A Predicament Edgar Allan Poe,2020-10-07 The story is often labelled a sequel to *How to Write a Blackwood Article*, and deals with Signora Zenobia, who comes across a stately cathedral and a giant clock, that soon will take her life. Both horrifying and hilarious, *A Predicament* is a bizarre story indeed, satirical in its entirety, verging on the nonsensical and the absurd. An extremely funny read, the story is definitely a dark comedy that continues the heroine's predicament from the previous tale. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include *The Raven* (1945), *The Black Cat* (1943), and *The Gold-Bug* (1843).

Legal Foundations of Capitalism John Rogers Commons,1924

The People's Advocate Daniel Sheehan,2013-09-01 *The People's Advocate* is the autobiography of American Constitutional Trial Attorney Daniel Sheehan. Sheehan traces his personal journey from his working-class roots through Harvard Law School and his initial career in private practice. His early disenchantment led to his return for further study at Harvard Divinity School, and rethinking the nature of his career. Eventually his role as President and Chief Trial Counselor for the famous Washington, D.C.-based Christic Institute would help define his role as America's preeminent cause lawyer. In *The People's Advocate*, Sheehan details the inside story of over a dozen historically significant American legal cases of the 20th Century, all of which he litigated. The remarkable cases covered in the book include both *The Pentagon Papers Case* in 1971 and *The Watergate Burglary Case* in 1973. In addition, Sheehan served as the Chief Attorney on *The Karen Silkwood Case* in 1976, which additionally revealed the C.I.A.'s Israeli Desk had been smuggling 98% bomb-grade plutonium to the State of Israel and to Iran. In 1984, he was the Chief Trial Counsel on *The American Sanctuary Movement Case*, establishing the right of American church workers to provide assistance to Central American political refugees fleeing Guatemalan and Salvadorian death squads. His involvement with the sanctuary movement ultimately led to Sheehan's famous *Iran/Contra Federal Civil Racketeering Case* against the Reagan/Bush Administration, which he investigated, initiated, filed, and then litigated. The resulting *Iran/Contra Scandal* nearly brought down that Administration, leading Congress to consider the impeachment over a dozen of the top-ranking officials of the Reagan/Bush Administration. *The People's Advocate* is the real story of these and many other historic American cases, told from the unique point of view of a central lawyer.

The Continental Op Dashiell Hammett,2019-12-12 'He is master of the detective novel, yes, but also one hell of a writer' Boston Globe Dashiell Hammett is the true inventor of modern detective fiction and the creator of the private eye, the isolated hero in a world where treachery is the norm. *THE CONTINENTAL OP* was his great first contribution to the genre and these seven stories, which first appeared in the magazine *Black Mask*, are the best examples of Hammett's early writing, in which his formidable literary and moral imagination is already operating at full strength. *THE CONTINENTAL OP* is the dispassionate fat man working for the Continental Detective Agency, modelled on the Pinkerton Agency, whose only interest is in doing his job in a world of violence, passion,

desperate action and great excitement.

Sociological Perspectives on Media Piracy in the Philippines and Vietnam Vivencio O. Ballano, 2015-12-26 This book addresses the persistence of the optical media piracy trade in the Philippines and Vietnam. It goes beyond arguments of defective law enforcement and copyright legal systems by applying sociological perspectives to examine the socio-economic forces behind the advent of piracy in the region. Using documentary and ethnographic data, in addition to resistance and ecological theories in sociology of law and technology as the overall theoretical framework, the book investigates factors that contribute to this phenomenon and factors that impede the full formalization of the optical media trade in the two countries. These factors include the government's attitude towards the informal sector and strong resistance to tougher IPR protection, unstable and sometimes conflicting policies on technologies, burdensome business registration process and weak enforcement of business regulations, bureaucratic corruption and loopholes in law enforcement system as well as trade ties with China. In addition to that, the book highlights the social background of the actors behind the illegal business of counterfeit CDs and DVDs, thereby explaining the reasons they continue to persist in this type of trade. It invites policymakers, law enforcers, advocates of anti-piracy groups, and the general public to use a more holistic lens in understanding the persistence of copyright piracy in developing countries, shifting the blame from the moral defect of the traders to the current problematic copyright policy and enforcement structure, and the difficulty of crafting effective anti-piracy measures in a constantly evolving and advancing technological environment.
