**Programming the Windows Runtime by Example** Jeremy Likness, John Garland, 2014-06-03 Master Windows 8.1/Windows Runtime Programming Through 80 Expert Projects This is the most complete, hands-on, solutions-focused guide to programming modern Windows applications with the Windows Runtime. Leading Windows development consultants Jeremy Likness and John Garland present easy-to-adapt C# and XAML example code for more than 80 projects. Their real-world application examples help you apply Windows 8.1's best improvements, including large tiles, the new search control, flyouts, command bars, native WinRT networking, and new deployment and sideloading options. Drawing on their pioneering experience, they illuminate key areas of the Windows Runtime API, offering uniquely detailed coverage of encryption, cloud connectivity, devices, printers, and media integration. You'll find cutting-edge tips and tricks available in no other book. This is an indispensable resource for all intermediate-to-advanced Windows developers, and for any architect building desktop, tablet, or mobile solutions with Microsoft technologies. Its focus on both C# and XAML will make it valuable to millions of Windows developers already familiar with Silverlight, WPF, and/or .NET. Coverage includes • Creating robust app interfaces with the newest XAML controls, including flyouts and command bars • Saving data in a persistent "roaming zone" for syncing across Windows 8.1 devices • Using Visual State Manager (VSM) to build apps that adapt to various device resolutions and orientations • Integrating virtually any form of data into your apps • Connecting with web services, RSS, Atom feeds, and social networks • Securing apps via authentication, encrypting, signing, and single sign-on with Microsoft Account, Facebook, Google, and more • Leveraging Windows 8.1 media enhancements that improve battery life and app performance • Networking more effectively with Windows 8.1's revamped HTTP implementation and new location APIs • Using Tiles and Toasts to keep apps alive and connected, even when they aren't running • Enabling users to send content between devices via NFC tap and send • Ensuring accessibility and globalizing your apps • Efficiently debugging, optimizing, packaging, and deploying your apps • Building sideloadable apps that don't have to be published in Windows Store "This book doesn't just focus on singular concepts, it also provides end-to-end perspective on building an app in WinRT. It is one of those essential tools for Windows developers that will help you complete your software goals sooner than without it!" –Tim Heuer, Principal Program Manager Lead, XAML Platform, Microsoft Corporation

Historical Painting Techniques, Materials, and Studio Practice Arie Wallert, Erma Hermens, Marja Peek, 1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled Historical Painting Techniques, Materials, and Studio Practice at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall

painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

**An Intimate Note to the Sincere Seeker** Sri Sri Ravishankar, 2019-03-04 Weekly Knowledge Sheets given by Sri Sri Ravi Shankar, a practice which began from the year 1995 and now, have been compiled into Seven Volume Series of books. This book (Volume I) is a collection of weekly talks, conversations and messages that Sri Sri Ravi Shankar gave between June 21 1995 to June 13 1996. An Intimate Note to the Sincere Seeker is a compilation of excerpts of talks by Sri Sri Ravi Shankar in the year 1995 - 1996. While these talks often discuss the state of the world at the time they were written, because they discuss human life on the most basic levels - love, hatred, trust, peace, silence, happiness, they are still valuable today. They give us an insight into this knowledge that is so deeply profound, yet so simple, knowledge that does not just remain in the intellect, but is beautifully and effortlessly integrated into daily life. Sri Sri avoids lengthy discussions about the deeper philosophy of life, yet his talks reflect these values to their very core. This book is specially compiled to help readers going through an emotional phase or who need a guidance in life. The reader can go through any one random page (365 chapters for 365 days) for help or can follow as per ones discretion

**Tasty Adulthood** Tasty, 2020-11-10 BuzzFeed's Tasty helps you conquer the kitchen—one meal at a time. **Twelve Years a Slave** Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

*An Introduction to Search Engines and Web Navigation* Mark Levene,2011-01-14 This book is a second edition, updated and expanded to explain the technologies that help us find information on the web. Search engines and web navigation tools have become ubiquitous in our day to day use of the web as an information source, a tool for commercial transactions and a social computing tool. Moreover, through the mobile web we have access to the web's

services when we are on the move. This book demystifies the tools that we use when interacting with the web, and gives the reader a detailed overview of where we are and where we are going in terms of search engine and web navigation technologies.

**Web Search** Amanda Spink, Michael Zimmer, 2008-09-16 Web search engines are not just indispensable tools for finding and accessing information online, but have become a defining component of the human condition and can be conceptualized as a complex behavior embedded within an individual's everyday social, cultural, political, and information-seeking activities. This book investigates Web search from the non-technical perspective, bringing together chapters that represent a range of multidisciplinary theories, models, and ideas.

**The Florist's Daughter** Patricia Hampl, 2009-01-15 This New York Times Notable memoir of a middle-class, middle-America family is a "beautiful bouquet of a book" (Entertainment Weekly). They say "a daughter is a daughter all her life," and no statement could be truer for Patricia Hampl. Born to a Czech father—an artistic florist—and a wary Irish mother, Hampl experienced a childhood in St. Paul, Minnesota, that couldn't have been more normal, the perfect example of a twentieth century middle-class, middle-American upbringing. But as she faces the death of her mother, Hampl reflects on the struggles her parents went through to provide that normal, boring existence, and her own struggles with fulfilling the role of dutiful daughter as she grew through the postwar years to the turbulent sixties and couldn't help wanting to rebel against the notion of a "relentlessly modest life." Named a Chicago Tribune Best Book of the Year, *The Florist's Daughter* is Hampl's most extraordinary work to date—a "quietly stunning" reminiscence of a Midwestern girlhood, and a reflection on what it means to be a daughter (People).

