Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Building from Waste Dirk E. Hebel, Marta H. Wisniewska, Felix Heisel, 2014-09-25 "Reduce, Reuse, Recycle, and Recover" is the sustainable guideline that has replaced the "Take, Make, Waste" attitude of the industrial age. Based on their background at the ETH Zurich and the Future Cities Laboratory in Singapore, the authors provide both a conceptual and practical look into materials and products which use waste as a renewable resource. This book introduces an inventory of current projects and building elements, ranging from marketed products, among them façade panels made of straw and self-healing concrete, to advanced research and development like newspaper, wood or jeans denim used as isolating fibres. Going beyond the mere recycling aspect of reused materials, it looks into innovative concepts of how materials usually regarded as waste can be processed into new construction elements. The products are organized along the manufacturing processes: densified, reconfigured, transformed, designed and cultivated materials. A product directory presents all materials and projects in this book according to their functional uses in construction: load-bearing, self-supporting, insulating, waterproofing and finishing products.

Macrocosm and Microcosm Rudolf Steiner, 1986-09 The human life alternates between the great, external macrocosm and the invisible inner microcosm. Steiner discusses the various paths of self-development that lead across these two thresholds and to the transformation of human soul-forces into spiritual organs of perception. A brief synopsis: The world behind the tapestry of sensory perceptions; human life between macrocosm and microcosm. The planets and their connection with our sleeping and waking life; consciousness soul, mind soul, and sentient soul. The inner path of the mystic; the cycle of the year; the ability to see through matter; the greater guardian of the threshold. The nature and development of human soul faculties; the lesser guardian of the threshold; the sun at midnight; the results of sins of omission. The Egyptian mysteries of Osiris and Isis; initiation experiences; the Rosicrucian path; mystics of the Middle Ages. Initiation in the northern mysteries; the necessity of suppressing the ego; conscious assent into the macrocosm and the higher worlds; the world of archetypal images. The four spheres of the higher worlds; the threshold of the spirit world; forces for developing clairvoyant consciousness in the world of archetypal images. The macrocosm mirrored in the human being; the nervous system as an inner solar system; the image of purified blood and the conquest of our lower nature in the symbol of the Rose Cross. Spiritual organs of perception and the strengthening powers of sleep; the thinking of the heart; the ego viewed from twelve perspectives. Reading the akashic record; the transition from intellect to heart thinking; four-dimensional space; intellectual questions have no meaning in relation to conditions before the intellect itself existed. Human and planetary evolution; adaptation to the different states of Earth's existence; the breathing process should not be influenced directly unless knowledge has become prayer.

Other Transaction Authority: Understanding and Examining Its Uses by Federal Agencies Tara M. Morrison, 2010 An other transaction (OT) is a special vehicle used by federal agencies for obtaining or advancing research and development (R&D) or prototypes. An OT is not a contract, grant or co-operative agreement, and there is no statutory or regulatory definition of other transaction. Only those agencies that have been provided OT authority may engage in other transaction. Generally, the reason for OT authority is that the government needs to obtain leading edge R&D and prototypes from commercial sources, but some companies are unwilling or unable to comply with the government's procurement regulations. This book examines the other transaction authority and its uses by the federal agencies.

2028 End Gabriel Erb, 2019-07-12 God created a game - it's called The Game of Life. Planet Earth is the playing field, the 10 love commandments are the rules, and we humans are the players who can win or lose. The game is played by two teams, like the game of football. One team's head coach is Jesus and the other team's head coach is Satan. All of us on earth are playing for one of these two teams! Gabriel Ansley Erb wrote the book 2028 END in order to fully elucidate God's game clock scenario for The Game of Life as contained in the game's handbook, the Holy Bible. The handbook says, God declared the end from the beginning (Isaiah 46:10) by using 7 days in the creation event. Each 24 hour creation day foretold of a future 1,000 year period for a total 7,000 year plan God had for The Game of Life to be played on planet earth. And amazingly, to confirm this is all true, God hid a secret prophesy in each creation day foretelling the greatest event He had planned to occur in that day's future millennium! Consequently, Creation day 1 foretold Adam & Eve's fall, which was fulfilled during earth's 1st millennium. Creation day 2 foretold Noah's global flood, which was fulfilled during earth's 2nd millennium. Creation day 3 foretold Moses' Red Sea parting, which was fulfilled during earth's 3rd millennium. Creation day 4 foretold of John the Baptist & Jesus Christ, and so they lived and died during earth's 4th millennium. And the prophecies continue with each Creation day! Gabriel proves all of the above, carefully revealing the prophetic Scriptures as well as the fulfillment Scriptures. Then he reveals a dozen Scriptures proving Christ died earth's 4,000 year and will return earth's 6,000 year. Finally, he proves Christ died Feast of Passover AD 28 and will return Feast of Trumpets 2028. For those who read this book, it is an open and shut case: The Game of Life will end 2,000 years from the year of Christ's death on the cross - AD 2028.
