily appropriate but which can best be understood and treated in an evolutionary and developmental context. They propose theories to account for the widespread existence of affective disorders, borderline states and schizophrenia, as well as offering solutions for

puzzles such as sadomasochism and the function of dreams. This comprehensive introduction to the new science of Darwinian Psychiatry is readily accessible to both the specialist and non-specialist reader. It describes in detail the disorders and conditions commonly encountered in psychiatric practice and show how evolutionary theory can account for their biological origins and functional nature.

The Essential David Everett Reader David Everett, 2012-10-01 David Everett wrote the way he played the piano for the sheer joy of entertaining. His stories are unfailingly funny. Everett's memoirs tell of growing up in east Texas during WWII, the military after Korea but before Viet Nam, gays at UT in the 50s, Winedale and Johnson City in the 60s, playing the piano behind the iron curtain in Europe, and much, much more. Diagnosed with Parkinson's at 45, Everett continued to enjoy life for another 28 years, first working on campus and then retiring to Mexico. This book tells in droll detail the story of the coming of age of a gay Texan, the pleasures and traumas of the 60s, the heroic struggles of an unrepentant iconoclast, beset with a degenerative disease, who faced the world with intelligence, sensitivity, and humor. This book is a song with many verses and a single underlying theme: art as a form of salvation, writing as a pure act of love.

It's About Time Tony Sampson, 2004-04 It's about Lust. It's about Love. It's about Loyalty, Friendship, and Family. It's about Sexual Intrigue. It's About Time.
