New Horizons for Asian Museums and Museology Naoko Sonoda, 2016-07-20 This book presents up-to-date information about museums and museology in present-day Asia, focusing on Japan, Mongolia, Myanmar, and Thailand. Asian countries today have developed or are developing their own museology and museums, which are not simple copies of European or North American models. This book provides readers with carefully chosen examples of museum activities—for example, exhibition and sharing information, database construction, access to and conservation of museum collections, relationships between museums and local communities, and international cooperation in the field of cultural heritage. Readers are expected to include museum professionals and museology students. Throughout the course of this book, the reader will understand that a museum is not only a place for collecting, representing, and preserving cultural heritage but also plays a fundamental role in community development. This book is highly recommended to readers who seek a worldwide vision of museum studies. The peer-reviewed chapters in this volume are written versions of the lectures delivered by selected speakers at the international symposium *New Horizons for Asian Museums and Museology* held in February 2015 at the National Museum of Ethnology, Japan.

The CD-ROM contains a PDF of 'The Art of Africa: A Resource for Educators, ' which features forty traditional works of African art in The Metropolitan Museum of Art. It includes a brief overview of the Metropolitan's collection of African art; a short introduction and history of Africa; an explanation of the role of visual expression in the continent; descriptions of the featured works of art and background about the materials and techniques that were used to created them ... Crossing the Rubicon Michael C. Ruppert, 2004-09-15 The acclaimed investigative reporter and author of *Confronting Collapse* examines the global forces that led to 9/11 in this provocative exposé. The attacks of September

11, 2001 were accomplished through an amazing orchestration of logistics and personnel. Crossing the Rubicon examines how such a conspiracy was possible through an interdisciplinary analysis of petroleum, geopolitics, narco-traffic, intelligence and militarism—without which 9/11 cannot be understood. In reality, 9/11 and the resulting War on Terror are parts of a massive authoritarian response to an emerging economic crisis of unprecedented scale. Peak Oil—the beginning of the end for our industrial civilization—is driving the elites of American power to implement unthinkably draconian measures of repression, warfare and population control. Crossing the Rubicon is more than a story of corruption and greed. It is a map of the perilous terrain through which we are all now making our way.

WHO Guidelines on Hand Hygiene in Health Care World Health Organization, 2009 The WHO Guidelines on Hand Hygiene in Health Care provide health-care workers (HCWs), hospital administrators and health authorities

with a thorough review of evidence on hand hygiene in health care and specific recommendations to improve practices and reduce transmission of pathogenic microorganisms to patients and HCWs. The present Guidelines are intended to be implemented in any situation in which health care is delivered either to a patient or to a specific group in a population. Definitions of health-care settings are proposed in Appendix 1. These Guidelines and the associated WHO Multimodal Hand Hygiene Improvement Strategy and an Implementation Toolkit (<http://www.who.int/gpsc/en/>) are designed to offer health-care facilities in Member States a conceptual framework and practical tools for the application of recommendations in practice at the bedside. While ensuring consistency with the Guidelines recommendations, individual adaptation according to local regulations, settings, needs, and resources is desirable. Mapping the Edge Sarah Dunant, 2001-03-30 People go missing every day. They walk out of their front doors and out of their lives into the silence of cold statistics. For those left behind it is the cruelest of long good-byes. Anna, a self-sufficient and reliable single mother, packs her bags one day for a short vacation to Italy. She leaves her beloved six-year-old daughter, Lily, at home in London with good friends. But when Anna doesn't return, everyone begins to make excuses until the likelihood that she might not come back becomes chillingly clear. And the people who thought they knew Anna best realize they don't know her at all. How could she leave her daughter? Why doesn't she call? Is she enjoying a romantic tryst with a secret lover? Or has she been abducted or even killed by a disturbed stranger? Did that person you loved so much and thought you knew so well did they simply choose to go and not come back? Or did someone do the choosing for them? Dunant, a

masterly British suspense writer, skillfully interweaves parallel narratives that are stretched taut with tension even as they raise difficult questions about motherhood, friendship, and accountability. In this compelling hybrid of sophisticated crime writing and modern women's fiction, Dunant challenges and unnerves us as she redefines the boundaries of the psychological thriller. Missing rubs the soul raw. In place of answers all you have is your imagination.

Musical Sound Effects Jean-Michel Réveillac, 2018-03-07 For decades performers, instrumentalists, composers, technicians and sound engineers continue to manipulate sound material. They are trying with more or less success to create, to innovate, improve, enhance, restore or modify the musical message. The sound of distorted guitar of Jimi Hendrix, Pierre Henry's concrete music, Pink Floyd's rock psychedelic, Kraftwerk's electronic music, Daft Punk and rap T-Pain, have let emerge many effects: reverb, compression, distortion, auto-tune, filter, chorus, phasing, etc. The aim of this book is to introduce and explain these effects and sound treatments by addressing their theoretical and practical aspects.

The Globalization of Crime United Nations Office on Drugs and Crime,2010 In The globalization of crime: a transnational organized crime threat assessment, UNODC analyses a range of key transnational crime threats, including human trafficking, migrant smuggling, the illicit heroin and cocaine trades, cybercrime, maritime piracy and trafficking in environmental resources, firearms and counterfeit goods. The report also examines a number of cases where transnational organized crime and instability amplify each other to create vicious circles in which countries or even subregions may become locked. Thus, the report offers a striking view of the global dimensions of organized crime today.
