Digital Transformation in the Cultural and Creative Industries Marta Massi, Marilena Vecco, Yi Lin, 2020-12-29 This research-based book investigates the effects of digital transformation on the cultural and creative sectors. Through cases and examples, the book examines how artists and art institutions are facing the challenges posed by digital transformation, highlighting both positive and negative effects of the phenomenon. With contributions from an international range of scholars, the book examines how digital transformation is changing the way the arts are produced and consumed. As relative late adopters of digital technologies, the arts organizations are shown to be struggling to adapt, as issues of authenticity, legitimacy, control, trust, and co-creation arise. Leveraging a variety of research approaches, the book identifies managerial implications to render a collection that is valuable reading for scholars involved with arts and culture management, the creative industries and digital transformation more broadly.

Sociological Perspectives on Media Piracy in the Philippines and Vietnam Vivencio O. Ballano, 2015-12-26 This book addresses the persistence of the optical media piracy trade in the Philippines and Vietnam. It goes beyond arguments of defective law enforcement and copyright legal systems by applying sociological perspectives to examine the socio-economic forces behind the advent of piracy in the region. Using documentary and ethnographic data, in addition to resistance and ecological theories in sociology of law and technology as the overall theoretical framework, the book investigates factors that contribute to this phenomenon and factors that impede the full formalization of the optical media trade in the two countries. These factors include the government's attitude towards the informal sector and strong resistance to tougher IPR protection, unstable and sometimes conflicting policies on technologies, burdensome business registration process and weak enforcement of business regulations, bureaucratic corruption and loopholes in law enforcement system as well as trade ties with China. In addition to that, the book highlights the social background of the actors behind the illegal business of counterfeit CDs and DVDs, thereby explaining the reasons they continue to persist in this type of trade. It invites policymakers, law enforcers, advocates of anti-piracy groups, and the general public to use a more holistic lens in understanding the persistence of copyright piracy in developing countries, shifting the blame from the moral defect of the traders to the current problematic copyright policy and enforcement structure, and the difficulty of crafting effective anti-piracy measures in a constantly evolving and advancing technological environment.

Jazz and Blues Musicians of South Carolina Benjamin Franklin V, 2021-03-09 An oral history of musical genres from the Palmetto State musicians who helped define the sounds From Jabbo Smith, Dizzy Gillespie, and Drink Small to Johnny Helms, Dick Goodwin, and Chris Potter, South Carolina has been home to an impressive number of regionally, nationally, and internationally known jazz and blues musicians. Through richly detailed interviews with nineteen South Carolina musicians, jazz historian and radio host Benjamin Franklin V presents an oral history of the tradition and influence of jazz and the blues in the Palmetto State. Franklin takes as his subjects a range of musicians born between 1905 and 1971, representing every decade in between, to trace the progression of these musical genres from Tommy Benford's and Jabbo Smith's first recording sessions in the summer of 1926 to the present day. Diverse not only in age but also in race, gender, instruments, and style, these musicians exemplify the breadth of South Carolina's jazz and blues performers. In their own colorful words, the musicians recall love affairs with the distinctive sounds of jazz and blues, indoctrinations into the musical world, early gigs, fans, drugs, military service, amateur night at the Apollo Theater, and influential friendships with other well-known

musicians. As the story of the South Carolina musical scene is tightly interwoven with that of the nation, these narratives also include appearances by Tony Bennett, Miles Davis, Count Basie, Helen Merrill, Pharoah Sanders, Sister Rosetta Tharpe, and other significant musicians. These interviews also document the lasting value of music education. In particular they stress the importance of the famed Jenkins Orphanage in Charleston and of South Carolina State University in Orangeburg in nurturing young musicians' talent. Arranged in chronological order by the subjects' birth years, these interviews are augmented by photographs of the musicians, collectively serving as a unique record of representative jazz and blues musicians who have called South Carolina home.
