Not So Fast Tim Hollister, Sandy Spavone, 2013-09-01 Most of the information available to parents of teen drivers acknowledges that driving is risky, and then advises parents that their obligation is to teach their teens how to operate a vehicle—but little more. Missing from most available resources are explanations of why teen driving is so dangerous, and specific, proactive steps that parents can take day-by-day, each time a teen driver gets behind the wheel, to counteract the situations that most often lead to crashes. *Not So Fast* fills this gap in the existing literature, providing advice to parents, guardians, and other adults who supervise teen drivers about the critical decisions that must be made before a teen drives. *Not So Fast* empowers and guides parents to:

- Evaluate the circumstances of every driving trip
- Be able to say “No” when necessary
- Prepare a “flight plan” for each drive
- Become an informed, proactive supervisor
- Control distracted driving and texting
- Put safety before convenience
- Manage curfews, and much more

Since losing his 17-year-old son Reid in a one-car crash in 2006, Tim Hollister has become a national authority and spokesperson for safer teen driving, serving on a Connecticut state task force to overhaul his state's teen driving laws; launching *From Reid's Dad*, a national blog for parents of teen drivers; appearing as an expert commentator on regional TV and radio; and being awarded the US Department of Transportation Public Service Award, the nation's highest civilian award for traffic safety. Sandy Spavone is the executive director of National Organizations for Youth Safety (NOYS), a coalition of national organizations that promote youth empowerment and leadership and build partnerships that save lives, prevent injuries, and enhance safe and healthy lifestyles among all youth.

1001 Ways to Drive Defensively Honesto Marcos, 2014-02-01 In spite of better-engineered vehicles and roads, traffic accidents are increasing. Why? Drivers are now better prepared and trained. Accidents are also mostly preventable if only drivers learn defensive driving and accident avoidance techniques. It teaches among other things, to be helpful, courteous, and defensive regardless of who is at fault but who has the last clear chance to avoid the accident. It's easy to learn and to execute. Without knowledge of defensive driving and accident avoidance techniques, that person is considered half a driver. We can't continue the carnage in the roads; it's expensive and can result in losing health and/or life. In this book, *1001 Ways to Drive Defensively*, for your safety and driving enjoyment, the ideas are sometimes repeated because driving is a repetition of the same maneuvers for any trip made. To help remember the procedures, it is presented in different ways. It is also not organized chronologically because when we are behind the wheel, things don't happen in logical order; the situations and circumstances do dictate. The author has a bachelor's degree in education. He has been a North American driver for almost fifty years, most of which were in Cold Alberta, Canada, where winter could last for six months. You guessed it—lots of traffic accidents. Thus, the knowledge of defensive driving was a must. In Alberta, he was a schoolteacher, operated a driving school, a driving instructor and driver examiner. Author urges safety-conscious individuals not to wait any longer; get a copy of *1001 Ways to Drive Defensively*. It makes driving enjoyable, less stressful, and most of all, you'll experience safety whenever you are behind the wheel. Don't forget you're protecting the most expensive thing that was created, and no amount of money can replace it. This book is suitable for all drivers. However, discretion is necessary; you might save one or two accidents in what is left of your driving days. We all have to pitch in and help make the roads safer. No government can do it alone. We must not forget that other drivers are our friends we haven't met. Why don't we help them and, in the process, help ourselves too? In an accident, regardless of who is at fault, we'll still suffer the same consequences. It takes only a second or two to help versus days or months recuperating. Some drivers make this statement, "whatever I do, if other drivers make a mistake what can I do?" Drivers that have this kind of reasoning forget that to be safe, one does not only drive their vehicle, follow traffic rules, but help other driver if they make a mistake. Apply defensive driving technique if one notices a condition that can develop into vehicle conflict. This book will make a perfect gift for anybody, for any occasion and they will be grateful and remember you for life.

Truck Driving 101 Dennis Fox, 2019-04-22 This book contains information many truck drivers can benefit from. One of them was how I developed a way to stay awake and alert for many miles behind the wheel.
