**Enough Rope** Barbara Nadel,2016-09-06 Private investigator and ex-soldier Lee Arnold and superintendent Paul Venus are by no means friends, but when Venus' son Harry is kidnapped and ransom demands arrive from an address in Arnold's patch in east London, the superintendent doesn't know who else to turn to. Arnold and his partner Mumtaz Hakim soon find themselves chasing leads into several of the East End's uneasily coexisting communities. Mumtaz uncovers a link to one of the area's powerful Bangladeshi families, whose property empire has always seemed suspicious, while Arnold suspects the involvement of more old-fashioned East End gangsters, and wonders if some of the nastier rumours about Venus himself might be true. And neither Mumtaz nor Lee like the look of the children of the super-rich, arriving in droves in the trendy parts of Hoxton and Shoreditch and living in luxury just a stone's throw from grinding urban poverty. The truth, however, is stranger and more dangerous than either Arnold or Hakim imagine. Enough Rope is a powerful and thrilling novel of London's ever-evolving dark side.

**Intellectual Capital Revisited** Cristina Chaminade,Bino Catasús,2007-01-01 'This book extends the analysis of intellectual capital and underlines the idea that its study is multidisciplinary. Its publication is timely as it brings together a collection of the key thought leaders in the area who provide new perspectives into this important topic. This book is essential reading by those engaged in understanding the knowledge economy and intellectual capital in organisational settings.' - James Guthrie, The University of Sydney, Australia This book brings together some of the founders of the IC movement in Europe to critically review the virtues and shortcomings of intellectual capital as a managerial concept. More questions on the future of IC study are perhaps raised than answered as the contributors attempt to open new avenues of research. The contributors acknowledge that the concept of managing intellectual capital is paradoxical in many respects. First and foremost, the boundaries of the knowledge intensive organization are fading. Organizations are open, networked and global, and intellectual capital mobile and elusive - so how can something with no boundaries be managed? Furthermore, is it possible that in a knowledge-intensive society, firms that do not focus on their intellectual capital are successful? That is, are there any pre-requisites for intellectual capital to be relevant? The book explores such paradoxes in the knowledge intensive organization, critically discusses the limitations of intellectual capital and revises the agenda for intellectual capital studies in the future. Drawing on empirical evidence including two EU funded projects involving researchers, practitioners and policy makers from international associations such as the OECD and the EU, this book will prove a thought provoking read for those with an interest in various aspects of management such as: knowledge management, management control, management accounting, strategic management and management of innovation.

**Make Projects: Small Form Factor PCs** Matthew Weaver,Duane Wessels,2008 This book demonstrates how to build small form factor PCs from kits and from scratch. **Introduction to Programming with Greenfoot** Michael Kölling,2010 Introduction to Programming with Greenfoot: Object-Oriented Programming in Java with games and Simulations is ideal for introductory courses in Java Programming or Introduction to Computer Science. The only textbook to teach Java programming using Greenfoot--this is Serious Fun. Programming doesn't have to be dry and boring. This book teaches Java programming in an interactive and engaging way that is technically relevant, pedagogically sound, and highly motivational for students. Using the Greenfoot environment, and an extensive collection of compelling example projects, students are given a unique, graphical framework in which to learn programming.

**Learning to Program with Alice** Wanda Dann,Stephen Cooper,Randy Pausch,2008 Alice was designed to make programming concepts easier to teach and learn. In the Second Edition of Learning to Program with Alice, Alice's creators offer a complete full-color introduction to the interactive Alice 2.2 programming environment. The authors make extensive use of program visualization to establish an easy, intuitive relationship between program constructs and the 3D graphics animation action in Alice. Students discover how Alice blends traditional problem-solving techniques with Hollywood-style storyboarding. Fundamental object-oriented programming concepts and language syntax are taught independently. Programming concepts can be taught from either an objects-first or an objects-early approach, with an optional early introduction to events. The book's Java-like syntax allows students to view their program code, simplifying their transitions to Java, C++, C#, or other object-oriented languages.

The Blonde Geisha Jina Bacarr,2014-08-01 The early summer of 1892 brought a heavy rainy season that year in Japan. Plum Rain, the Japanese called it, because it comes when the fruit bulges with ripeness and promise. Like a young girl reaching womanhood. A girl like me. In the ancient Japanese tradition of beauty and grace, sex and erotic fantasies are hidden secrets that only a select few may learn, and which are forbidden to foreigners. But when a threat to her father's life puts her own in jeopardy, young Kathlene Mallory is sent to live in safety at the Tea House of the Look-Back Tree, where she is allowed to glimpse inside the sensual world of the geisha. During the years of her training in the art of pleasuring men, Kathlene's desires are awakened by the promise of unending physical delights, and she eagerly prepares for the final ritual that will fulfill her dream of becoming a geisha — the selling of her virginity. The man willing to pay for such an honor, Baron Tonda, is not the man for whom Kathlene carries a secret longing, but he is the man who will bring ruin to the teahouse, and danger to Kathlene, if he is disappointed....
