**Producing Independent 2D Character Animation** Mark A. Simon,2013-02-11 PRODUCING INDEPENDENT 2D CHARACTER ANIMATION takes an in-depth look at the artistry and production process of cel animation in a friendly, how-to manner that makes the sometimes tedious process of animation enjoyable and easy to understand. This book guides animators through every step of planning and production; includes examples of actual production forms, organization tips, screen shots, and sketches from the pre- to post-production processes; and contains detailed information on the hardware and software used to complete each step. By mapping out the course of how his small studio brainstormed, created, then produced its award-winning animation, TIMMY'S LESSONS IN NATURE, Mark Simon explains to animators what it takes-both creatively and resource-wise-to get their animations to market. Includes exclusive interviews with Oscar-nominated independent animator Bill Plimpton, Craig McCracken, creator of the POWER PUFF GIRLS, Craig Spike Decker of SPIKE & MIKE'S SICK AND TWISTED FESTIVAL OF ANIMATION, David Fine & Alison Snowden who are the Academy Award-Winning producers of BOB AND MARGARET, Cartoon Network's Senior Vice President of Original Animation, Linda Simensky, and Tom Sito, Co-Director of OSMOSIS JONES...as well as others.

*Timing for Animation* Harold Whitaker,John Halas,2013-01-17 Written by two internationally acclaimed animators, this classic text teaches you all you need to know about the art of timing and its importance in the animated film. This reissue includes a new foreword by John Lasseter, executive vice president of Pixar Animation Studios and director of 'Toy Story', 'Toy Story 2', 'A Bug's Life' and 'Monsters Inc.' He sets the wealth of information in this classic text in context with today's world of computer animation, showing how this is a must-have text if you want to succeed as a traditional drawn, or computer animator. Learn all the tips and tricks of the trade from the professionals. How should the drawings be arranged in relation to each other? How many are needed? How much space should be left between one group of drawings and the next? How long should each drawing, or group of drawings, remain on the screen to give the maximum dramatic effect? The art of timing is vital. Highly illustrated throughout, points made in the text are demonstrated with the help of numerous superb drawn examples. 'Timing for Animation' not only offers invaluable help to those who are learning the basis of animation techniques, but is also of great interest to anyone currently working in the field and is a vital source of reference for every animation studio. John Halas, known as the 'father of animation' and formerly of Halas and Batchelor Animation unit, produced over 2000 animations, including the legendary 'Animal Farm' and the award winning 'Dilemma'. He was also the founder and president of the ASIFA and former Chairman of the British Federation of Film Societies. Harold Whitaker is a professional animator and teacher. Many of his former students are now among some of the most outstanding animation artists of today.

**After Effects and Photoshop** Jeff Foster,2006-07-14 ... a book that needs to be on every motion graphic designer's shelf. —Scott Kelby, President, National Association of Photoshop Professionals Author Jeff Foster appeared on the DV Guys, a weekly radio show devoted to DV professionals and enthusiasts, for a LIVE online interview on Thursday, June 17, 2004. If you missed it, you can still listen to their archive. If you're in the business of motion graphics or desktop digital video production, you know that Adobe's After Effects and Photoshop are two of the most indispensable content creation tools. More integrated than ever before, the world's number-one compositing and image-editing programs can be used in tandem to create quality work at a relatively low cost. But it takes years of experience to figure out how to get the most out of this remarkable duo. With After Effects and Photoshop: Animation and Production Effects for DV and Film, graphics guru Jeff Foster has created the first book devoted to showing how you can use these two programs together to produce animations and effects on the desktop. This practical guide focuses exclusively on techniques commonly used in the field as well as cutting-edge production tricks. These hands-on projects will demystify cool Hollywood effects and help you solve your daily challenges. And they'll inspire you to think more artistically when approaching your creations. Inside, you'll discover pro techniques for motion graphics and video production, including how to: Add depth and realism to your animations by mimicking real motion Use exaggerated movements to enhance characterization Apply 3-D animation to 2-D images Remove background fodder with blue-screen garbage mattes Employ rotoscoping techniques for frame-by-frame retouching Construct realistic composites and scene locations using matte painting techniques Make movies from stills by simulating 3-D camera motion Utilize perspective, speed, and scale to create believable moving objects Produce realistic special effects such as noise, clouds, and smoke Practice imaginative motion titling effects that grab people's attention Develop professional scene transitions using 3-D layer animations And much more!
