**Stories, Meaning, and Experience** Yanna B. Popova, 2015-06-26 This is a book about the human propensity to think about and experience the world through stories. 'Why do we have stories?', 'How do stories create meaning for us?', and 'How is storytelling distinct from other forms of meaning-making?' are some of the questions that this book seeks to answer. Although these and other related problems have preoccupied linguists, philosophers, sociologists, narratologists, and cognitive scientists for centuries, in *Stories, Meaning, and Experience*, Yanna Popova takes an original interdisciplinary approach, situating the study of stories within an enactive understanding of human cognition. Enactive approaches to consciousness and cognition foreground the role of interaction in explanations of social

understanding, which includes the human practices of telling and reading stories. Such an understanding of narrative makes a decisive break with both text-centred approaches that have dominated structuralist and early cognitivist views of narrative meaning, as well as pragmatic ones that view narrative understanding as a form of linguistic implicature. The intersubjective experience that each narrative both affords and necessitates, the author argues, serves to highlight the active, yet cooperative and communal, nature of human sociality, expressed in the numerous forms of human interaction, of which storytelling is one.

*Best Boats To Build Or Buy* Ferenc Mate, 2006-07-18 A favorite volume from best-selling nautical author Ferenc Máté, now with an updated kit boat list. Lovingly written and beautifully photographed, *Best Boats* is an evaluation of the most elegantly designed and best-built sailboats in stages—from a bare hull to a finished yacht. In addition to evaluating overall design, performance and layout, this book, like no other, analyses how and how well the boats are built. Ranging from the ageless Herreshoff day-sailer to the ultra-light Santa Cruz flyers, the book features some of the finest works of designers such as German Frers, Chuck Paine, Bill Crealock, Doug Peterson, Lyle Hess, and others. Even more importantly, it contains interviews with legendary builders such as Tom Morris, the Cherubinis, Cecil Lange, and Tom Dreyfus. Using the surveyed boats as examples, Máté; shows what to look for when contemplating the purchase of any sailboat. For the boatbuilder, it points out the weaknesses and strengths of all aspects of construction, using hundreds of photographs and illustrations to clarify.

**Surf Science** Tony Butt, 2014 Have you ever wondered where surfing waves come

from, what makes every wave different, why some peel perfectly and others just close out; why, some days, the waves come in sets and other days they don't, and how the tides, the wind and the shape of the sea floor affect the waves for surfing? If you have, this book is for you. Now in its third edition, *Surf Science* is the first book to talk in depth about the science of waves from a surfer's point of view. It fills the gap between surfing books and waves textbooks, and will help you learn how to predict surf. *Surf Science* is also a useful introduction to oceanography and the science of waves. You don't need a scientific background to read it - just curiosity and a fascination for waves.

*The Hávamál* Saemund Sigfusson, 2020-07-17 *Hávamál* is presented as a single poem in the *Codex Regius*, a collection of Old Norse poems from the Viking age. The poem, itself a combination of numerous shorter poems, is largely gnomic, presenting advice for living, proper conduct and wisdom. It is our most important source on Old Norse philosophy. The verses are attributed to Odin; the implicit attribution to Odin facilitated the accretion of various mythological material also dealing with the same deity.

*The Power of Blessing* Kerry Kirkwood, 2010-07-28 Discover for yourself: It really IS more blessed to give than to receive! *The Power of Blessing* is more than an encouragement to bless. It shows you many ways you can be a blessing to those around you. Blessings are not just about materialism, blessings are more about a lifestyle that changes environments and conditions among

families, churches, communities, and even small businesses and large corporations. Do not repay evil with evil or insult with insult, but with blessing, because to this you were called so that you may inherit a blessing (1 Peter 3:9 NIV). The Power of Blessing: • Presents practical applications about how to bless others and receiving blessings. • Teaches the difference between truth and fact. • Shares humorous and inspirational testimonies. • Reveals the importance of speaking God's intentions as to how things should be. • Breaks generational curses by learning how to bless. Your heavenly Father is the redemptive God who delights in bringing things back into His divine order. Through learning how to bless, you can participate in this redemptive process. By actively living a lifestyle of blessing, you will see changes in the hearts of those you bless—as well as in yourself!
