<http://www.youtube.com/c/EdizSözüer> ACADEMIC PROOF OF THE CREATOR - New Perspectives from the Treatise of Nature - (An imaginary and mental journey of discovery in the depths of divine technology) Providing academic proof

of the truth of the Belief in Allah on an intellectual and scientific basis. This book is penned down in order to introduce you a piece of work, that is so unbelievably and astonishingly perfect that it will surprise you with the high truths and grand scientific discoveries contained therein and will make some of you say “ How come I have never heard of it until now!” (Or could not really discover it). The main subject of study of these books and the Treatise of Nature is the following: To give correct answers to three basic questions of existence, which have remained as the unknown secrets of the universe that have been always wondered by the humanity. The discovery of the right answers in these areas has been possible not only with the use of the mind/intellect which is incapable of reaching to the truth on its own but rather with the common guidance of divine revelation and the mind. Nevertheless, the answers to the questions that were asked have been discovered solely with rational inferences and logical evidences. These three questions are: “Where did this universe and those within it come from? Where will they go? And Why are they here, what is their mission? That is to ask “What are we doing here?” High truths, which the whole humanity needs and which are appealing to all those who look for the explanation of the basic reality of existence and which is more interesting for the world of science and the scientists and which is brought by divine revelation, are discovered once again and proved with rational methods in these works. Especially today, while quantum physics, astronomy and astrophysics have reached to such advanced levels, common answers are looked for these three questions on matter, universe and human being; the science and these works study the same subjects and share a common ground of work. Here you are: The work, which contains in itself a spiritual/immaterial treasury for people

who have an irresistible interest and passion for science and learning, is called RISALE-I NUR (TREATISE OF LIGHT). The Treatise of Nature has a special place within Risale-i Nur. In "the New Perspectives from the Treatise of Nature", you are invited for an adventure of looking for and finding out the truth. * Studying academically, on the basis of logic and science, the theories which are developed as alternatives to the existence of a Creator in order to explain the astonishing happenings and the liveliness in the universe. *In a world where we stand as observers, looking for answers to questions: Where did we come from? Where are we going and who are we? What are we doing here? Together we are setting on a journey of discovery along the lines that we wrote in order to make some contribution to the efforts to understand the functioning and the purposes of the universe, which is the final target and the arrival point for all sciences. We have a very strong reason to begin this journey: to witness the magnificent details of the divine technology and uniqueness of the artful creation and hence, to take a big step on the way of achieving the true faith that was demanded from us by Allah. We would like you to accompany us in this imaginary and mental journey of discovery. There is only one fixed price for a ticket of the Journey: a strong sense of wonder in the search for truth. **YOU ARE INVITED TO THE ADVENTURE!** Discovering the high truths about the humanity, life, universe and religion... Advancing along the way of progress for mind, soul and heart... Making sense of the world in which we exist... Obtaining an awareness that is more amazing than ever before... Understanding the working mechanisms of the divine technology... A Wonderful Mental journey... Amazing Facts... Creator's Economy in Metaverse Platforms: Empowering Stakeholders Through Omnichannel Approach Singla, Babita,Shalender, Kumar,Singh, Nripendra,2024-02-26 In the era of the metaverse, a big challenge permeates the digital landscape—a challenge that resonates both with creators seeking to thrive in this dynamic space and policymakers attempting to navigate its uncharted territories. Creators, driven by innovation, grapple with a myriad of uncertainties in monetizing their virtual content effectively. Simultaneously, policymakers find themselves at a crossroads, caught between the rapid evolution of the virtual realm and the lack of clear regulatory guidelines. This struggle is exacerbated by the issue of cybersecurity threats that cast a shadow over the metaverse's transformative potential. It is within this context of challenges that Creator's Economy in Metaverse Platforms emerges, poised to tackle the pressing issues at the intersection of creativity, regulation, and the ever-expanding metaverse. Creator's Economy in Metaverse Platforms dissects, analyzes, and offers solutions to the multifaceted challenges prevailing in the metaverse. By addressing fundamental questions about the creator economy, the elusive concept of the metaverse economy, and the indispensable role policymakers play, the book provides a holistic understanding of the landscape. Delving into topics such as stakeholder engagement, digital asset management, and the intricacies of various monetization models, it equips readers with actionable insights. Not content with a reactive approach, the book takes a

proactive stance, offering solutions to foster interoperability and create an ecosystem where creators and policymakers can mutually thrive. It envisions not just a book but a catalyst for transformative change in the metaverse.

Sandtray Roxanne Rae, 2013 Sandtray refers to psychotherapies that use sand, water, and miniatures in a tray of sand where clients create a three-dimensional world. This story-driven book is based in clinical practice and illustrated by 40 photographs and charts. Students, experienced play therapists, and psychotherapists alike will discover how to negotiate both verbal and nonverbal therapeutic interactions. A detailed framework for approaching Sandtray and play therapy is provided based on interpersonal neurobiology and Margaret Lowenfeld's play research.
