International Cross-Listing of Chinese Firms Liu, Lixian,2014-01-31 While many nations are still struggling from the global financial crisis and regaining their financial security, investors are considering alternative options for investing their money; and the secure financial sector in China appears as a viable option. International Cross-Listing of Chinese Firms examines the successful techniques and strategies that Chinese companies are using within their financial practices. It highlights the foreign-based multinational enterprise theories related to the

major international stock markets. By providing the latest theories and research, this book will be beneficial for business practitioners, researchers, and managers interested in the relationship between cross-listing and firm valuation of Chinese firms.
