Formal Methods in Computer-Aided Design Alan J. Hu, Andrew K.

Martin, 2005-01-18 These are the proceedings of the fifth international conference, Formal Methods in Computer-Aided Design (FMCAD), held 15-17 November 2004 in Austin, Texas, USA. The conference provides a forum for presenting state-of-the-art tools, methods, algorithms, and theory for the application of formalized reasoning to all aspects of computer-aided system design, including specification, verification, synthesis, and testing. FMCAD's heritage dates back 20 years to some of the earliest conferences on the subject of formal reasoning and computer-aided design. Since 1996, FMCAD has assumed its present form, held biennially in North America, alternating with its sister conference CHARME in Europe. We are delighted to report that our research community continues to flourish: we received 69 paper submissions, with many more high-quality papers than we had room to accept. After a rigorous review process, in which each paper received at least three, and typically four or more, independent reviews, we accepted 29 papers for the conference and inclusion in this volume. The conference also included invited talks from Greg Spirakis of Intel Corporation and Wayne Wolf of Princeton University. A conference of this size requires the contributions of numerous people. On the technical side, we are grateful to the program committee and the additional reviewers for their countless hours reviewing submissions and ensuring the intellectual quality of the conference. We would also like to thank the steering committee for their wisdom and guidance. On the logistical side, we thank Christa Mace for designing our website and attending to countless organizational tasks. And we thank our corporate sponsors - AMD, IBM, Intel, and Synopsys - for financial support that helped make this conference possible.

The Seminole Struggle John Missall, Mary Lou Missall, 2019-11-19 When we published our initial work on the Seminole Wars in 2004, we lamented the fact that such an important series of events was widely unknown to the American public in general and to the majority of Floridians. Not that we should have been surprised: The war was fought in one small corner of the nation and therefore of little concern to Americans as a whole, and most Floridians weren't born in the state and would have had little opportunity to learn about the wars. Yet it shouldn't have been that way. The Seminole Wars were a major conflict for the nation and arguably one of the most formative events for the State of Florida. The Indian Wars of the American West are famous worldwide, yet the Seminole Wars were bigger than any western Indian war. The foundations for most of Florida's great cities are a result of the Seminole Wars, yet few of those cities' residents are aware of the fact. It was an historical oversight we felt was in need of correction.
