Dreams for Dead Bodies Miriam Michelle Robinson,2016-02-02 Dreams for Dead Bodies: Blackness, Labor, and the Corpus of American Detective Fiction offers new arguments about the origins of detective fiction in the United States, tracing the lineage of the genre back to unexpected texts and uncovering how authors such as Edgar Allan Poe, Mark Twain, Pauline Hopkins, and Rudolph Fisher made use of the genre's puzzle-elements to explore the shifting dynamics of race and labor in America. The author constructs an interracial genealogy of detective fiction to create a nuanced picture of the ways that black and white authors appropriated and cultivated literary conventions that coalesced in a recognizable genre at the turn of the twentieth century. These authors tinkered with detective fiction's puzzle-elements to address a variety of historical contexts, including the exigencies of chattel slavery, the erosion of working-class solidarities by racial and ethnic competition, and accelerated mass production. Dreams for Dead Bodies demonstrates that nineteenth- and early twentieth-century American literature was broadly engaged with detective fiction, and that authors rehearsed and refined its formal elements in literary works typically relegated to the margins of the genre. By looking at these margins, the book argues, we can better understand the origins and cultural functions of American detective fiction.

Coast of Dreams Kevin Starr,2011-06-22 In this extraordinary book, Kevin Starr-widely acknowledged as the premier historian of California, the scope of whose scholarship the Atlantic Monthly has called "breathtaking"-probes the possible collapse of the California dream in the years 1990—2003. In a series of compelling chapters, Coast of Dreams moves through a variety of topics that show the California of the last decade, when the state was sometimes stumbling, sometimes humbled, but, more often, flourishing with its usual panache. From gang violence in Los Angeles to the spectacular rise-and equally spectacular fall-of Silicon Valley, from the Northridge earthquake to the recall of Governor Gray Davis, Starr ranges over myriad facts, anecdotes, news stories, personal impressions, and analyses to explore a time of unprecedented upheaval in California. Coast of Dreams describes an exceptional diversity of people, cultures, and values; an economy that mirrors the economic state of the nation; a battlefield where industry and the necessities of infrastructure collide with the inherent demands of a unique and stunning natural environment. It explores California politics (including Arnold Schwarzenegger's election in the 2003 recall), the multifaceted business landscape, and controversial icons such as O. J. Simpson. "Historians of the future," Starr writes, "will be able to see with more certainty whether or not the period 1990-2003 was not only the end of one California but the beginning of another"; in the meantime, he gives a picture of the place and time in a book at once sweeping and riveting in its details, deeply informed, engagingly personal, and altogether fascinating.

The Singing Sleuth D. Barton,2005-09 A cold-blooded murder was just committed on a luxurious British cruise ship returning from the sun-drenched Caribbean islands of Martinique, Barbados, and St. Maarten. The ship's controller was bludgeoned with a ten-pound dumbbell in the fitness center. The victim was an especially nasty character who took great pleasure in advising headquarters which departments on the Pegasus fell short of their monetary goals. It's no wonder he was killed. Alec DunBarton, a Scottish bank auditor, comes to the rescue of Flagship Cruise Line to examine the controller's books. Although Alec is haunted by his past, he soon finds himself totally at home on the Pegasus-drinking Glenlivet, smoking his pipe, and singing whenever the spirit moves him. By means of song lyrics, Alec's able to decipher clues and describe his suspects. Was it the slick cruise director, the adulterous plumber, the mild-mannered security officer, the lonely cruise consultant, the plump masseuse, the seductive fitness instructor, or the wealthy passenger? If you're ready for adventure, come aboard. They're all expecting you!

Doctor's Dreams Dr. Colonel M Sitaram,2023-07-25 How does one compile all the excitement, euphoria, compassion, tension, pathos and despair a medical doctor feels in his daily practice in to one book? How can a life time spent in travel around the world be abridged to a few lines of introspection laced with wit and humour?

Revolutionary Dreams Richard Stites,1991-11-14 The revolutionary ideals of equality, communal living, proletarian morality, and technology worship, rooted in Russian utopianism, generated a range of social experiments which found expression, in the first decade of the Russian revolution, in festival, symbol, science fiction, city planning, and the arts. In this study, historian Richard Stites offers a vivid portrayal of revolutionary life and the cultural factors--myth, ritual, cult, and symbol--that sustained it, and describes the principal forms of utopian thinking and experimental impulse. Analyzing the inevitable clash between the authoritarian elements in the Bolshevik's vision and the libertarian behavior and aspirations of large segments of the population, Stites interprets the pathos of utopian fantasy as the key to the emotional force of the Bolshevik revolution which gave way in the early 1930s to bureaucratic state centralism and a theology of Stalinism.

Dream Student J.J. DiBenedetto,2013-03-20 College junior Sara Barnes thought her life was totally under control. All she had to worry about was her final exams, Christmas shopping, applying to medical school – and what to do about the cute freshman in the next dorm with a crush on her. Everything was going according to plan, until the night she started seeing other people's dreams. It's bad enough that Sara is learning more than she ever needed to know about her friends and classmates, watching their most secret fantasies whether she wants to or not. Much worse are the other dreams, the ones she sees nearly every night, featuring a strange, terrifying man who commits unspeakable crimes. Now Sara wonders if she's the only witness to a serial killer – and the only one who knows when and where he's going to strike next. Dream Student is the prequel to the Dream Doctor Mysteries.

