Black Ball and the Boardwalk James E. Overmyer,2014-10-21 The Giants' accomplishments took place against an historical backdrop of a change in the African-American experience. The original players from Jacksonville, Florida, joined the northward black migration during World War I. The team was named after Harry Bacharach--an Atlantic City politician running for mayor--as a way to keep his name before the city's black community. The Giants were immediately successful, and soon played the best semi-professional teams in their region, as well as the top black teams from the East and

Midwest. They entered the first Negro league on the East Coast in 1923, and won the league championship twice before the decade ended. This book chronicles the Giants' pivotal role in the development of black baseball in Prohibition Era Atlantic City, and the careers of the men who made it possible.

The Digital Role-Playing Game and Technical Communication Daniel Reardon,David Wright,2021-04-22 With annual gross sales surpassing 100 billion U.S. dollars each of the last two years, the digital games industry may one day challenge theatrical-release movies as the highest-grossing entertainment media in the world. In their examination of the tremendous cultural influence of digital games, Daniel Reardon and David Wright analyze three companies that have shaped the industry: Bethesda, located in Rockville, Maryland; BioWare in Edmonton, Alberta, and CD Projekt Red in Warsaw, Poland. Each company has used social media and technical content in the games to promote players' belief that players control the companies' game narratives. The result has been at times explosive, as empowered players often attempted to co-op the creative processes of games through discussion board forum demands, fund-raising campaigns to persuade companies to change or add game content, and modifications (modding) of the games through fan-created downloads. The result has changed the way we understand the interactive nature of digital games and the power of fan culture to shape those games.

Best Before James A. Newman,2012 Best Before examines how the videogames industry's retail, publishing, technology design, advertising and marketing practices actively produce obsolescence, wearing out and retiring old games to make way for the always new, just out of reach, 'coming soon' title and 'next generation' platform.

I Feel Sad Kelly Doudna,2010-09 In photographs and simple text, children contrast things that make them feel sad with those that do not, knowing that the sadness will pass.

The Saturated World Beverly Gordon,2006 Explores the way middle-class American women in the late nineteenth and early twentieth centuries added meaning to their lives through their domestic amusements--leisure pursuits that took place in and were largely focused on the home. Women elaborated on their everyday tasks and responsibilities with these amusements thus cultivating a heightened, aesthetically charged saturated state and created self-contained enchanted worlds.

Playing with Videogames James Newman,2008-08-18 Playing with Videogames documents the richly productive, playful and social cultures of videogaming that support, surround and sustain this most important of digital media forms and yet which remain largely invisible within existing studies. Playing with Videogames offers the reader a comprehensive understanding of the meanings of videogames and videogaming within the contemporary media environment.
