The Path of the Pole Charles H. Hapgood,1999 Hapgood's tour de force is back in print! This riveting account of how earth's poles have flipped positions many times is the culmination of Hapgood's extensive research of Antarctica, ancient maps and the geological record. This amazing book discusses the various pole shifts in earth's history -- occurring when earth's crust slips in the inner core -- and gives evidence for each one. It also predicts future pole shifts: a planetary alignment will cause the next one on 5 May 2000! Packed with illustrations, this book is the reference other books on the subject cite over and over again. With millennium madness in full swing, this is just the book to generate even more excitement at the unknown possibilities.

From Airline Reservations to Sonic the Hedgehog Martin Campbell-Kelly,2004-02-27 A business history of the software industry from the days of custom programming to the age of mass-market software and video games. From its first glimmerings in the 1950s, the software industry has evolved

to become the fourth largest industrial sector of the US economy. Starting with a handful of software contractors who produced specialized programs for the few existing machines, the industry grew to include producers of corporate software packages and then makers of mass-market products and recreational software. This book tells the story of each of these types of firm, focusing on the products they developed, the business models they followed, and the markets they served. By describing the breadth of this industry, Martin Campbell-Kelly corrects the popular misconception that one firm is at the center of the software universe. He also tells the story of lucrative software products such as IBM's CICS and SAP's R/3, which, though little known to the general public, lie at the heart of today's information infrastructure. With its wealth of industry data and its thoughtful judgments, this book will become a starting point for all future investigations of this fundamental component of computer history.

My Life, Our Lives Roger Molina, 2011-04-18 This autobiography is about a young man growing up during the great depression, who fought in WW2, came home and started a family, retired from the military, and pursued a second civilian career. You hear his frustration and joy in his own words as if he was speaking to us.

Poster Girl Beccy Cole, 2015-03-24 Beccy Cole's inspirational memoir from the heart of Australian country music. Beccy Cole has country music in her blood. Daughter of a country music star, Carole Sturtzel, she is one of the most popular country singer-songwriters in Australia today. This is the story of her life - in her own words. At fourteen, Beccy was performing in her mother's group, Wild Oats. By her late teens, Beccy had teamed up with the Dead Ringer Band - Kasey Chambers' family band - and had attracted the attention of the country music world by winning the Star Maker quest: the same award that started the careers of Keith Urban, Lee Kernaghan, James Blundell and Gina Jeffreys. It was

just the first of many awards and accolades for this multitalented woman with a big heart. With refreshing candour, Beccy shares her story: leaving everything she knew to pursue her dream, making a name for herself with her own band; her marriage and motherhood; her subsequent divorce, becoming a single mother and maintaining the nurturing love of family. Performing for the Australian troops in Afghanistan. Coming out, and what it has meant for her and her fans. Taking control of her own life - and finding love. Heartfelt and honest, *Poster Girl* is the inspirational memoir of a strong woman who epitomises the authentic spirit of country music, and of Australia.

Ciao, America! Beppe Severgnini, 2003-05-13 In the wry but affectionate tradition of Bill Bryson, *Ciao, America!* is a delightful look at America through the eyes of a fiercely funny guest—one of Italy's favorite authors who spent a year in Washington, D.C. When Beppe Severgnini and his wife rented a creaky house in Georgetown they were determined to see if they could adapt to a full four seasons in a country obsessed with ice cubes, air-conditioning, recliner chairs, and, of all things, after-dinner cappuccinos. From their first encounters with cryptic rental listings to their back-to-Europe yard sale twelve months later, Beppe explores this foreign land with the self-described patience of a mildly inappropriate beachcomber, holding up a mirror to America's signature manners and mores. Succumbing to his surroundings day by day, he and his wife find themselves developing a taste for Klondike bars and Samuel Adams beer, and even that most peculiar of American institutions—the pancake house. The realtor who waves a perfect bye-bye, the overzealous mattress salesman who bounces from bed to bed, and the plumber named Marx who deals in illegally powerful showerheads are just a few of the better-than-fiction characters the Severgninis encounter while foraging for clues to the real America. A trip to the computer store proves just as revealing as D.C.'s Fourth of July celebration, as do boisterous waiters angling for tips and no-parking signs crammed with a dozen

lines of fine print. By the end of his visit, Severgnini has come to grips with life in these United States—and written a charming, laugh-out-loud tribute.

Hanging with My Peeps Kathryn Higgs-Coulthard,2016-03-31 Before Dad's rust-bucket lurched into the driveway with forty-three chickens in the back, the closest Sami Duggan had ever come to poultry was licking the grease off her fingers at the local KFC. Now Sami better think quick before her whole life is turned upside down by Dad's latest get rich quick scheme.

Headaches in Women Mark Green,2019-10-01 Women suffer from headaches far more than men. According to the World Health Organization, migraine is one of the most disabling medical conditions. The understanding of the pathophysiology of migraine has changed dramatically over the past decade, leading to more rational and targeted treatments. Since most migraineurs are young women, use of contraception, management of headaches with menstruation, pregnancy, lactation, and menopause are important issues addressed in this text. Headaches are often inherited, and, as such, the book also discusses genetic issues, particularly relevant in this era of customized medicine. The hormonal management of transgenders is important as many will experience severe headaches during their transitions. Comorbidities, including psychiatric syndromes and strokes, are also presented in detail. This text will be of interest to all practitioners who manage women with headaches.

Positive Lightning Laurie Salzler,2014-12-15 Kate Winter teaches dog owners how to train their canine companions. During her spare time, accompanied by her Lab, Dakota, she explores the woods and beaches on foot or horseback. She's worried that something's happening in her relationship, but she can't get her girlfriend Trish to talk to her about it. Faith Hutchins recently lost her sight after a terrible outdoor accident. She's dealt with her anger, depression, and blindness primarily on her own. A seeing-eye dog would help alleviate her reliance on anyone else, but the guide dog school has been unsuccessful in providing her with one. On a mission to find someone who will train a dog specifically for her, she ultimately zeroes in on Kate. They say lightning never strikes the same place twice. But positive lightning is notoriously unpredictable and can ignite a fire when and where least expected . . . no matter who's in its path.
