Building from Waste Dirk E. Hebel, Marta H. Wisniewska, Felix Heisel, 2014-09-25 "Reduce, Reuse, Recycle, and Recover" is the sustainable guideline that has replaced the "Take, Make, Waste" attitude of the industrial age. Based on their background at the ETH Zurich and the Future Cities Laboratory in Singapore, the authors provide both a conceptual and practical look into materials and products which use waste as a renewable resource. This book introduces an inventory of current projects and building elements, ranging from marketed products, among them façade panels made of straw and self-healing concrete, to advanced research and development like newspaper, wood or jeans denim used as isolating fibres. Going beyond the mere recycling aspect of reused materials, it looks into innovative concepts of how materials

usually regarded as waste can be processed into new construction elements. The products are organized along the manufacturing processes: densified, reconfigured, transformed, designed and cultivated materials. A product directory presents all materials and projects in this book according to their functional uses in construction: load-bearing, self-supporting, insulating, waterproofing and finishing products.

Hell's Riders Ralph Cotton, 2021-06-10 In his years as an Arizona Ranger, Sam Burrack believes he has seen every act of cruelty and brutality one man can bestow upon another. but nothing has prepared him for the butchery perpetrated by a gang of scalp hunters in the settlement of Clifton Wells. Although on assignment escorting a prisoner, Sam will not allow the local law to pursue the killers without his assistance. Sheriff Boyd Tackett is more than willing to accept Sam's help because he has compelling personal reasons to see the culprits caught. With no idea of how many foes they're facing, the lawmen must learn to stick together-and trust each other-if they expect to bring these men to justice ...

Evangelical Faith and the Challenge of Historical Criticism Christopher M. Hays, Christopher B. Ansberry, 2013-11-19 Many

introductions to biblical studies describe critical approaches, but they do not discuss the theological implications. This timely resource discusses the relationship between historical criticism and Christian theology to encourage evangelical engagement with historical-critical scholarship. Charting a middle course between wholesale rejection and unreflective embrace, the book introduces evangelicals to a way of understanding and using historical-critical scholarship that doesn't compromise Christian orthodoxy. The book covers eight of the most hotly contested areas of debate in biblical studies, helping readers work out how to square historical criticism with their beliefs.

Fairies Afield Mrs Molesworth, 2024-02 *Fairies Afield* is a children's fantasy story written by Mary Louisa Molesworth, a well-known English children's author in the late nineteenth and early twentieth century. The book, published in 1902, is part of Molesworth's wide body of work, which includes a number of novels and stories for children. The story follows two siblings, Tottie and Tittie, as they go on a fantastic journey into the world of fairies. The children discover a secret road in the woods that leads them to the world of the fairies, where they meet a variety of wonderful creatures and participate in quirky and enchanting adventures. The kids become friends with fairies, elves, and other mystical creatures as they explore this magical realm. Like children's books from the Victorian and Edwardian eras, the story is full with endearing moments and soft moral messages. The narratives of Molesworth highlight kindness, amazement, and inventiveness. *Fairies Afield* perfectly encapsulates the essence of beloved children's books with its themes of friendship, magic, and youthful innocence. For those who appreciate classic stories of magic and adventure, the novel is still enjoyable.
