ScreenFlow Concepts Jose John,2013-05-25 Do you want to create video tutorials and screencasts on Mac OS X? ScreenFlow is a popular video editor for Mac OS X that provides elegant tools for screen capture, for video editing and for publishing to video-hosting websites such as YouTube. This short ebook will simplify the complexity in this powerful application to help you create screencasts with confidence. When you master 5 key concepts, you will be well on your way to mastering ScreenFlow: Concept #1: Before you start your screen capture, take a moment to plan the final output and save a lot of editing time down the road. Concept #2: ScreenFlow places clips on a timeline, and there are many types of clips. If you understand video clips, you've got them all figured out. Concept #3: A polished screencast has helpful animations such as zoom-and-pan effects which are accomplished using video actions in ScreenFlow. And if you understand video actions, you got audio under control too. Concept #4: Selectively and judiciously emphasize the mouse & keys pressed during a recording. Concept #5: Use Callouts to draw attention to a region of the screen capture. The ebook also provides a step-by-step workflow to guide you from screen capture through to video editing to publishing your screencast. The workflow has been sequenced to maximize editing efficiency and save you time during video editing.

Video Marketing Made Simple For Business Owners Raymond Wayne,2020-09-18 Video Marketing is literally on fire! Embrace the Power and Potential of Video Marketing And use this medium to catapult your web business to the next level. Check out on " Video Marketing Made Simple For Business Owners " Finally, you have this once in lifetime opportunity to get your hands on the video marketing tools & Strategies that are generating million dollar revenues . Businesses invest a lot of time determining who their target demographic is, and for good reason. When a business knows which demographic is buying and using their product, it's going to be easier to market to that demographic. Middle-aged women are going to respond to ads differently than millennials; and what one group finds engaging and interesting, another may not. So it's important for businesses to understand what demographic they are targeting so they get the marketing just right for them. But, businesses don't have to go to such trouble when they're using

video marketing because video marketing reaches every demographic and is interesting to every demographic. And this is because men and women, and people of every age, love video. As long as it's interesting and creative, people will like a video regardless of their background or history. This can be a bonus for businesses that know who their demographic is, simply because more people will share it and like it, even if they don't make up part of the business' demographic. But it's also especially good news for businesses with a shifting demographic, or for those that don't know how makes up their demographic. That happens sometimes when a business changes directions or changes their product or service slightly, and then they have to start back at square one with their marketing efforts. But when a business has already created videos as part of their marketing plan, they don't have to change a thing because those videos will already be suitable for every demographic. Imagine one type of marketing that appeals to every single demographic. It seems too good to be true, but it's not. That type of marketing is video marketing, and reaching every demographic is just one very good reason why every business should be investing in it.

Trust Funnel Brian G. Johnson, 2015-02-03 How does a dyslexic college dropout become an Internet marketing guru, living a life of wealth and freedom many people only dream of? Answer: by seeing a need and filling it. When his dad purchased a shiny new Apple 2E in 1983, it didn't take long for Brian G. Johnson to discover video games. He was hooked. However, what really blew him away was what he discovered several years later—the Internet. Brian knew it would completely change how and where people spent their money. Most of all, it would level the playing field for average folks, allowing them to cash in as it reached the masses. Trust Funnel is one part memoir, three parts how-to manual for anyone seeking the freedom to work when and where they want as they build an Internet marketing business on a shoestring budget. Inspired by Zig Ziglar, it examines how the Web and online success revolve around trust and the acts of: listening liking trusting buying Trust can be found in many places online. It can be found among site visitors who decide to like a page or post. It can be found in another selfie that appears on someone's Facebook newsfeed. And it can be found in the complex algorithms that power Google rankings, Facebook, and the various other social sites. Gone are the days of links, Google page rankings, and Facebook's EdgeRank. Today's online currency that powers the Web and online success is trust. With Trust Funnel, Brian provides detailed formulas and rituals that enable anyone to leverage the exact same strategies, tactics, and philosophies that have allowed him to drive traffic, build trust, and earn a very comfortable living. Trust Funnel tells the story of his mind-boggling success and can be the springboard to yours.

The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

99 Tips for Creating Simple and Sustainable Educational Videos Karen Costa, 2023-07-03 The research is clear: online learning works best when faculty build regular, positive, and interactive relationships with students. A strategy that helps forge such a relationship is the use of videos.

Student satisfaction and course engagement levels also increase with the use of instructor-generated videos – the subject of this book. Beginning by outlining the different types of videos you can create, and what the research says about their effectiveness, Karen Costa explains how they can be designed to reinforce learning, to align with and promote course outcomes, and to save you time across your courses. She then describes how to create successful videos with commonly available technologies such as your smartphone, and without a major investment of time, demonstrating the simple steps she took to develop her bank of videos and build her confidence to deliver short, straightforward learning aids that are effective and personal. Embedded QR codes in the text enable you to view sample videos and screencasts that bring the book's advice to life as you read. If you've been wanting to include videos in your teaching but haven't found the time or confidence, this book will help you to develop a simple and sustainable video development process, supporting both your success and the success of your students.

Creating Training Videos Jonathan Halls,2024-04-09 LIKE FILM SCHOOL FOR TRAINERS! Film and edit effective training videos—using your smartphone. Whether you're a facilitator, instructional designer, or L&D department of one, you don't need a fancy DSLR camera or film crew to create successful training videos. All you really need is a learning strategy, a good production plan, and a smartphone camera. Informed by his 30-year career in training and media, including his time as learning executive with the BBC, author Jonathan Halls is committed to best practices in video production that will actually help your learners to learn, and without a giant strain on your resources. With straightforward and accessible language, in *Creating Training Videos* you'll get: The intersection of media and learning research: Uncover how your videos can effectively provoke learning. Best practices for instructional video: Create a smart outline for your instructional video, creatively use repetition, highlight schemas that are familiar to your audience, and more. Visual grammar: Learn rules of film that you can put into effect immediately, like framing your shots and selecting the best shot sizes to more powerfully support learning. Planning your pictures: Gain a practical framework for mapping out the elements of your video using storyboards, shot formulas, and narrative templates designed to meet various training needs. Understand how picture, graphics, spoken word, and more come together to tell your story. Your videographer's toolkit: An honest discussion of essential gear, helpful gear, and the serious tools you might consider for your toolkit. Filming with your smartphone: Learn how to best light, stabilize, and frame your shots using the tool you already have in your pocket. Editing and workflow: Stitch shots together for a powerful final product that supports learning, no matter what software you decide to use (yes, even an app on your phone!), and workflow considerations that satisfy all of your stakeholders. With 96 percent of organizations using video as a key modality for workplace learning and 62 percent of organizations posting video (for L&D and other purposes) to YouTube, the ability to produce video is a sought-after skill in the L&D world. *Creating Training Videos* teaches you step-by-step how to plan, film, and edit smart instructional content—using only a smartphone and without compromising quality and success.

web to answer this question we can use either the fv or the pv formula

both will give the same answer since they are the inverse of each other we will use the fv formula that is $fv = pv \cdot (1 + r)^t$ solving for r we get $r = \frac{fv - pv}{pv \cdot t}$ $1 + r = \frac{fv}{pv}$ $1 + r = \frac{290\,000}{55\,000}$ $1 + r = 1.0968$ or $r = 0.0968$ b 60 solutions 7
