Violent Women in Contemporary Theatres Nancy Taylor Porter,2017-12-14 This book brings together the fields of theatre, gender studies, and psychology/sociology in order to explore the relationships between what happens when women engage in violence, how the events and their reception intercept with cultural understandings of gender, how plays thoughtfully depict this topic, and how their productions impact audiences. Truthful portrayals force consideration of both the startling reality of women's violence — not how it's been sensationalized or demonized or sexualized, but how it is — and what parameters, what possibilities, should exist for its enactment in life and live theatre. These women appear in a wide array of contexts: they are mothers, daughters, lovers, streetfighters, boxers, soldiers, and dominatrixes. Who they are and why they choose to use violence varies dramatically. They stage resistance and challenge normative expectations for women. This fascinating and balanced study will appeal to anyone interested in gender/feminism issues and theatre.

Composing for the Cinema Ennio Morricone,Sergio Miceli,2013-10-10 With nearly 400 scores to his credit, Ennio Morricone is one of the most prolific and influential film composers working today. In Composing for the Cinema, Morricone and musicologist Sergio Miceli present a series of lectures on the composition and analysis of film music. Adapted from several lectures and seminars, these lessons show how sound design can be analyzed and offer a variety of musical solutions to many different kinds of film. Drawing upon scores by himself and others, the composer also provides insight into his relationships with many of the directors with whom he has collaborated, including Sergio Leone, Giuseppe Tornatore, Franco Zeffirelli, Warren Beatty, Ridley Scott, Roland Joffé, the Taviani Brothers, and others. Delivered in a conversational mode that is both comprehensible and interesting, this groundbreaking work intertwines analysis with practical details of film music composition.

The Ridley Scott Encyclopedia Laurence Raw,2009-09-28 From his first feature film, The Duellists, to his international successes Alien, Blade Runner, Thelma and Louise, Black Hawk Down, Gladiator, and American Gangster, Ridley Scott has directed some of the most compelling films of the last 30 years. Apart from his work as a film director, Scott has engaged in a vast range of activities, including that as a designer, producer, film mogul, and advertising executive. The Ridley Scott Encyclopedia is the first book that focuses on all aspects of his work in a wide-ranging career that spans nearly 50 years. The entries in this encyclopedia focus on all aspects of his work and are divided into four categories. The first focuses on Ridley Scott's work as a director, encompassing his feature films from The Duellists to Body of Lies, as well as his work in television, including commercials. The second category focuses on the people who have been involved in Scott's projects, including actors, directors, producers, designers, writers and other creative personnel. The third focuses on general thematic issues raised in Scott's work, such as gender construction, political issues, and geographical locations. Finally the encyclopedia incorporates entries on films by other directors who have influenced Scott's approach to his work as a director or producer. Each entry is followed by a bibliography of published sources, both in print and online, making this the most comprehensive reference on Scott's body of work.

Chop Suey and Sushi from Sea to Shining Sea Bruce Makoto Arnold,Tanfer Emin Tunç,Raymond Douglas Chong,2018-06-15 The essays in Chop Suey and Sushi from Sea to Shining Sea fill gaps in the existing food studies by revealing and contextualizing the hidden, local histories of Chinese and Japanese restaurants in the United States. The writer of these essays show how the taste and presentation of Chinese and Japanese dishes have evolved in sweat and hardship over generations of immigrants who became restaurant owners, chefs, and laborers in the small towns and large cities of America. These vivid, detailed, and sometimes emotional portrayals reveal the survival strategies deployed in Asian restaurant kitchens over the past 150 years and the impact these restaurants have had on the culture, politics, and foodways of the United States. Some of these authors are family members of restaurant owners or chefs, writing with a passion and richness that can only come from personal investment, while others are academic writers who have painstakingly mined decades of archival data to reconstruct the past. Still others offer a fresh look at the amazing continuity and domination of the "evil Chinaman" stereotype in the "foreign" world of American Chinatown restaurants. The essays include insights from a variety of disciplines, including history, sociology, anthropology, ethnography, economics, phenomenology, journalism, food studies, and film and literary criticism. Chop Suey and Sushi from Sea to Shining Sea not only complements the existing scholarship and exposes the work that still needs to be done in this field, but also underscores the unique and innovative approaches that can be taken in the field of American food studies.

Film Firsts Ethan Alter,2014-02-17 This forward-looking exploration of contemporary American film across the last 40 years identifies and examines the specific movies that changed the film industry and shaped its present and future. Since the mid-1970s, American cinema has gone through enormous changes, such as the birth of the modern summer blockbuster, the rise of the independent film industry, ongoing technological advancements in special effects, and the ever-evolving models for film distribution. Written by a professional film critic and film buff, this book tells the story of contemporary American cinema in a unique and engaging way: by examining 25 key movies that demonstrated a significant creative, technological, or business innovation that impacted the industry at large. Each chapter in this chronological survey of contemporary film is divided into two sections: The Film, which offers a critical overview of the film in question; and The First, which describes the specific innovation achieved by that film and places that achievement in the larger historical context. Two additional appendices in each chapter explore other significant aspects of both the film and its groundbreaking nature. The broad coverage—ranging from action movies to horror films to science fiction favorites—ensures the work's appeal to all film fans.

The Oxford Handbook of Dance and Competition Dr. Sherril Dodds,2018-11-01 In the twenty-first century, values of competition underpin the free-market economy and aspirations of individual achievement shape the broader social world. Consequently, ideas of winning and losing, success and failure, judgment and worth, influence the dance that we see and do. Across stage, studio, street, and screen, economies of competition impact bodily aesthetics, choreographic strategies, and danced meanings. In formalized competitions, dancers are judged according to industry standards to accumulate social capital and financial gain. Within the capitalist economy, dancing bodies compete to win positions in prestigious companies, while choreographers hustle to secure funding and attract audiences. On the social dance floor, dancers participate in dance-offs that often include unspoken, but nevertheless complex, rules of bodily engagement. And the media attraction to the drama and spectacle of competition regularly plays out in reality television shows, film documentaries, and Hollywood cinema. Drawing upon a diverse collection of dances across history and geography, The Oxford Handbook of Dance and Competition asks how competition affects the presentation and experience of dance and, in response, how dancing bodies negotiate, critique, and resist the aesthetic and social structures of the competition paradigm.
