**A Library of the World's Best Literature - Ancient and Modern - Vol. XLV (Forty-Five Volumes); Synopses of Famous Books & General Index** Charles Dudley Warner,2009-01-01 It would be enough to recommend this astonishing, 45-volume set, first published in 1896, if it were merely a wonderfully massive compilation of the world's best writings from the world's best authors up until the advent of the 20th century. But A Library of the World's Best Literature is so much more than that. For this marvelous collection represents the evolution of human thought-the evolution of human civilization, even-as seen through the mind of one of the most important, if sadly almost forgotten, literary figures of the 19th century.Popular American essayist, novelist, and journalist CHARLES DUDLEY WARNER (1829-1900) was renowned for the warmth and intimacy of his writing, which encompassed travelogue, biography and autobiography, fiction, and more, and influenced entire generations of his fellow writers. Here, the prolific writer turned editor for his final grand work, a splendid survey of global literature, classic and modern, and it's not too much to suggest that if his friend and colleague Mark Twain-who stole Warner's quip about how everybody complains about the weather, but nobody does anything about it-had assembled this set, it would still be hailed today as one of the great achievements of the book world.And so it still deserves to be. Arranged not chronologically but alphabetically, mostly under the names of authors but in some cases of literatures or special subjects-such as Icelandic literature or Arthurian legend-this set is no dry reference work. These eminently browsable volumes-available through Cosimo for the first time in decades in both paperback and hardcover editions-are meant to be read and enjoyed by anyone who loves the written word.Volume 45 features more synopses of notable works-from Adam Bede by George Eliot to Zury; The Meanest Man in Spring County by Joseph Kirkland-including many not previously referenced in the set but highlighted as well worth a serious reader's time and attention.This volume also includes a General Index to the 45-volume set.

*Virgil, Aeneid, 4.1-299* Ingo Gildenhard,2012 Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences. This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.

**Candide** Voltaire,2009-08-14 The philosophical problem of evil—that a supposedly good God could allow terrible human suffering—troubled the minds of eighteenth-century thinkers as it troubles us today. Voltaire's classic novel *Candide* relates the misadventures of a young optimist who leaves his sheltered childhood to find his way in a cruel and irrational world. Fast-paced and full of dark humor, the novel mocks the suggestion that "all is well" and challenges us to create a better world. This Broadview Edition follows the text of a 1759 English translation that was released concurrently with Voltaire's first French edition. *Candide* is supplemented by Voltaire's most important poetic and humanistic writings on God and evil, the Poem upon the Destruction of Lisbon and We Must Take Sides. The editor's introduction situates the novel in its philosophical and

intellectual setting; the appendices include other writings by Voltaire, as well as related writings by Bayle, Leibniz, Pope, Rousseau, and others that place the work in its poetic, philosophical, and humanistic contexts.
