Comparison of Chute and Stilling Basin Performance for Three Different Drop Box Inlets William Oscar Ree,1976 Three different drop (entrance box) inlets were tested and compared to determine their influence on the performance of a chute spillway and a Saint Anthony Falls stilling basin at the outlet of the chute. The tests were undertaken to determine if the entrance needed to be a deep box or if a shallow one would do as well.

The Drop Box Brian Ivie,Ted Kluck,2015-03-01 Brian Ivie was filled with compassion as he read an LA Times article about Pastor Lee's solution to unwanted newborns in South Korea—a baby drop box. Brian traveled halfway around the world to film the documentary *The Drop Box*. But God had even

bigger plans. For in the midst of filming the plight of these abandoned and forgotten children, Brian realized his own spiritual brokenness. At its heart, this is a story of spiritual orphans—young and old—discovering their true identity as children of God.

Laboratories of Autocracy David Pepper, 2021-10-15 “It’s the statehouses, stupid.” *Laboratories of Autocracy* shows that far more than the high-profile antics of politicians like Marjorie Taylor Greene or Jim Jordan—and yes, even bigger than Donald Trump’s Big Lie—it’s anonymous, often corrupt politicians in statehouses across the country who pose the greatest dangers to American democracy. Because these statehouses no longer operate as functioning democracies, these unknown politicians have all the incentive to keep doing greater damage, and can not be held accountable however extreme they get. This has driven steep declines in states like Ohio and others across the country. And collectively, it’s placed American democracy in its greatest peril since the dawn of the Jim Crow era. But Pepper doesn’t stop there. He lays out a robust pro-democracy agenda outlining how everyone from elected officials to business leaders to everyday citizens can fight back.
