**Building from Waste** Dirk E. Hebel, Marta H. Wisniewska, Felix Heisel, 2014-09-25 "Reduce, Reuse, Recycle, and Recover" is the sustainable guideline that has replaced the "Take, Make, Waste" attitude of the industrial age. Based on their background at the ETH Zurich and the Future Cities Laboratory in Singapore, the authors provide both a conceptual and practical look into materials and products which use waste as a renewable resource. This book introduces an inventory of current projects and building elements, ranging from marketed products, among them façade panels made of straw and self-healing concrete, to advanced research and development like newspaper, wood or jeans denim used as isolating fibres. Going beyond the mere recycling aspect of reused materials, it looks into innovative concepts of how materials usually regarded as waste can be processed into new construction elements. The products are organized along the manufacturing processes: densified, reconfigured, transformed, designed and cultivated materials. A product directory presents all materials and projects in this book according to their functional uses in construction: load-bearing, self-supporting, insulating, waterproofing and finishing products.

**2028 End** Gabriel Erb, 2019-07-12 God created a game - it's called The Game of Life. Planet Earth is the playing field, the 10 love commandments are the rules, and we humans are the players who can win or lose. The game is played by two teams, like the game of football. One team's head coach is Jesus and the other team's head coach is Satan. All of us on earth are playing for one of these two teams! Gabriel Ansley Erb wrote the book **2028 END** in order to fully elucidate God's game clock scenario for The Game of Life as contained in the game's handbook, the Holy Bible. The handbook says, God declared the end from the beginning (Isaiah 46:10) by using 7 days in the creation event. Each 24 hour creation day foretold of a future 1,000 year period for a total 7,000 year plan God had for The Game of Life to be played on planet earth. And amazingly, to confirm this is all true, God hid a secret prophesy in each creation day foretelling the greatest event He had planned to occur in that day's future millennium! Consequently, Creation day 1 foretold Adam & Eve's fall, which was fulfilled during earth's 1st millennium. Creation day 2 foretold Noah's global flood, which was fulfilled during earth's 2nd millennium. Creation day 3 foretold Moses' Red Sea parting, which was fulfilled during earth's 3rd millennium. Creation day 4 foretold of John the Baptist & Jesus Christ, and so they lived and died during earth's 4th millennium. And the prophecies continue with each Creation day! Gabriel proves all of the above, carefully revealing the prophetic Scriptures as well as the fulfillment Scriptures. Then he reveals a dozen Scriptures proving Christ died earth's 4,000 year and will return earth's 6,000 year. Finally, he proves Christ died Feast of Passover AD 28 and will return Feast of Trumpets 2028. For those who read this book, it is an open and shut case: The Game of Life will end 2,000 years from the year of Christ's death on the cross - AD 2028.

**The Veiled Web** Catherine Asaro, 2022-09-27 "A near-future layering of East and West, of religion and technology . . . and of love and its loss—all woven into an intriguing tapestry." —Diana Gabaldon, bestselling author of the Outlander series Winner of the Homer Award for Best Science Fiction Novel A renowned prima ballerina, Lucia del Mar is far more comfortable expressing herself through dance than with words. Shy and introverted, she spends most of her spare time on her laptop. Still, Lucia's job forces her out of her comfort zone, which is how she winds up at a White House reception where she meets Rashid al-Jazari, the wealthy CEO of a multinational corporation. Although attracted to him, Lucia can't help but feel awkward and shrugs off their encounter as a one-time event. Not realizing he feels a similar attraction, she never imagines Rashid will seek out her performances; he is the last person she expects to see when her dance company travels to Italy. Their reunion takes an even more unexpected turn when they're both drugged and kidnapped. Although they overcome their abductors, it leaves them stranded in North Africa. For her own safety, Lucia agrees to marry Rashid, at least for the time being. As she recovers at his family compound in Morocco, reeling from their brush with danger, she struggles to fit into a culture she knows nothing about—and to deal with her growing feelings for Rashid. At the same time, at his secret office there, Rashid is developing a dramatic leap forward in artificial intelligence combined with virtual reality. He finds himself plunged into a fight for control of his work against powerful international forces, and caught in the middle, Lucia is swept into that battle . . . "A terrific novel, ripping a path from today's headlines to tomorrow's realities." —Robert J. Sawyer, Nebula Award-winning author