**Management Mantras** Sri Sri Ravi Shankar, 2014-01-01 Organisations the world over today are paying more and more attention to how to prevent their workforce from getting burnt out due to an unrelenting pace of work. Views are radically changing on these practices to ensure that employees perform consistently well over many years. In this book, Sri Sri offers valuable tips for managers and leaders to become more effective in their roles and also on how to develop a work environment that is conducive for both the employees and the organisation to add value to each other.

**Semantic Role Labeling** Martha Palmer, Daniel Gildea, Nianwen Xue, 2011-02-02 This book is aimed at providing an overview of several aspects of semantic role labeling. Chapter 1 begins with linguistic background on the definition of semantic roles and the controversies surrounding them. Chapter 2 describes how the theories have led to structured lexicons such as FrameNet, VerbNet and the PropBank Frame Files that in turn provide the basis for large scale semantic annotation of corpora. This data has facilitated the development of automatic semantic role labeling systems based on supervised machine learning techniques. Chapter 3 presents the general principles of applying both supervised and unsupervised machine learning to this task, with a description of the standard stages and feature choices, as well as giving details of several specific systems. Recent advances include the use of joint inference to take advantage of context sensitivities, and attempts to improve performance by closer integration of the syntactic parsing task with semantic role labeling. Chapter 3 also discusses the impact the

granularity of the semantic roles has on system performance. Having outlined the basic approach with respect to English, Chapter 4 goes on to discuss applying the same techniques to other languages, using Chinese as the primary example. Although substantial training data is available for Chinese, this is not the case for many other languages, and techniques for projecting English role labels onto parallel corpora are also presented. Table of Contents: Preface / Semantic Roles / Available Lexical Resources / Machine Learning for Semantic Role Labeling / A Cross-Lingual Perspective / Summary

**Criminal Copyright** Eldar Haber, 2018-08-16 In this book, Eldar Haber analyzes the circumstances, justifications, and ramifications of the criminalization process and tells the story of how a legal right in the private enforcement realm has become over-criminalized. This work should be read by anyone concerned with the future of copyright and intellectual property.

*Whose Land is it Anyway* Benjamin Sibangani Sibanda, 2021-08-12 Land controversies are as old as humanity itself; wars have been fought over land; countries have been colonised for land; indeed it can be argued that all conflicts in the world are, ultimately, about land. Yet in spite of many years 'experience' in fighting over land, we seem no closer to a solution. After twenty years of achieving 'Nationhood', Zimbabwe made an effort to tackle this age old problem within its borders; pitting the 'privileged' white land owners, to whom history had given certain advantages, against their poorer black fellow country folk to whom the same history had been rather unkind. It is therefore a story that generally evokes much emotion and is often told from one side or the other. This novel attempts to tell, in a balanced, fair and unbiased manner, the story of Zimbabwe's attempt to resolve 'the land question'. The result is an engaging, well woven story whose fictitious disguise depicts with uncanny accuracy, the complications, contradictions and controversies that dogged the process and some of the unintended and unfortunate results of it.

**System Center Configuration Manager Current Branch Unleashed** Kerrie Meyler, Gerry Hampson, Saud Al-Mishari, Greg Ramsey, Kenneth van Surksum, Michael Wiles, 2018 This is the comprehensive reference and technical guide to Microsoft System Center Configuration Manager Current Branch. Glacier Skywalk Clea Sturgess, Trevor Boddy, Jeremy Sturgess, 2017-04-25 Magical. Breath-taking. Unforgettable. Perched high above the Sunwapta Canyon in Canada's Rocky Mountains, Glacier Skywalk is all of these things--and more. Its choreographed pathways and cantilevered viewing platform allow visitors to see and experience the world in a whole new way. Glacier Skywalk tells the inside story of this award-winning collaboration between Parks Canada, Brewster Travel and the combined design-and-build team of Sturgess Architecture, PCL Constructors and RJC Consulting Engineers. Insightful essays by Trevor Boddy and Clea and Jeremy Sturgess reveal how the ideas came together and were realized in built form. Detailed sketches, three-dimensional renderings and stunning photographs by Robert Lermeyer show how the structures evolved from start to finish. From the larch wood kiosk that welcomes visitors just off the Icefields Parkway, through the rock-lined walls, the glass floors and railings and the jagged steel forms that emulate mountains and glaciers, Glacier Skywalk reflects and highlights its surrounding environment. Whether or not you have stood suspended over the canyon--floating exposed to the elements, moving gently with the wind and visitors' footfalls, Glacier Skywalk captures the brilliance of the design and the magic of the experience. It is a book to treasure for years to come.

The Prize and the Price Melissa E. Steyn, Mikki Van Zyl, 2009 What is the prize, and who pays the price? The desired and the desirable are often constellated through our ideas of what is undesired and undesirable, deeply knotted into our sense of self, our sense of where and how we fit into the world. These notions of desire form the backdrop to this powerful volume which examines the historical continuities and interruptions of heteronormativity in South African society. Leading and emerging scholars disentangle the strands of particular sexual identities, and deepen the reader's understanding of the multiple workings of heteronormativity in South African society in particular, and sexuality in general. Through analyzing where and how heteronormativity intersects with other axes of power and social identity, contributors to this volume reveal that it is not monolithic, and heterosexuality as the South African norm is effectively 'outed' from within heteronormativity. The chapters extend beyond the well researched areas of sexuality - same sexualities, HIV/AIDS and gender-based violence - to less discussed areas, such as childhood sexuality and disability. The multiplicity of issues raised have relevance for a range of readers interested in the fledgling field of Sexualities Studies, and in its significance the scholarship extends well beyond the borders of South Africa--Cover.
