Martin Sitter, Adrian Ramseier

Apple Pro Training Series Martin Sitter, Adrian Ramseier, Robbie Carman, 2009-09-04 Updated for DVD Studio Pro 4.2.2, this best-selling, Apple certified guide uses striking real-world footage to build four complete DVDs and share a Blu-ray disc. It covers how to use DVD Studio Pro on its own, as well as how to integrate it into your workflow with Final Cut Pro 7, Motion 4, and Compressor 3.5. Each lesson takes you step-by-step through an aspect of DVD creation and finishing, with hands-on projects for you to complete as you go. You'll learn to storyboard your DVD and plan its interactions, set chapter markers, build still and motion menus, and add overlays and subtitles. You'll also work with multiple audio tracks and camera angles, create smart buttons and custom transitions, professionally encode audio and video files, and build useful scripts. All of Peachpit's eBooks contain the same content as the print edition. You will find a link in the last few pages of your eBook that directs you to the media files. Helpful tips: If you are able to search the book, search for Where are the lesson files? Go to the very last page of the book and scroll backwards. You will need a web-enabled device or computer in order to access the media files that accompany this ebook. Entering the URL supplied into a computer with web access will allow you to get to the files. Depending on your device, it is possible that your display settings will cut off part of the URL. To make sure this is not the case, try reducing your font size and turning your device to a landscape view. This should cause the full URL to appear.
