The Pillars of the Earth Ken Follett,2010-06-29 #1 New York Times Bestseller Oprah's Book Club Selection The “extraordinary . . . monumental masterpiece” (Booklist) that changed the course of Ken Follett’s already phenomenal career—and begins where its prequel, *The Evening and the Morning*, ended. “Follett risks all and comes out a clear winner,” extolled Publishers Weekly on the release of *The Pillars of the Earth*. A departure for the bestselling thriller writer, the historical epic stunned readers and critics alike with its ambitious scope and gripping humanity. Today, it stands as a testament to Follett’s unassailable command of the written word and to his universal appeal. *The Pillars of the Earth* tells the story of Philip, prior of Kingsbridge, a devout and resourceful monk driven to build the greatest Gothic cathedral the world has known . . . of Tom, the mason who becomes his architect—a man divided in his soul . . . of the beautiful, elusive Lady Aliena, haunted by a secret shame . . . and of a struggle between good and evil that will turn church against state and brother against brother. A spellbinding epic tale of ambition, anarchy, and absolute power set against the sprawling medieval canvas of twelfth-century England, this is Ken Follett’s historical masterpiece.

The Flight of the Silvers Daniel Price,2014-02-04 For fans of Blake Crouch, the propulsive first book in the genre-bending Silvers trilogy, in which six ordinary people become extraordinary when they find themselves the sole survivors of an apocalypse that lands them on an Earth far different from our own—one on which they have X-Men-like powers to manipulate time. Without warning, the world comes to an end. The sky looms frigid white. The electric grid falters. Airplanes everywhere crash to the ground, and finally, the sky comes down in a crushing sheet of light, taking out everything and everyone with it—except for Hannah and Amanda Given. Saved from destruction by three fearsome and powerful beings who adorn them each with an irremovable silver bracelet, the Given sisters suddenly find themselves on a strange new Earth where restaurants move through the air like flying saucers and the fabric of time itself is manipulated by common household appliances. Upon arrival to this alternate America, Hannah and Amanda are taken to a science laboratory where they meet four other survivors from their world, all of whom wear matching silver bracelets—a mordant cartoonist, a shy teenage girl, a brilliant young Australian, and a troubled ex-prodigy. While being poked and prodded by scientists who may be friends or enemies, the group discovers that it’s not only their world that is different—they are different. Each has the power to manipulate time with their bare hands...a power they can’t always control. With no one but each other to trust, “the Silvers” must find out what exactly happened to their world and why it was that they were spared. But with unexpected new enemies emerging from around every corner, their quest for answers will quickly become a cross-country quest for survival.

Like a lovechild of Gravity and The Martian, it's a rousing space opera for any age, meticulously researched and relentlessly paced, that balances action, science, humor, and most importantly, two compelling main characters in Liam and Phoebe. A fantastic start to an epic new series.” —Soman Chainani, New York Times bestselling author of the School for Good and Evil series “Emerson's writing explodes off the page in this irresistible space adventure, filled with startling plot twists, diabolical aliens, and (my favorite!) courageous young heroes faced with an impossible task.” —Lisa McMann, New York Times bestselling author of the Unwanteds series It is Earth year 2213—but, of course, there is no Earth anymore. Not since it was burned to a cinder by the sun, which has mysteriously begun the process of going supernova. The human race has fled to Mars, but this was only a temporary solution while we have prepared for a second trip: a one-hundred-fifty-year journey to a distant star, our best guess at where we might find a new home. Liam Saunders-Chang is one of the last humans left on Mars. The son of two scientists who have been racing against time to create technology vital to humanity’s survival, Liam, along with his friend Phoebe, will be on the last starliner to depart before Mars, like Earth before it, is destroyed. Or so he thinks. Because before this day is over, Liam and Phoebe will make a series of profound discoveries about the nature of time and space and find out that the human race is just one of many in our universe locked in a dangerous struggle for survival.

The Monkey Wrench Gang Edward Abbey, 2011-08-19 A motley crew of saboteurs wreaks havoc on the corporations destroying America’s Western wilderness in this “wildly funny, infinitely wise” classic (The Houston Chronicle). When George Washington Hayduke III returns home from war in the jungles of Southeast Asia, he finds the unspoiled West he once knew has been transformed. The pristine lands and waterways are being strip mined, dammed up, and paved over by greedy government hacks and their corrupt corporate coconspirators. And the manic, beer-guzzling, rabidly antisocial ex-Green Beret isn’t just getting mad. Hayduke plans to get even. Together with a radical feminist from the Bronx; a wealthy, billboard-torching libertarian MD; and a disgraced Mormon polygamist, Hayduke’s ready to stick it to the Man in the most creative ways imaginable. By the time they’re done, there won’t be a bridge left standing, a dam unblown, or a bulldozer unmolested from Arizona to Utah. Edward Abbey’s most popular novel, The Monkey Wrench Gang is an outrageous romp with ultra-serious undertones that is as relevant today as it was in the early days of the environmental movement. The author who Larry McMurtry (Lonesome Dove) once dubbed “The Thoreau of the American West” has written a true comedic classic with brains, heart, and soul that more than justifies the call from the Los Angeles Times Book Review that we should all “praise the earth for Edward Abbey!” “Mixes comedy and chaos with enough chase sequences to leave you hungering for more.”—The San Francisco Chronicle

Blindsight Peter Watts, 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, Blindsight Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of

sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
