1001 Ideas to Create Retail Excitement Edgar A. Falk,2003-09-30 In a new, completely revised and updated edition of his 1999 classic 1001 Ideas to Create Retail Excitement, public relations and marketing guru Edgar Falk shows small, medium, and large business owners how to make the most of retail opportunities in any economic environment, and teaches all business owners how to think big in the face of growing competition and consumer insecurity. In our ever-changing economy, Falk's strategies are an absolute necessity for survival and success. Here, he offers a veritable encyclopedia of practical suggestions that show small- to medium-sized retailers how to attract new customers, then goes on to offer solid, time-tested advice on how to keep them coming back, over and over again. From proven-successful ideas for eye-catching window displays, in-store promotions, and special events to tested strategies for market research and publicity, this guide provides everything the small business owner needs to become more aggressive and effective in pulling in customers and fending off competition.

The Easter Computus and the Origins of the Christian Era Alden A. Mosshammer,2008-10-16 The system of numbering the years AD (Anni Domini, Years of the Lord) originated with Dionysius Exiguus. Dionysius drafted a 95-year table of dates for Easter beginning with the year 532 AD. Why Dionysius chose the year that he did to number as '1' has been a source of controversy and speculation for almost 1500 years. According to the Gospel of Luke (3.1; 3.23), Jesus was baptized in the 15th year of the emperor Tiberius and was about 30 years old at the time. The 15th year of Tiberius was AD 29. If Jesus was 30 years old in AD 29, then he was born in the year that we call 2 BC. Most ancient authorities dated the Nativity accordingly. Alden Mosshammer provides the first comprehensive study of early Christian methods for calculating the date of Easter to have appeared in English in more than one hundred years. He offers an entirely new history of those methods, both Latin and Greek, from the earliest such calculations in the late second century until the emergence of the Byzantine era in the seventh century. From this history, Mosshammer draws the fresh hypothesis that Dionysius did not calculate or otherwise invent a new date for the birth of Jesus, instead adopting a date that was already well established in the Greek church. Mosshammer offers compelling new conclusions on the origins of the Christian era drawing upon evidence found in the fragments of Julius Africanus, of Panodorus of Alexandria, and in the traditions of the Armenian church.

The Berenstain Bears and the Real Easter Eggs Stan Berenstain,Jan Berenstain,2011-03-30 Sister Bear sure likes to celebrate holidays. With Thanksgiving, you get turkey and all the trimmings. Christmastime brings presents galore. And Valentine's Day--well, who wouldn't like to receive 23 valentines? Especially when some of them are sealed with a kiss! With visions of chocolate bunnies and jellybeans dancing in her head, it's no wonder why Sister can't wait for Easter and the Giant Beartown Easter Egg Hunt. Mama Bear worries though. Is the true meaning of Easter getting lost in the hunt? Or will the miracle of spring help Sister Bear find a whole new appreciation for the season?