Embodiment Robert Bosnak,2007-09-12 Did you know that intentional dreaming has been used to solve life's problems? Embodiment: Creative Imagination in Medicine, Art and Travel sets out Robert Bosnak's practice of embodied imagination and demonstrates how he actually works with dreams and memories in groups. The book discusses various approaches to dreams, body and imagination, and combines this with a Jungian, neurobiological, relational and cultural analysis. The author's fascination with dreams, the most absolute form of embodied imagination, has caused him to travel all over the world. From his research he concludes that while dreaming everyone everywhere experiences dreams as embodied events in time and space while the dreamer is convinced of being awake; it is after waking into our specific cultural stories about dreaming that the widely differing attitudes towards dreams arise. By taking dreaming reality, not our waking interpretation of it, as the model for imagination, this book creates a paradigm shock and produces methods which can be applied in a wide variety of cultural settings. Through detailed case studies, professionals and students will find thorough discussions of: ways to flashback into dreams and memories while in a hypnagogic state of consciousness the practice of embodied imagination and its profound physical effects psyche as a self-organizing multiplicity of selves the nature of subjectivity the body as a theatre of sense memories the limitation of reason the process of dissociation the treatment of trauma This book discusses a variety of techniques which may be applied by health professionals to their patients and clients. It will also be of particular interest to Jungian and relational psychoanalysts, psychotherapists and clinical psychologists, as well as to artists, actors, directors, writers and other individuals who wish to explore the creative imagination.

Artful Grief Sharon Strouse,2013-02-27 Artful Grief is a decade long study of loss by an art therapist, in the aftermath of her daughters suicide. On October 11, 2001, Sharon received a phone call in the middle of the night from the New York City Police Department telling her that her seventeen year old daughter Kristin, had fallen from the roof of her college dormitory. So began her journey into the labyrinth of unspeakable grief. As the first year drew to a close she found no comfort in traditional therapy, and no solace in spoken or written words. In surrender to her inner art therapists guidance, she began to create collages. She cut and tore images out of magazines and glued them on various size paper. The paper was a safe and sacred container, receptive to the fullness of emotion, story and paradox. Over time there was transformation and healing. Artful Grief A creative roadmap through violent dying and grief. A dose of soul medicine for survivors. A way to retrieve the pieces of a shattered life, with paper, scissors and glue. A resourceful tool for those suffering with complicated grief and/or PTSD. A place for the unspeakable to be seen and heard. A process to quiet the mind and open the heart. A visual experience of trauma images as illustrations of hope. A sample of prophetic dreams and meditations that are illuminating. A heartfelt sharing of intimate secrets for understanding and compassion. A surprising grief gift that is inspiring.

The Publishers Weekly ,1902

Celebrations and Connections in Hispanic Literature Andrea Morris,Margaret Parker,2009-03-26 The volume Celebrations and Connections in Hispanic Literature is itself a celebration of a tradition of scholarly dialogue in a relaxed, festive atmosphere. The articles included here began as papers presented at the 25th Anniversary Edition of the Biennial Louisiana Conference on Hispanic Languages and Literatures, held in Baton Rouge Louisiana, February 23-24, 2006. Each of the authors responds in innovative ways to the idea of connecting texts, contexts, and genres, as well as to the disconnect that is often present between what we perceive as "Hispanic" identity and the experience of those left on the margin. Topics include "Celebrating and Rewriting Difference: (De)colonized Identities," "Word and Image in the Spanish Golden Age," and "Latin American Literature and Politics," among others. The collection is demonstrative of current trends in Hispanic literary and cultural criticism, which are increasingly less bound by traditional regional and temporal constructs. While each author's research is rooted in a specific socio-historic context, their combined contributions to the present volume provide a far-reaching perspective that expands the notion of "text" to go beyond the literary and engage a multitude of disciplines. "...it emphasizes the often illuminating connections among literary and cultural texts which can be drawn when one conceives of Hispanism and its literary and cultural fields as shaped by trends and issues, rather than divided by periods and regions (...) What strikes me most is the newness of each piece. While each is very well informed, none rehearses old historical or theoretical ground more than is absolutely necessary, but rather presents either a new or overlooked text or offers a new approach." Leslie Bary, University of Louisiana, Lafayette "An impressive array of well-established and younger scholars has produced a volume whose scope is the entire Hispanic world extending from the Golden Age to the contemporary era. (...) This volume will be of interest to all scholars and critics of Hispanic literature as well as to historians and political scientists. Many of the essays challenge traditional assumptions about the colonization of the Hispanic world as well as the motivations for the revolutions for independence whose influence is still strongly alive in contemporary treatments of fundamental questions of national identity, race, class, and gender." C. Chris Soufas, Jr., Tulane University
